## DIRECTORS' REPORT

### PRINCIPAL ACTIVITIES AND REVIEW OF OPERATIONS

During the period the Group focus changed from the Canary Uranium Project in Canada to exploration assets located in Western Australia. The Company chose to withdraw from the Canary Project in November 2024 and has impaired the expenses previously associated with the project.

### EXPLORATION UPDATE

#### CANADA - CANARY URANIUM PROJECT

During the period, the Company announced the withdrawal (see ASX announcement 29 November 2024) from the three-year earn-in option agreement (the "Option Agreement") with Standard Uranium Limited ("Standard Uranium") in respect of the Canary Uranium Project, as per ASX announcement dated 27 December 2023. The decision was made following an internal review by the Company of the financial commitments required to progress beyond Stage 1 of the earn-in process pursuant to the Option Agreement.

#### WESTERN AUSTRALIA - EXPLORATION ACTIVITIES

##### Kimberley Project:

Mamba has initiated a high-level review of the Kimberley Projects, with the Copper Flats Project being the primary focus. The Company has enlisted an independent geologist to evaluate the previous work conducted on the project and recommend suitable next steps. These may encompass additional on-ground activities, seeking a partner for project funding, and minimising the overall project footprint.

##### Ashburton Project:

During the June quarter, the Company undertook a detailed review of its Western Australian asset base. This strategic evaluation focused on identifying priority targets for gold mineralisation and assessing the potential to rationalise non-core assets. The review also included consideration of new project opportunities to enhance shareholder value.

A key outcome of the review was the decision to reinvigorate exploration activities at the Ashburton Project, where the geological setting and historical results provide strong encouragement for further work targeting gold.

Previous exploration at the Ashburton Project has included regional auger geochemical sampling, rock chip sampling, and limited shallow RC drilling, primarily focused on the Bettina Prospect. This work defined a coherent gold anomaly approximately 300m by 200m in size, centred around historical workings. Auger results returned up to 36ppb Au - more than 15 times background levels; whilst rock chip samples from quartz veins in the area have returned high grades up to 46.5g/t Au. Historical RC drilling intersected mineralisation including 4m @ 21.5g/t Au highlighting the potential for high-grade mineralisation (see ASX Announcement dated 27 January 2022).

A detailed exploration program is currently being planned to follow up on these encouraging results and advance the project toward drill-ready targets.

##### Calyerup Creek Project:

The Calyerup Creek Project, which comprises two exploration licences (E70/4998 and E70/5707) covering approximately 45km<sup>2</sup>, is located around 12km east of Jerramungup township in the Great Southern region of Western Australia. The Company remains optimistic about the potential of the project, particularly in terms of its gold prospectivity, and continues to evaluate the geological and exploration data to advance the project.

## DIRECTORS' REPORT

### MATERIAL BUSINESS RISKS

The Board of Directors review the key risks associated with conducting exploration and evaluation activities in Australia and steps to manage those risks. The key material risks faced by the Group include:

#### Exploration and development

The future value of the Group will depend on its ability to find and develop resources that are economically recoverable. Mineral exploration and development is a speculative undertaking that may be impeded by circumstances and factors beyond the control of the Group. Success in this process involves, among other things; discovery and proving-up an economically recoverable resource or reserve, access to adequate capital throughout the project development phases, securing and maintaining title to mineral exploration projects, obtaining required development consents and approvals and accessing the necessary experienced operational staff, the financial management, skilled contractors, consultants and employees.

The Group is entirely dependent upon its projects, which are the sole potential source of future revenue, and any adverse development affecting these projects would have a material adverse effect on the Group, its business, prospects, results of operations and financial condition. The Group seeks to manage and minimise this risk through management of its assets to ensure they are in good standing, renewed where possible and through regular reporting processes both external and internal along with Board regular review.

#### Governance Risks

The Group must comply with a range of governance requirements which are conditions of its listing on the ASX and of its mineral exploration and mining activities. There is a risk that the Group may not be able to achieve the financial performance or outcomes disclosed herein if it fails to comply with those governance requirements or if the requirements change in the future and the Group is no longer able to comply with the requirements or must incur material unplanned expenditure in order to remain compliant. The Group seeks to manage and minimise this risk through its existing risk management framework including Board-approved governance policies which are subject to regular review.

