Philadelphia PA and Phoenix AZ, 17 February 2026: Clinical dermatology company, Botanix Pharmaceuticals Limited (ABN 70 009 109 755) (ASX:BOT, “**Botanix**” or “the **Company**”), announces that it has received firm commitments from a significant number of new leading Australian and international institutional investors, alongside key existing institutional and sophisticated investors for 666,666,667 new fully paid ordinary shares (“**New Shares**”) at A\$0.06 per New Share (“**Offer Price**”) representing ~A\$40 million in gross proceeds via a two-tranche placement (“**Placement**”). The Placement is not underwritten. The second tranche of the Placement is subject to shareholder approval.

The Company also intends to offer a security purchase plan (“**SPP**”), which is underwritten, to raise ~A\$5 million at the same Offer Price as the Placement, with the ability to accept oversubscriptions. The SPP will be subject to shareholder approval under Listing Rule 7.1 at an Extraordinary General Meeting (“**EGM**”) expected to be held in late March or early April.

The Company intends to make an offer of options to participants in the Placement and SPP on a 1:1 basis for New Shares issued to the participants under the Placement and/or SPP (“**New Options**”). The

New Options will be unlisted, issued for no consideration, exercisable at A\$0.06 each with an expiry date of 31 January 2027. The issue of the New Options will be subject to shareholder approval under Listing Rule 7.1 at the EGM.

The issue price of A\$0.06 represents a 45.5% discount to the Company's last traded price before the trading halt on Friday, 13 February 2026.

The Placement, SPP and New Options are together the "Raising".

Proceeds will support API purchases and costs associated with the setup of a secondary API supplier:

The proceeds from the Placement and SPP will be applied towards API and manufacturing component purchases, alternate API supplier setup, advertising and marketing initiatives, operating expenses and working capital, as well as transaction costs of the Raising.³

The current inventory balance is sufficient to support increased prescriptions generated by the expanded sales force in Q3 FY26. The Company is also required to purchase further API under its existing supply contract⁴ and a large portion of the funds raised will be applied towards immediate and future API purchases, which will ensure the Company can continue to meet the strong demand for *Sofdra*.

Over the longer term, the Company's priority remains optimising production efficiency while effectively managing API procurement. The Company is currently in advanced negotiations with its existing API supplier, whereby the Company is seeking to spread upcoming purchase and payment obligations over future years. Separately, the Company has been negotiating with alternate API suppliers. If the Company succeeds with one or both of these negotiations, then it could materially smooth future cash outflows and/or decrease the COGs significantly. The Placement and SPP proceeds will assist the Company to continue its negotiations with potential alternate API suppliers with a view to decrease cost of goods sold ("COGS"), increase gross profit, and derisk the Company's current single-source supply chain. The Company is highly focused on this initiative, as it represents a potential 25% – 40% reduction in COGS.⁵

Establishing an alternate supplier will require securing an adequate API supply upfront to bridge to the additional supplier, with onboarding expected to be completed in 2028. The Company's aim is to establish the additional source in a favourable location, such as North America or Europe. Due to the extent of the possible reduction in COGS, the Company believes this is a worthwhile initiative, especially when the Company's patent protection is until 2040.

Catalysts to drive Botanix performance

The successful capital raising strengthens the Company's position to deliver on its strategic initiatives, including:

- Deliver continued *Sofdra*[®] growth
- Add new products to the fulfilment platform to accelerate growth and profitability
- Secure API supply and bridge to alternate supplier which decreases COGS 25 – 40%
- Expand *Sofdra* licensing to other regions for increased revenue
- Elevate Botanix value proposition for mergers & acquisitions

Botanix Executive Chairman, Vince Ippolito, commented: *“We were pleased to close the bookbuild for this Placement with strong support from our existing and new institutional shareholders, following a successful first year on the market and with continuing strong demand for Sofdra.”*

As we have seen, the Company is experiencing strong quarter on quarter growth since launch. We are excited by the potential of the recently hired additional 27 sales professionals, bringing our combined sales force to 50 sales professionals. Over the coming quarters we look forward to seeing their impact on the volume of Sofdra prescribed and we are incredibly excited for the future of Sofdra and the Company.

“We expect the targeted funds raised will allow us to derisk our supply chain, secure API under our current supply contract and put us in a more favourable financial position. The Company is at an exciting stage of development and we look forward to our shareholders’ continued support under the security purchase plan and we welcome all the new investors to our register.”

Placement

The Company has received firm commitments under its bookbuild for a two-tranche non-underwritten placement of new fully paid ordinary shares in the Company at A\$0.06 each to sophisticated and institutional investors to raise up to approximately A\$40 million (before costs) comprising:

- 247,994,473 New Shares (~A\$14.9 million) to be issued within the Company’s 15% placement capacity under Listing Rule 7.1 (“**Tranche 1**”); and
- 418,672,194 New Shares (~A\$25.1 million) to be issued subject to shareholder approval at the EGM (“**Tranche 2**”).

Tranche 2 of the Placement includes approximately A\$500,000 in aggregate Botanix Director and CEO participation, with director participation subject to shareholder approval at the EGM for the purposes of Listing Rule 10.11.

New Shares issued under the Placement will rank equally with existing fully paid ordinary shares then on issue.

