SEGO

Chairman's Letter

Dear Shareholder,

On behalf of your Directors, I am pleased to present you with the Company's 2008 Annual Report and Financial Statements.

During the past 12 months the Company signed a farm-in and joint venture agreement with Mithril Resources ("Mithril") for the Pardoo Nickel Project. Mithril has the right to earn a 51% interest in the Pardoo Nickel Project by expending \$5,500,000 over a 4 year period and to earn a 65% interest by spending a further \$10 million or completing a bankable feasibility study. We are very pleased with our association with Mithril as they have a very strong technical team with extensive experience in the nickel sector. Mithril is concentrating on increasing the size and grade of the existing JORC-code compliant inferred mineral resource of 44.7Mt grading 0.3% nickel and 0.1% copper (identified by previous explorers) in addition to exploring various metallurgical process routes to increase recoveries.

Segue's investment in the Uranium industry has been disappointing. The Company entered into an agreement with McCleary Investments Pty Ltd (McCleary Investments") in respect of the Pamela and Angela Uranium Deposit (50%), however the Supreme Court of Northern Territory ruled against McCleary Investments in respect of application for Block 01292 and granted the right to have application for Block 01103 received and processed according to the law. To date no applications have been granted to McCleary Investments and the grant of any applications is uncertain.

Limited work was carried out on the Coronet Hill tin and tungsten project during the year. This project is the subject of a farm out agreement with North River Resources plc, who have the rights to earn a 51% interests in the concession via the expenditure of \$5,500,000.

Corporately, the board was enhanced by the appointment of two experienced individuals, Mr Paul Fry and Mr Jurgen Hendrich, in April 2008. The new board is now actively pursuing new projects and despite the current economic slow down we see significant opportunities to acquire project at fair value rather than the high valuations of the past

I would like to express my appreciation to my fellow Directors for their efforts over the last 12 months and to thank all the shareholders who have supported the Company during this period.

Glenn Whiddon

Chairman

Review of Operations

Pardoo Nickel Project

In late 2006, the Company completed the purchase of the Pardoo Nickel Project through the acquisition of Westralian Nickel Limited, now Segue (Pardoo) Limited.

The Pardoo Nickel Project comprises two exploration licences in the Pilbara region of Western Australia. The Project is located approximately 100km east of Port Hedland and covers 174km². Initially the Project contained a JORC-code compliant inferred resource of nickel and copper (37Mt @ 0.31% Ni and 0.12% Cu using a 0.1% Ni cut-off) and the company believed it to have significant upside not only for nickel and copper, but also other base metals, zinc, iron ore and platinum group elements. On completion of the acquisition, Segue immediately conducted a helicopter-based (VTEM) electromagnetic survey locating further conductor targets for drill testing.

Between January and May 2007, 27 RC percussion and two core holes for a combined total of 3,646 metres were completed at the Highway resource and nearby targets. In June 2007, assay results from this drilling confirmed significant width and grade continuity of nickel sulphide mineralisation at the Highway resource as reported in 2007, supporting the historical drilling results of CRA in the 1980's.

In the reporting year preliminary metallurgical test work of diamond core samples by AMMTEC Ltd indicated for the first time that potential recoveries of up to 90% for nickel were achievable producing low grade, but saleable nickel/copper concentrate free of contaminants and penalty metals.

Segue commissioned Snowden Mining Industry Consultants to conduct a review of the new drill hole data and determine an updated JORC-code compliant resource. A new Inferred Mineral Resource was reported in October 2007 of 44.7 million tonnes, grading 0.3% nickel and 0.1% copper (using a 0.1% nickel cutoff) in respect of the Highway resource, containing 134,000 tonnes of nickel and 44,700 tonnes of copper. This represented a 21% increase in nickel tonnes from similar previous historical estimates.

In December 2007, Segue entered into a farm-in and joint venture agreement with Mithril Resources Ltd ("Mithril"). Mithril will have the right to earn a 51% interest in the Pardoo Nickel Project by expending \$5,500,000 over 4 years. Furthermore, Mithril may increase its ownership to 65% by expending a further \$10,000,000 or by completing a bankable feasibility study, whichever occurs first. Pursuant to this agreement, Mithril became the manager of the Project.

