

ASX Announcement

MLG SECURES \$75M HAULAGE CONTRACT WITH WESTGOLD RESOURCES

MLG Oz Limited (ASX: MLG) (**MLG** or **the Company**) is pleased to announce the execution of a key contract with Westgold Resources Limited (ASX: WGX) (**Westgold**), for the provision of bulk haulage services and agreement to supply goods and/or services across its southern operations in the Goldfields of Western Australia.

The new bulk haulage contract encompasses the provision of bulk ore haulage services to transfer Run of Mine (ROM) ore from Westgold's various mines to its Higgsville and/or Lakewood processing facilities. Furthermore, MLG will be responsible for the management and maintenance of ore stockpiles on the ROM pads at Westgold's mines, as well as ongoing haul road maintenance.

The total combined value of the contract has the potential to exceed \$25 million in revenue per annum for MLG, with an initial three-year term, commencing in early March 2025.

This agreement builds on the relationship that MLG commenced with Westgold in the Murchison region some three years ago. It provides the opportunity for Westgold to leverage MLG's extensive Goldfield's network as it continues to grow and streamline its recently acquired Southern Goldfields operations.

It also further strengthens MLG's presence in the Goldfields region and reinforces its reputation as a leading provider of integrated mining services. This award follows on from a strong period of contract growth for MLG including recent agreements awarded with Northern Star Resources, Evolution Mining and Norton Gold Fields.

MLG Managing Director, Murray Leahy, said the new contract with Westgold represented another important milestone, as MLG continues to broaden its provision of services and scale up operations across the Goldfields.

"We are very pleased to further our relationship with Westgold, the combination of this work into our portfolio builds on the businesses' shared philosophy of unlocking value through a strategic focus on efficiency, safety and scale. Our continued relationship is an endorsement of our team's capabilities, and we look forward to continuing to support Westgold," Leahy concluded.

Authorised for release by the Board of Directors.

About MLG Oz Limited

MLG Oz Limited (ASX: MLG) is a Kalgoorlie-based integrated mining services and resource asset management company, founded by Managing Director Murray Leahy. MLG delivers tailored solutions to mining operations, primarily focused on supporting its clients' ore processing facilities across gold, iron ore and other base metals in Western Australia and the Northern Territory.

MLG offers a comprehensive range of services under an integrated business model, often within a single contractual framework. These include Civil & Construction, Crushing & Screening, Bulk Haulage & Site Services, and the supply of Open Pit Mining & Construction Materials from MLG's strategically located regional quarries.

The Company's key capabilities include build, own, and operate models, contract crushing and screening services, as well as crusher feed and material management.

Services extend to include construction, road maintenance, rehabilitation work, vehicle maintenance, and machinery and labour hire. MLG's dedicated facility at the Esperance Port supports its end-to-end bulk commodity export logistics services.