#### Future funding risk

Continued exploration and evaluation is dependent on the Company being able to secure future funding from equity markets. The successful development of a mining project will depend on the capacity to raise funds from equity and debt markets. The Company will need to undertake equity/debt raisings for continued exploration and evaluation. There can be no assurance that such funding will be available on satisfactory terms or at all at the relevant time. Any inability to obtain sufficient financing for the Group's activities and future projects may result in the delay or cancellation of certain activities or projects, which would likely adversely affect the potential growth of the Group. The Group seeks to manage and minimise this risk through its existing risk management framework including Board-approved budgets and cashflows to enable the forward planning of capital raising, which are subject to regular review.

#### Environmental, weather & climate change

The highest priority climate related risks include reduced water availability, extreme weather events, changes to legislation and regulation, reputational risk, and technological and market changes. Mining and exploration activities have inherent risks and liabilities associated with safety and damage to the environment, including the disposal of waste products occurring as a result of mineral exploration and production, giving rise to potentially substantial costs for environmental rehabilitation, damage control and losses. Delays in obtaining approvals of additional remediation costs could affect profitable development of resources. The Group seeks to manage and minimise this risk through its existing risk management framework and through developing detailed environmental management plans and systems going forward.

#### Climate Change Risk

Mining of mineral resources is relatively energy intensive and is dependent on the consumption of fossil fuels. Increase regulation and government policy designed to mitigate climate change may adversely affect the Group's cost of operations and adversely impact the financial performance of the Group.

### CORPORATE ACTIVITIES

On 2 April 2025, the Company announced the appointment of Mr James Bahen and Ms Kristi Bryson as Joint Company Secretaries of Mamba effective immediately, replacing Ms Amanda Burgess following her resignation.

### Operating Results

The net loss after income tax for the year was \$3,048,488 (2024: \$1,254,061).

### Dividends

No dividends were paid during the year and no dividend has been declared for the year ended 30 June 2025 (2024: Nil).

### Significant Changes in the State of Affairs

There have been no significant changes in the state of affairs of the Company during the financial year.

### Matters Subsequent to the End of the Financial Year

No matter or circumstance has arisen since 30 June 2025 that has significantly affected, or may significantly affect, the Company's operations, the results of those operations, or the Company's state of affairs in the future financial periods.

### Likely Developments and Expected Results of Operations

Brief discussion included in the 'review of operations'. More detailed information on likely developments in the operations of the Company and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the Company.

### Indemnity and Insurance of Auditor

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor.

During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

### Indemnification of Officers

The Company has agreed to indemnify all of the Directors of the Company for any liabilities to another person (other than the Company or related body corporate) that may arise from their position as Directors of the Company and its controlled entities, except where the liability arises out of conduct involving a lack of good faith. During the financial year the Company paid a premium in respect of a contract insuring the Directors and officers of the Company and its controlled entities against any liability incurred in the course of their duties to the extent permitted by the *Corporations Act 2001*. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

### Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

The auditor's independence declaration is set out on the next page and forms part of the Directors' Report for the year ended 30 June 2025.

### Environmental Regulations

The Directors are mindful of the regulatory regime in relation to the impact of the organisation's activities on the environment. There have been no known breaches of any environmental regulation by the Company during the financial period.

## DIRECTORS' REPORT

### REMUNERATION REPORT (AUDITED)

The following persons were key management personnel of the Company during the financial year:

- Felicity Repacholi - Non-Executive Chair (appointed 6 Sept 2024, Non-Executive Director 20 July 2023- 5 Sept 2024)
- Simon Andrew – Executive Director (appointed 1 January 2024 Non-Executive Director 1 Feb 2020 – 31 Dec 2023)
- Vikram Kumar - Non-Executive Director (appointed 6 September 2024)
- Justin Boylson - Non-Executive Chairman (resigned 6 Sept 2024)

The information provided in this remuneration report has been audited as required by Section 308(3C) of the *Corporations Act 2001*. This report details the nature and amount of remuneration for each director of Mamba Exploration Limited, and for the executives of the Group.

#### Remuneration Policy

Remuneration levels for the executives are competitively set to attract the most qualified and experienced candidates, taking into account prevailing market conditions and the individual's experience and qualifications. During the year, the Group did not have a separately established remuneration committee. The Board is responsible for determining and reviewing remuneration arrangements for the executive and non-executive Directors.