The Company intends to make an offer of New Options to participants in the Placement on a 1:1 basis for New Shares issued to the participant under the Placement, subject to shareholder approval at the EGM. The terms of the New Options are set out in Annexure A to this announcement.

If the Company proceeds with the offer of New Options, they will be offered to eligible participants via a Prospectus expected to be released to ASX in late February to early March 2026.

Euroz Hartleys Limited and Canaccord Genuity (Australia) Limited acted as Joint Lead Managers to the Placement and are entitled to the fees as set out in the Appendix 3B lodged today.

SPP

In addition to the Placement, the Company intends to offer a security purchase plan, which is underwritten to raise ~A\$5 million, with the ability to accept oversubscriptions. The SPP will be undertaken at the same Offer Price as the Placement, and will be subject to shareholder approval at the EGM. New Shares issued under the SPP will rank equally with existing fully paid ordinary shares then on issue.

The SPP is underwritten by the Joint Lead Managers up to A\$5 million. A summary of the terms of the underwriting is set out in Annexure B, and the fees payable for the underwriting are as set out in Appendix 3B lodged today.

The SPP is expected to be offered to eligible Australian and New Zealand shareholders on the Company's register as at 7.00 pm (Sydney time) on Monday, 16 February 2026. Shareholders in the United States or acting for the account or benefit of a person in the United States are ineligible to participate.

Eligible shareholders would be able to apply for up to A\$30,000 worth of New Shares per holder under a Prospectus expected to be released to ASX in late February to early March 2026. Botanix reserves the right (in its sole and absolute discretion) to scale back any applications in accordance with the policy set out in the Prospectus.

The Company intends to make an offer of New Options to participants in the SPP on a 1:1 basis for New Shares issued to the participant under the SPP, subject to shareholder approval at the EGM. The terms of the New Options are set out in Annexure A to this announcement.

Annexure B – Summary of Underwriting Agreement

Overview Botanix has entered into an underwriting agreement with the Joint Lead Managers under which the Joint Lead Managers have agreed (in their respective equal proportions) to underwrite the SPP up to A\$5 million (“**Underwriting Agreement**”).

The Joint Lead Managers obligations to underwrite the SPP is conditional on certain conditions precedent, including (but not limited to) the Company obtaining shareholder approval for (among other things) the issue of Shares and New Options under the SPP. The Underwriting Agreement also contains customary representations and warranties and indemnities in favour of the Joint Lead Managers.

Institutional Investors who commit to sub-underwrite the shortfall Shares under the SPP (“**SPP Shortfall Shares**”) will be offered one additional New Option for every three SPP Shortfall Shares allocated to them for no cash consideration (“**Sub-Underwriter Options**”). Details of the cash fees payable to the Joint Lead Managers are included in the Appendix 3B released to ASX on the date of this announcement.

Lock up The Company must not, and must ensure that each of its related bodies corporate does not, conduct any buy-back, scheme of arrangement, or allot or agree to allot, or indicate in any way that it will or might, allot or agree to allot any equity securities or other securities (including hybrid, convertible or equity-linked securities) or grant or agree to grant any options, rights or warrants in respect of such securities (or do anything economically equivalent to any of the foregoing), until the date that is 30 days after the date the Shares and New Options under the SPP and the Sub-Underwriter Options are issued (“**Second Issue Date**”), without first obtaining the consent of the Joint Lead Managers (not to be unreasonably withheld or delayed).

This lock up does not apply to:

- (a) the issue of shares, options to subscribe for shares, or performance rights exercisable into shares to an employee or consultant under the Company’s equity incentive arrangements, provided that any such issue is made in a manner that is consistent with the Company’s ordinary course of grants under its equity incentive arrangements;
- (b) any issue of shares expressly disclosed to ASX prior to the date of the Underwriting Agreement or otherwise as expressly contemplated by the Underwriting Agreement;
- (c) the issue of shares on the exercise of any convertible security (including options and warrants) on issue as at the date of the Underwriting Agreement (or as permitted to be issued under the Underwriting Agreement);
- (d) the issue of shares under Tranche 1 of the Placement; or
- (e) the issue of shares or other securities as contemplated by the shareholder approvals to be obtained at the EGM.

Further, for the period from the date of the Underwriting Agreement until the date that is 30 days after the Second Issue Date, the Company must carry on business in the ordinary course and must not:

- (a) dispose, or agree to dispose, of the whole or any material part of its business or property; or
- (b) enter into, or materially vary, any agreement or commitment which is material in the context of the Company or which contains a substantial or onerous obligation for the Company,

without the prior written consent of the Joint Lead Managers (not to be unreasonably withheld or delayed), in each case other than as disclosed to the ASX prior to the date of the Underwriting Agreement and other than any agreements in respect of the Company's API supply.

Termination events

- (d) there is an event or occurrence, including any statute, order, rule, regulation, directive or request of any government, government department or any governmental, semi-governmental or judicial entity or authority, including a stock exchange or a self-regulatory organisation established under statute ("**Governmental Agency**"), which makes it illegal for the Joint Lead Managers to satisfy a material obligation of the Underwriting Agreement or to market, promote or settle any part of the SPP;
- (e) the Company is unable to issue or prevented from issuing any Shares or Options as contemplated by the Underwriting Agreement by virtue of the ASX Listing Rules, applicable laws, a Governmental Agency or an order of a court of competent jurisdiction;
