BRIGHTSTAR
RESOURCES LIMITED

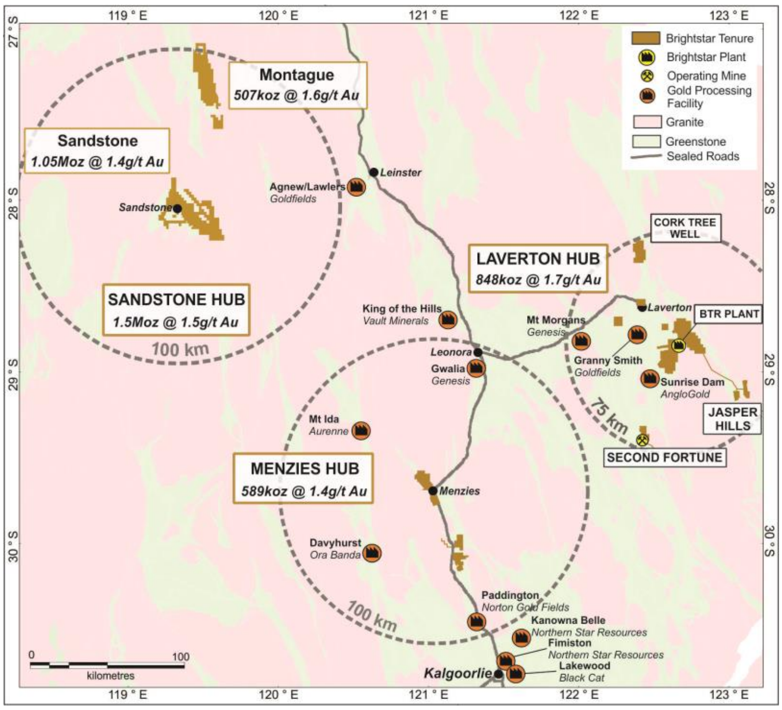
ABOUT BRIGHTSTAR RESOURCES



Brightstar Resources Limited is a Perth-based gold development company listed on the Australian Securities Exchange **(ASX: BTR).**

The Company hosts a portfolio of high-quality assets hosted in the prolific Goldfields region of Western Australia, which are ideally located proximal to significant regional infrastructure and suppliers.

The company currently operates the underground Second Fortune and Fish Gold Mines, which are processed by Genesis Minerals Ltd (ASX: GMD) at their Laverton Mill under and Ore Purchase Agreement.

In August 2024, Brightstar announced the consolidation of the Sandstone district with the integration of the Sandstone and Montague East Gold Project into Brightstar, resulting in a total combined group JORC Mineral Resource of **3.0Moz Au at 1.5g/t Au.** The resource is spread across three geographically separate hubs, providing excellent optionality for a staged development of all assets to build to a meaningful ASX-listed gold producer.

A Definitive Feasibility Study on the Menzies and Laverton Gold Projects, released in June 2025, outlined the production of approximately 70,000oz per annum for five years from the two Hubs. This production is set to deliver excellent financial metrics, including life-of-mine free cash flows of A$461 million and an internal rate of return (IRR) of 73%, at A$5,000/oz gold price.