The remuneration policy of Mamba Exploration Limited has been designed to align director and executive objectives with shareholder and business objectives by providing a fixed remuneration component for short-term incentives and offering specific long-term incentives, based on key performance areas affecting the Group's financial results. The Board of Mamba Exploration Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best executives and directors to run and manage the Group, as well as create goal congruence between directors, executives and shareholders.

The Board's policy for determining the nature and amount of remuneration for the Board members and senior executives of the Group is as follows:

- The remuneration policy, setting the terms and conditions for the executive directors and other senior executives was developed by the Board and legal advisors. All executives receive a base salary (which is based on factors such as length of service and experience) and superannuation where applicable. The Board reviews executive packages annually by reference to the Group's performance, executive performance and comparable information from industry sectors and other listed companies in similar industries.
- The Board may exercise discretion in relation to approving incentives, bonuses and options. The policy is designed to attract and retain the high calibre of executives and reward them for performance that results in long term growth in shareholder wealth.
- Executives will also be entitled to participate in future employee share and option arrangements.
- The Executive Directors and Executives receive a superannuation guarantee contribution required by the government, which was 11.50%, during the year and do not receive any other retirement benefits. Some individuals may choose to sacrifice part of their salary to increase payments towards superannuation.
- All remuneration paid to Directors and Executives is valued at the cost to the Group and expensed. Shares allocated to Directors and Executives are valued as the difference between the market price of those shares and the amount paid by the Director or Executive. Options are valued using appropriate methodologies.

The Board's policy is to remunerate Non-Executive Directors at market rates for comparable companies for time, commitment and responsibilities. The Board determines payments to the Non-Executive Directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. No such advice was obtained during the period. Fees for Non-Executive Directors are not linked to the performance of the Group. However, to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company and can participate in the employee option plan.

#### Non-Executive Directors Remuneration

All Non-Executive Directors are entitled to receive up to \$45,000 per annum for their roles as Directors of the Company and the Chairman is entitled to receive up to \$55,000 per annum.

The Company's Constitution provides that the remuneration of Non-Executive Directors will not be more than the aggregate fixed sum determined by a general meeting. Before a determination is made by the Company in a general meeting, the aggregate sum of fees payable by the Company to the Non-Executive Directors is a maximum of \$250,000 per annum, approved at the 2022 Annual General Meeting. Summary details of remuneration of the Non-Executive Directors are provided in the table below. The remuneration is not dependent on the satisfaction of a performance condition.

---

## DIRECTORS' REPORT

### REMUNERATION REPORT (continued)

On termination, the Executives are entitled to be paid those outstanding amounts owing to the Executives for the period up until the Termination Date. The Executives do not have any entitlement to any payment relating to any period after the Termination Date.

Directors are entitled to be paid reasonable travelling, accommodation and other expenses incurred in consequence of their attendance at meetings of Directors and otherwise in the execution of their duties as Directors. A Director may also be paid additional amounts as fees or as the Directors determine where a Director performs extra services or makes any special exertions, which in the option of the Directors are outside the scope of the ordinary duties of a Director.

#### Other Executives Remuneration Service Agreements

##### Mr Simon Andrew - Executive Director (Appointed 1 January 2024)

Mr Andrew's employment terms are governed by a Service Agreement. The terms of the agreement can be terminated by either party providing three months' written notice. Mr Andrew is entitled to receive a Director's Fee of \$180,000 per annum (exclusive of statutory superannuation).

Mr Andrew is entitled to a Short Term Incentive (STI) of up to 50% of Base Salary annually in cash or securities on attainment of measurable KPI's agreed each financial year.