Mithril promptly began work at Pardoo early in 2008, conducting further ground electromagnetic surveys to create additional drilling targets. Through re-assaying Mithril has recognised the potential of cobalt as a by product to add significant value to the resource.

The Highway mineralisation is suitable to conventional floatation however in 2008, Mithril commenced new test work to determine the amenability of the ore to bio-oxidation heap leaching, a process similar to that being implemented by Talvivaara Mining PLC on similar grade material at their namesake mine in Finland. Although the trials are yet to be finalized, preliminary results are positive suggesting good recoveries of nickel and cobalt.

In June 2008 Mithril began drilling at Pardoo, initially with four diamond drill holes to test the continuity and depth potential of the Highway resource and other nearby geophysical targets. This

Review of Operations

drilling at the Highway resource has demonstrated broad intervals of historically typical mineralised mafic rocks at depth, with assay results reported in Q3 2008.

Moving forward Mithril plans to recalculate a resource figure incorporating the cobalt assays, recent drill results, higher density and new geological model in the next six months.

Angela & Pamela Uranium Project, Northern Territory

In February 2007, Segue entered into an agreement with McCleary Investments Pty Ltd to purchase the rights to a 50% interest in the mineral lease applications and mineral claim applications (that were subject to litigation) in respect of areas RO1292 and RO1103 ("Angela and Pamela") in the Northern Territory.

The Angela and Pamela uranium prospects are located approximately 25km south of Alice Springs in the Northern Territory. The area was explored over a 10 year period by Uranerz Australia Pty Ltd in the 1970's and was proven to contain significant sedimentary-hosted uranium resources at Angela. Between 1973 and 1990 over 1,000 percussion/diamond drill holes were drilled for over 23,569m in addition to over 2,000 air-core and vacuum holes.

In February 2007, Justice Riley of the Supreme Court of the Northern Territory ruled that McCleary Investments Pty Ltd was successful in having its right to have the mineral lease application received and processed under the law relating to the land formerly contained in Reservation RO1103 and which is believed to be the northern extension of the Pamela uranium prospect.

However, McCleary Investments Pty Ltd was not successful in its mineral claim and mineral lease applications relating to the land formerly contained in Reservation RO1292 containing the Angela and Pamela uranium prospects. In early April 2007, McCleary Investments Pty Ltd lodged its notice of appeal against this decision.

In September 2007, Segue was advised by McCleary Investments Pty Ltd, that, based on advice from its solicitors, it had decided not to continue it's appeal against the Supreme Court of the Northern Territory's decision in regards to the mineral claim and mineral lease application for Block RO1292 (Angela).

McCleary Investments Pty Ltd are currently pursuing its right to have the mineral lease application relating to the land formerly contained in Reservation RO1103, received and processed by the Northern Territory Dept of Primary Industry Fisheries and Mines.

The Company's other tenement applications are EL(A)25639, EL(A)25442 and EL(A)25446 that are prospective for nickel and gold in the Musgrave and Tanami area of the Northern Territory. These tenements are still in the process of being granted by the Northern Territory Dept of Primary Industry Fisheries and Mines.

Review of Operations

Coronet Hill Project, Northern Territory, Australia

The Coronet Hill project (EL 10004) encompasses the old Coronet Hill copper and silver mining field approximately 60 km east of Pine Creek in the Northern Territory, Australia. Mineralisation is widespread along the major Coronet Hill fault with minor production from several veins over a strike length in excess of 4 km.

Following the induced polarisation (IP), ground geophysical survey over a 4km zone of the Coronet Fault in the southern part of the tenement in 2006/7, four drilling targets have been chosen for immediate follow up. These targets will investigate the presence of disseminated poly-metallic sulphides as indicated by zones of high chargeability. Unfortunately a suitable drilling rig could not be sourced in the 2007/08 field season to undertake this work. Drilling these targets remains a priority for the company.

