

## ASX RELEASE | CLEARVUE TECHNOLOGIES LIMITED

(ASX:CPV | OTCQX:CVUEF)

## ClearVue Expands MENA Footprint through Dune Trading in UAE

### HIGHLIGHTS

- ClearVue expands its strategic partnership with Alutec and Aria Holding by varying its Manufacturing and Distribution Agreement with Alutec to provide for sub-distribution through Dune MENA General Trading L.L.C., a subsidiary of Aria Holding to distribute ClearVue's innovative solar glass products in the United Arab Emirates (UAE)
- Expansion of the Alutec Manufacturing & Distribution Agreement paves the way for ClearVue's UAE market entry through Alutec and for further agreements with Aria Holding's affiliates in India mid-2025 and Saudi Arabia later in 2025

**13 January 2025:** ClearVue Technologies Limited (ASX: CPV) (*ClearVue* or the *Company*) is pleased to announce the expansion of its arrangements with Alutec - a variation to its Manufacturing and Distribution Agreement with Alutec in Qatar to explicitly permit sub-distribution by Alutec through related entity Dune MENA General Trading L.L.C., a subsidiary of Aria Holding (*Dune Trading*), expanding ClearVue's reach into the UAE.

This agreement marks a significant step in ClearVue's strategy to establish a robust presence in the rapidly growing Middle Eastern market. This expansion of the partnership leverages ClearVue's innovative Building Integrated Photovoltaic (BIPV) solutions, enabling sustainable construction solutions that meet increasing energy efficiency demands in the Middle East region.

The expansion of the Alutec Manufacturing and Distribution Agreement to provide for sub-distribution through Dune Trading in UAE will enable the distribution of ClearVue's advanced solar glazing products, including its flagship ClearVue PV Solar Vision Glass directly within the UAE.

Alutec in Qatar will manufacture and supply finished IGU products to Dune Trading to supply this market. ClearVue may also support that supply directly for ClearVue's spandrel and cladding products.

Martin Deil, Global CEO of ClearVue Technologies, commented:

*"Expansion of the agreement to include Dune Trading in the UAE represents another milestone in ClearVue's expansion into the Middle East. The UAE is a dynamic market committed to bold construction projects with ambitious sustainability goals, and we are excited to bring our technology to projects that will help meet these goals."*

*"Our expanding relationship with Alutec through Aria Holding demonstrates the scalability and adaptability of our solar glazing technology. We look forward to partnering with other Aria Group Companies as we continue to deliver on our strategy of regional and global growth."*

Suraj Thampi, CEO of Alutec and Dune added:

*“The UAE is at the forefront of innovation in the region, and ClearVue’s advanced technology aligns perfectly with our objectives of promoting bold, sustainable and smart construction. This partnership will provide game-changing solutions to meet growing energy demands while advancing sustainability goals across the region.”*

ClearVue anticipates further strengthening its relationship with Aria Holding through:

- India - a planned agreement with another subsidiary of Aria Holding, expected to be signed in mid-2025, targeting the Indian construction market, which is projected to exceed \$1.4 trillion by 2025.
- Saudi Arabia - an agreement with a new Aria Holding entity, set for later in 2025, to serve the burgeoning construction market in the Kingdom of Saudi Arabia.

#### **ABOUT CLEARVUE TECHNOLOGIES LIMITED**

ClearVue Technologies Ltd (ASX: CPV | OTCQX: CVUEF), headquartered in Australia, is a global leader in integrating advanced solar technology into building surfaces. Our patented solar glass technology allows energy generation from clear glass windows, making it unique in the market. This technology can be applied to windows, skylights, greenhouses, and facades, enhancing the sustainability and energy efficiency of buildings by generating energy from nearly all surfaces.

ClearVue’s innovation extends to a range of Building Integrated Photovoltaic (BIPV) products, enabling entire buildings to generate electricity. This approach addresses the significant challenge of decarbonizing the global economy. The company aims to provide practical, actionable, and quantifiable net-zero or near-net-zero energy solutions, offering environmental, social, and shareholder benefits over the medium to long term.

Since its listing on the Australian Stock Exchange in May 2018, ClearVue has expanded its global footprint through license partners, ensuring compliance with international standards across key markets. The company has an extensive intellectual property portfolio for its key innovations and products and is guided by a board and executive team with extensive industry experience focused on rapid commercialisation of its products into a large and expanding global market.