Mr Andrew is entitled to Long Term Incentives (LTI) from time to time on terms determined by the Company and issue is subject to the rules of the Mamba Employee Share Plan and shareholder approval. Mr Andrew was issued three tranches of Options with an expiry of 3 years and with the following vesting conditions on commencement of the agreement. All options issued to Mr Andrew were approved by shareholders at the Company's General Meeting held on 2 February 2024:

- (1) 4,000,000 with an exercise price struck at 140% of the 5-day VWAP up to the date of shareholder approval
- (2) 3,000,000 with an exercise price struck at 160% of the 5-day VWAP up to the date of shareholder approval
- (1) 3,000,000 with an exercise price struck at 200% of the 5-day VWAP up to the date of shareholder approval

Subject to the ASX Listing Rules and the *Corporations Act 2001*, if the appointment of the Executive is terminated as a result of a change in control of the Company, the Company will pay to the Executive six months' worth of Executive Service Fees as liquidated damages for the Executive's loss of engagement. If the *Corporations Act 2001* or the ASX Listing Rules restricts the amount that can be paid to the Executive on termination to an amount less than that calculated, then the amount can be paid under the *Corporations Act 2001* and the ASX Listing Rules without approval of the Company's shareholders.

#### Shares Issued as a result of the exercise of options

During the year no ordinary shares in the Company were issued as a result of the exercise of remuneration options to Directors of Mamba Exploration Limited or other Key Management Personnel of the Group.

#### Additional information

No performance-based bonuses have been paid to Key Management Personnel during the financial year. It is the intent of the Board to include performance bonuses as part of remuneration packages when mine production commences.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 June 2025

### 1. CORPORATE INFORMATION & STATEMENT OF MATERIAL ACCOUNTING POLICIES

#### Corporate Information

The financial report of Mamba Exploration Limited for the year ended 30 June 2025 was authorised for issue in accordance with a resolution of the Directors on 23 September 2025. The financial report is presented in the Australian currency. Mamba Exploration Limited is a for profit company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange.

#### Material accounting policies

The accounting policies that are material to the consolidated entity are set out below. The accounting policies adopted are consistent with those of the previous financial year, unless otherwise stated.

#### *New or amended Accounting Standards and Interpretations adopted*

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

#### Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

#### *Historical cost convention*

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

#### *Critical accounting estimates*

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note i).

#### *Segment Reporting*

Operating segments are now reported in a manner that is consistent with the internal reporting to the Chief Operating Decision Maker, which has been identified by the Company as the Managing Director and other members of the Board of Directors.

The Company has identified its operating segment based on the internal reports that are reviewed and used by the Board of Directors in assessing performance and determining the allocation of resources. Reportable segments disclosed are based on aggregating operating segments, where the segments have similar characteristics.

For the current reporting period, the Company's activity was mineral exploration and resource development within Australia & Canada, both reportable segments. The reportable segment is represented by the financial statements forming this financial report.

#### a) Going Concern

The financial report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The Company incurred a loss for the period of \$3,048,488 (2024: \$1,254,061) and total net cash operating outflows of \$1,111,606 (2024: \$830,369). As at 30 June 2025, the Company has a working capital surplus of \$479,412 (June 2024: \$790,349).

In context of this operating environment, the ability of the Company to continue as a going concern is dependent on securing additional funding through debt or equity to continue to fund its operational and exploration activities.

These conditions indicate a material uncertainty that may cast a significant doubt about the Company's ability to continue as a going concern and, therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

---

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 June 2025

The financial statements have been prepared on the basis that the Company is a going concern, which contemplates the continuity of normal business activity, realisation of assets and settlement of liabilities in the normal course of business for the following reasons:

- The Company believe they can raise additional funding through debt or equity which is actively pursued.
- The Company has a recent proven history of successfully raising capital; and
- Cash spending can be reduced or slowed below its current rate if required.

Should the Company not be able to continue as a going concern, it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements. The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or liabilities that might be necessary should the Company not continue as a going concern.

b) Trade and other payables

Trade and other payables are initially recognised at fair value and subsequently measured at amortised cost when the Company becomes obliged to make payments resulting from the purchase of goods and services. The amounts are non-interest-bearing, unsecured and are usually paid within 30 days of recognition.

c) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown as a deduction from the equity proceeds.

d) Principles of consolidation

Subsidiaries

The Group financial statements consolidate those of Mamba Exploration Limited ('Parent'), and all of its subsidiaries as of 30 June 2025. The Parent controls a subsidiary if it is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary.

All transactions and balances between Group companies are eliminated on consolidation, including unrealised gains and losses on transactions between Group companies. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

Profit or loss and other comprehensive income of subsidiaries acquired or disposed of during the period are recognised from the effective date of acquisition, or up to the effective date of disposal, as applicable.

