COMPETENT PERSONS STATEMENT

The information in this presentation that relates to Exploration Results is based on information compiled or reviewed by Ms Felicity Repacholi, a Competent Person who is a Director of the Company. Ms Repacholi is a Member of the Australian Institute of Geoscientists and has sufficient experience relevant to the style of mineralisation and type of deposit under consideration, and to the activities undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Ms Repacholi consents to the inclusion in this report of the matters based on this information in the form and context in which it appears.

This Mineral Resource estimate was compiled by Shaun Searle, a Member of the Australian Institute of Geoscientists. Mr Searle has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Searle is a director of Ashmore Advisory Pty Ltd ("Ashmore"). Ashmore and the Competent Person are independent of the Company and other than being paid fees for services in compiling this report, neither has any financial interest (direct or contingent) in the Company.

FORWARD LOOKING STATEMENTS

Some statements in this report regarding estimates or future events are forward-looking statements. Forward-looking statements include, but are not limited to, statements preceded by words such as "planned", "expected", "projected", "estimated", "may", "scheduled", "intends", "anticipates", "believes", "potential", "could", "nominal", "conceptual" and similar expressions. Forward-looking statements, opinions and estimates included in this announcement are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions. Forward-looking statements are provided as a general guide only and should not be relied on as a guarantee of future performance. Forward-looking statements may be affected by a range of variables that could cause actual results to differ from estimated results expressed or implied by such forward-looking statements. These risks and uncertainties include but are not limited to liabilities inherent in exploration and development activities, geological, mining, processing and technical problems, the inability to obtain exploration and mine licenses, permits and other regulatory approvals required in connection with operations, competition for among other things, capital, undeveloped lands and skilled personnel; incorrect assessments of prospectivity and the value of acquisitions; the inability to identify further mineralisation at the Company's tenements, changes in commodity prices and exchange rates; currency and interest rate fluctuations; various events which could disrupt exploration and development activities, operations and/or the transportation of mineral products, including labour stoppages and severe weather conditions; the demand for and availability of transportation services; the ability to secure adequate financing and management's ability to anticipate and manage the foregoing factors and risks and various other risks set out in the Prospectus and in this presentation. There can be no assurance that forward-looking statements will prove to be correct.

Statements regarding plans with respect to the Company's mineral properties may contain forward looking statements. Statements in relation to future matters can only be made where the Company has a reasonable basis for making those statements.

The Company confirms that it is not aware of any new information or data that materially affects the Exploration Results information included in this presentation from the previous Company announcement announced to the ASX on 20 February 2026.

This presentation is authorised for market release by Recharge's Managing Director, Ms Felicity Repacholi.

Transaction Details

Acquisition	Recharge has entered into a binding agreement to acquire 100% of the issued capital in Berma Prospecting Pty Ltd and Glen Huntly Gold Pty Ltd (Target Entities) from the shareholders of each entity (together, the Shareholders) (Proposed Acquisition). The Target Entities together hold a 100% legal and beneficial interest in ten (10) granted Prospecting Licenses, fifteen (15) Prospecting Licenses Applications, and four (4) Exploration Licenses, comprising the Sunset Well Gold Project.
Consideration	260,000,000 fully paid ordinary shares in Recharge; equal to A\$2,600,000 worth of fully paid ordinary shares in Recharge at a deemed issue price of A\$0.01 per share (Consideration Shares).
Capital Raising	Recharge has received firm commitments for a conditional share placement to raise A\$3.97 million via the issue of 397,000,000 fully paid ordinary shares at an issue price at A\$0.01 per share to sophisticated and professional investors including Recharge Directors (Placement).
Use of Funds	Proceeds of the Placement will be used for the exploration and development of the Sunset Well Project, as well as to further investigate the potential of the existing Recharge project portfolio, in addition to working capital requirements.
Approvals and Conditions	The Acquisition is subject to a number of conditions precedent, including Recharge receiving binding commitments for a share placement to raise not less than A\$3.75 million (before costs); and Recharge having obtained all necessary shareholder, third-party and regulatory approvals required to complete the acquisition.