Subsidiaries are accounted for in the Parent financial statements at cost. A list of subsidiary entities is contained in Note 14 to the financial statements. All subsidiaries have a 30 June financial period end.

e) Asset acquisition not constituting a business

When an asset acquisition does not constitute a business combination, the assets and liabilities are assigned a carrying amount based on their relative fair values in an asset purchase transaction and no deferred tax will arise in relation to the acquired assets and assumed liabilities as the initial recognition exemption for deferred tax under AASB 112 applies. No goodwill will arise on the acquisition and transaction costs of the acquisition will be included in the capital cost of the asset.

f) Fair value estimation

The nominal value less estimated credit loss adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

g) Impairment of Assets

At each reporting date the Group assesses whether there is any indication that individual assets are impaired. Where impairment indicators exist, the recoverable amount is determined, and impairment losses are recognised in the Consolidated Statement of Profit or Loss and Other Comprehensive Income where the asset's carrying value exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

For the purpose of assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Where it is not possible to estimate the recoverable amount for an individual asset, recoverable amount is determined for the cash generating unit to which the asset belongs.

---

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 June 2025

### h) Exploration and Evaluation Assets

Exploration and evaluation expenditure are assessed and carried forward where right to tenure of the area of interest (i.e. tenement) is current and is expected to be recouped through sale or successful development and exploitation of the area of interest, or where exploration and evaluation activities in the area of interest have not reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to the area of interest. The carrying value of any capitalised expenditure is assessed by the Directors each period to determine if any provision should be made for the impairment of the carrying value. The appropriateness of the Group's ability to recover these capitalised costs has been assessed at year end and the Directors are satisfied that the value is recoverable after consideration of impairment. The carrying value of exploration and evaluation expenditure assets are assessed for impairment at an overall level whenever facts and circumstances suggest that the carrying amount of the assets may exceed recoverable amount. An impairment exists when the carrying amount of the assets exceed the estimated recoverable amount. The assets are then written down to their recoverable amount. Any impairment losses are recognised in the income statement.

### i) Critical accounting estimates and judgements

The Directors evaluate estimates and judgements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data.

#### *Share based payments*

Share-based compensation payments are made available to Directors and employees.

The fair value of options granted is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date is determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free rate for the term of the option.

#### *Exploration and evaluation assets*

Exploration and evaluation expenditure in relation to separate areas of interest for which rights of tenure are current is carried forward as an asset in the statement of financial position where it is expected that the expenditure will be recovered through the successful development and exploitation of an area of interest, or by its sale; or exploration activities are continuing in an area and activities have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves. Where a project or an area of interest has been abandoned, the expenditure incurred thereon is written off in the year in which the decision is made.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 June 2025

### 2. SEGMENT REPORTING

The Company's operations are in one reportable business segment, being the exploration for nickel, copper, gold and uranium. The Company operates in two geographical segments, being Australia and Canada.

Operating segments are identified based on the internal reports that are regularly reviewed by the Board of Director's, the Chief Operation Decision Maker, for the purpose of allocating resources and assessing performance. The adoption of this "management approach" has resulted in the identification of reportable segments.

### 11. RIGHT-OF USE ASSETS

During the year the company entered into a rental lease for a storage facility in Perth. The term of the lease is two years. The value of the right-of-use asset was calculated based on the particulars of the lease. Variables which were taken into account include the lease term, rent per annum, clauses for rent increases, rent abatements, and the option to extend (the option to extend was not taken into account, as the Company has not made a firm decision on this matter). The right-of-use asset will be depreciated over the lease term, the depreciation expense and lease liability will be expensed. In subsequent reporting periods, the right-of-use asset will be revalued to reflect the remaining life of the lease.

The Company entered into a rental lease for their office premises in June 2021. The term of the lease is three periods, with the option to extend for another three years. The Company is currently negotiating to sign the renewal and extend for another three years. The terms and conditions of the lease remain the same excepting a minor increase in the lease cost. The value of the right-of-use asset was calculated based on the particulars of the lease. Variables which were taken into account include the lease term, rent per annum, clauses for rent increases, rent abatements, and the option to extend (the option to extend was not taken into account, as the Company has not made a firm decision on this matter). The right-of-use asset will be depreciated over the lease term, the depreciation expense and lease liability will be expensed. In subsequent reporting periods, the right-of-use asset will be revalued to reflect the remaining life of the lease.

Impairment of Exploration Expenditure		(1,949,830)	(332,898)
Carrying value at reporting date		<b>4,679,166</b>	<b>6,213,255</b>

The Company has assessed each area of interest for impairment in accordance with AASB 6 Exploration for and Evaluation of Mineral Resources. Based on the Company's assessment, an impairment expense of \$1,949,830 was recognised in the income statement in relation to the discontinued Canary Project. The Company chose to withdraw from the Canary Project in November 2024 and has impaired the expenses previously associated with the project.

#### EASTERN ATHABASCA BASIN ACQUISITION

**Exclusivity Fee:** An upfront non-refundable exclusivity cash payment of \$40,000 for an exclusive 30-day due diligence period beginning on execution of the binding term sheet (or such longer period as may be agreed by the Parties) ('Exclusivity Period').

**Conditions Precedent:** Settlement is conditional upon the satisfaction (or waiver) of the following conditions precedent ('Conditions Precedent'):

a) Mamba completing due diligence on EAU and the exploration claims comprising the Projects by the end of the Exclusivity Period; and

b) the Parties obtaining all necessary legal, regulatory, shareholder and other third-party approvals, consents, or waivers, that are required to allow the Parties to lawfully complete the Acquisition.

**Consideration:** In consideration for the Acquisition, Mamba agrees to issue to the Vendors (or their nominee/s):

- an aggregate of 4,000,000 fully paid ordinary shares in the capital of Mamba ('Consideration Shares'); and
- an aggregate of 5,000,000 performance rights convertible into Shares ('Consideration Performance Rights'), together, the Consideration Shares and the Consideration Performance Rights are referred to as the 'Consideration Securities'.

Mamba will issue the Consideration Securities out of its existing placement capacity at settlement of the Acquisition.

**Performance Rights Milestones and Expiry Date:** the Consideration Performance Rights shall convert to shares, subject to Mamba achieving the following milestones:

- 2,500,000 Consideration Performance Rights will convert on the achievement of rock chip assays showing results indicating >2,000ppm U3O8 from any of the Projects; and
- 2,500,000 Consideration Performance Rights will convert on the achievement of drilling or channel sampling results indicating an intersection at minimum 5m at >2,000ppm U3O8 from any of the Projects, prior to the date which is 5 years from their date of issue.

The Acquisition is not a related party transaction, and the Board negotiated the terms of the Acquisition on arms' length terms. There are no introduction and/or facilitation fees payable to any person for the Acquisition.

The aggregate acquisition costs totalled \$130,000 includes;

- 1) Exclusivity Fee: An upfront non-refundable exclusivity cash payment of \$40,000.
- 2) 4,000,000 fully paid ordinary shares in the capital fair valued at 1 cent totalling \$40,000, and
- 3) 5,000,000 performance rights fair valued at 1 cent, totalling \$50,000.

The Group has no farm-in arrangements during as at 2025. The Company chose to withdraw from the Canary Project in November 2024 and has impaired the expenses previously associated with the project.

#### CANARY URANIUM PROJECT – EARNING IN

The Company has entered into an arrangement with Standard Uranium Limited (“Standard”) whereby the Company can earn up to 75% interest in the Canary Uranium Project (“the Project”).

Significant terms of the earn-in arrangement are as follows:

- 1. Stage 1 (Years 1 to 2):** to obtain a 50% interest in the Project, Mamba must, over a 2-year period from the Execution Date:
  - (a) make a cash payment of C\$100,000 at the beginning of each year in Stage 1 to be made to the Vendor, of which A\$10,000 will be advanced to the Vendor immediately upon the Execution Date as a non-refundable deposit which will be credited towards the initial payment owing in Stage 1 (Stage 1 Cash Payment);
  - (b) issue to the Vendor (or its nominee) C\$100,000 Shares each year at an issue price equal to the 20-day VWAP immediately prior to the date of issue (Stage 1 Consideration Shares). The Company shall issue the Stage 1 Consideration Shares to the Vendor (or its nominee) on the execution of a binding agreement (Definitive Agreement) and the one-year anniversary of the Execution Date; and
  - (c) the Company must also expend C\$3,000,000 on the Project within the first two years from the Execution Date, with no less than \$1,000,000 to be expended on the Project within the first 12 months from the Execution Date (Stage 1 Expenditure Condition). The Company will also arrange for the payment of an operator fee of 10% and a first nations fee of 3% of the total amount expended on the Project in Stage 1.
- 2. Stage 2 (Year 3):** Stage 2 will commence upon the satisfaction of the Stage 1 Expenditure Condition (Stage 2 Commencement Date) and subject to Mamba exercising its option to obtain a further 25% interest in the Project, by:
  - (a) making a cash payment of C\$100,000 on the Stage 2 Commencement Date to the Vendor (Stage 2 Cash Payment);
  - (b) issue to the Vendor (or its nominee) C\$100,000 Shares on the Stage 2 Commencement Date at an issue price equal to the 20-day VWAP immediately prior to the date of issue (Stage 2 Consideration Shares); and
  - (c) the Company must also expend C\$3,000,000 on the Project within one year from the Stage 2 Commencement Date (Stage 2 Expenditure Condition). The Company will also arrange for the payment of an operator fee of 10% and a first nations fee of 3% of the total amount expended on the Project in Stage 2.

#### **3. Option to Acquire 100% Interest**

Under the Terms Sheet, the Company will have the option to acquire the remaining 25% interest in the Project upon completion of a bankable feasibility study in relation to the Project by payment to the Vendor of the purchase price as determined by an independent valuation report.

#### **Net Smelter Royalty**

The Vendor shall have a 1.5% net smelter royalty over the Project with Mamba having the right to purchase 0.5% of the royalty from the Vendor for C\$500,000.

The Company chose to withdraw from the Canary Project in November 2024 and has impaired the expenses previously associated with the project.

### 24. CONTINGENCIES AND COMMITMENTS (continued)

#### CANARY PROJECT

As part of the Canary Project earn in arrangement, the Group is committed to the following in order to earn interest in the project (refer note 13 for further details of the project):

- a) issue to the Vendor (or its nominee) C\$100,000 Shares each year at an issue price equal to the 20-day VWAP immediately prior to the date of issue of which the first of the three years has been finalised.
- b) Company must also expend a further C\$2,000,000 on the Project within the first two years to earn %50 of the project
- c) Company must also expend C\$3,000,000 on the Project within one year from the Stage 2 Commencement Date to earn a further 25%
- d) Company shall issue to Allora Pty Ltd (or its nominee) Shares in each year of Stages 1 and 2 as a 'finder's fee' of 10,000,000 shares per stage for introducing Mamba to the transaction of which the first of three years has been finalised. If shareholder approval is not received, then the Group must pay A\$350,000 for each tranche. If the Company does not proceed to the next stages these contingencies with not be payable.

The Company chose to withdraw from the Canary Project in November 2024 and has impaired the expenses previously associated with the project.

### 25. FINANCIAL RISK MANAGEMENT

#### (a) Financial Risks

The main risks the Group is exposed to through its financial instruments are interest rate risk and liquidity risk.

Exposure to interest rate, liquidity and credit risk arises in the normal course of the Group's business. The Group does not hold or issue derivative financial instruments.

The Group uses different methods as discussed below to manage risks that arise from these financial instruments. The objective is to support the delivery of the financial targets while protecting future financial security. Primary responsibility for the identification and management of financial risks rests with the Board.

#### i. Liquidity risk

The Company manages liquidity risk by maintaining sufficient cash facilities to meet the operating requirements of the business. The responsibility for liquidity risk management rests with the Board of Directors. The Company manages liquidity risk by monitoring forecast cash flows and ensuring that adequate working capital is maintained. The Company's policy is to ensure that it has sufficient cash reserves to carry out its planned exploration activities over the next 12 months.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 June 2025

### 25. FINANCIAL RISK MANAGEMENT (CONTINUED)

#### ii Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair value of financial instruments.

The Company's exposure to market risk for changes to interest rate risk relates primarily to its earnings on cash.

#### (b) Credit Risk

The Group has no significant concentrations of credit risk other than cash at bank which is held with the National Australia Bank an AA- rated Australian bank. The maximum exposure to credit risk at reporting date is the carrying amount (net of provision of expected credit losses) of those assets as disclosed in the statement of financial position and notes to the financial statements.

As the Group does not presently have any debtors, lending, significant stock levels or any other credit risk, a formal credit risk management policy is not maintained. Credit risk represents the risk that the counterparty to the financial instrument will fail to discharge an obligation and cause the Group to incur a financial loss.

### 26. DIVIDENDS

No dividends were paid or proposed during the year (2024: nil). The Company has no franking credits available as at 30 June 2025 (2024: nil).

### Key Assumptions and Judgements Determination of Tax Residency

Section 295 (3A) of the Corporation Acts 2001 requires that the tax residency of each entity which is included in the Consolidated Entity Disclosure Statement (CEDS) be disclosed. In the context of an entity which was an Australian resident, "Australian resident" has the meaning provided in the Income Tax Assessment Act 1997. The determination of tax residency involves judgment, as the determination of tax residency is highly fact dependent and there are currently several different interpretations that could be adopted, and which could give rise to a different conclusion on residency.

In determining tax residency, the consolidated entity has applied the following interpretations:

Australian tax residency - The consolidated entity has applied current legislation and judicial precedent, including having regard to the Commissioner of Taxation's public guidance in Tax Ruling TR 2018/5.

## INDEPENDENT AUDITOR'S REPORT

To the members of Mamba Exploration Limited

### Report on the Audit of the Financial Report

#### Opinion

We have audited the financial report of Mamba Exploration Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

- i) Giving a true and fair view of the Group's financial position as at 30 June 2025 and of its financial performance for the year ended on that date; and
- ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

#### Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Material uncertainty related to going concern

We draw attention to Note 1 a) in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the group's ability to continue as a going concern and therefore the group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our opinion is not modified in respect of this matter.

## Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material uncertainty related to going concern* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

### Carrying Value of Exploration & Evaluation Expenditure

Key audit matter	How the matter was addressed in our audit
<p>At 30 June 2025 the carrying value of capitalised exploration expenditure was disclosed in Note 1 &amp; 12. As the carrying value of the exploration assets represent a significant asset of the Group, we considered it necessary to assess whether any facts or circumstances exist to suggest that the carrying amount of these assets may exceed its recoverable amount. As a result, the asset was required to be assessed for impairment indicators in accordance with AASB 6 Exploration for and Evaluation of Mineral Resources.</p> <p>As disclosed in Note 12 of the Financial Report, impairment charges were recognised on the Exploration and Evaluation Assets as at 30 June 2025. Given the quantum of this impairment charge and the judgement exercised by the Group in determining the recoverable amount of the relevant projects, we considered this area to be significant for our audit</p>	<p>Our procedures included but were not limited to:</p> <ul style="list-style-type: none"> <li>• Obtaining a schedule of the areas of interest held by the Group and assessing whether the rights to tenure of those areas of interest remained current at balance date;</li> <li>• Considering the status of the ongoing exploration programmes in the respective areas of interest by holding discussions with management, and reviewing the Group's exploration budgets, ASX announcements and director's minutes;</li> <li>• Considering whether any area of interest had reached a stage where a reasonable assessment of economically recoverable reserves existed;</li> <li>• Considering whether there are any other facts or circumstances existing to suggest impairment testing was required;</li> <li>• Assessing whether minimum spend had been met, in instances where it hadn't, confirming that management have claimed for exemptions and assessing the status of such;</li> <li>• Evaluating management's basis for the impairment charge, including verifying the mathematical accuracy of the charge and the allocation across the relevant projects; and</li> <li>• Assessing the adequacy of the related disclosures in Note 12 to the financial report.</li> </ul>

## Other information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2025, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a) the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and
- b) the consolidated entity disclosure statement that is true and correct in accordance with the Corporations Act 2001, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i) the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii) the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

## Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<http://www.auasb.gov.au/Home.aspx>) at:

[https://www.auasb.gov.au/media/bwvjcgre/ar1\\_2024.pdf](https://www.auasb.gov.au/media/bwvjcgre/ar1_2024.pdf)

This description forms part of our auditor's report.

## Report on the Remuneration Report

### Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 9 to 14 of the directors' report for the year ended 30 June 2025.

In our opinion, the Remuneration Report of Mamba Exploration Limited, for the year ended 30 June 2025, complies with section 300A of the *Corporations Act 2001*.

### Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