Massive and disseminated poly-metallic sulphides are present in the dumps of the historical workings. Assays of these mineralised dumps are high in silver, copper and arsenic. In 2008, preliminary metallurgical test work has commenced to understand the nature of arsenic in the known mineralisation to gain an early understanding of any potential impacts on future treatment or development. The results of this work are pending.

Wauchope, Northern Territory, Australia

In April 2006, Segue entered into an agreement with Imperial Granite & Minerals Pty Ltd ("IGM") to conditionally purchase 100% of EL 24850 which is located near Wauchope in the Northern Territory of Australia. This tenement is contained wholly within aboriginal freehold land. As a result, delays in granting this tenement were expected however significant progress has been made.

In May 2008, the company received an invitation from the Central Land Council to meet with the traditional owners to present a framework of exploration and discuss future access to the tenement. This meeting was held early in July 2008 and at the time of writing, the application for EL 24850 is still currently being processed by the NT Department of Primary Industry, Fisheries and Mines.

The Directors present their report on Segue Resources Limited for the year ended 30 June 2008 and the auditor's report thereon.

Directors

The names and details of the Company's Directors in office during the financial year and until the date of this report are as follows. Directors were in office for the entire year unless otherwise stated.

Glenn Whiddon, -Executive Chairman

Mr Whiddon has a background in banking and corporate advisory, working for the Bank of New York in Sydney, Melbourne, Geneva and Moscow. In 1994 he established a boutique merchant bank in Moscow, providing corporate advice and undertaking direct investments.

Other current directorships

Non-Executive Director of Statesman Resources Limited; Non-Executive Director of Stream Oil & Gas Limited and Non-Executive Director of UMC Energy plc .

Former directorships in last 3 years

Grove Energy Limited (resigned 2007), Omegacorp Limited (resigned 2007), Rialto Energy Limited (resigned 2008), Oklo Uranium Limited (resigned 2007).

Paul Fry - Non-Executive Director

Mr Fry has over 25 years experience advising companies operating in the resources industry in Australia, UK and North America. He was formerly a partner with Ernst & Young and PriceWaterhouseCoopers in Australia and Canada, two major global professional advisory firms, and has worked closely with emerging resource companies particularly in the commercial and financial areas.

Other current directorships

Non-Executive Chairman of Kairiki Energy Limited.

Former directorships in last 3 years

Nil

Jurgen Hendrich - Non- Executive Director

Mr Hendrich has over 24 years investment banking and resources industry experience. He commenced his career as a petroleum geologist with Esso Australia in 1984 and enjoyed a variety of specialist technical roles in Australia and Norway, before advancing to commercial roles including strategic planning and joint venture relations. In 1996, Mr Hendrich joined J B Were (now Goldman Sachs J B Were) and established a reputation as a top ranking Energy Analyst.

Jurgen Hendrich - Non- Executive Director (continued)

In 2001 he founded his own consulting company specialising in providing strategic advice and attracting investment capital to early stage resources companies. From 2005, Jürgen worked with Tolhurst initially as a resources analyst, then Head of Resources Research and for the last two years as Director, Corporate Finance. In June 2008, Jürgen was appointed CEO of MEO Australia, and was appointed Managing Director in July 2008.

Other current directorships

Managing Director of MEO Australia Limited.

Former directorships in last 3 years

Cambrian Oil & Gas Plc (resigned June 2007)

Neville John Bassett, B.Bus, CA - Company Secretary

Mr Bassett was appointed company secretary on 2 April 2008. A chartered accountant with over 25 years experience, Mr Bassett has been involved with a diverse range of Australian public listed companies in directorial, company secretarial and financial roles.

Robert Cross, B.E. MBA - (formerly Non-Executive Chairman)

Mr Cross has more than 15 years experience in the international natural resource equity markets. He has an Engineering Degree from the University of Waterloo (1982) and received his MBA from Harvard Business School in 1987.

Mr Cross is currently Chairman of Northern Orion Resources Inc, which owns 12.5% of the Alumbrera mine in Argentina, which is one of the world's largest copper/gold mining operations, and Founder and Chairman of Bankers Petroleum Ltd. In 2002, he was Chairman of EAGC Ventures, which purchased a 120,000 ounce per year South African gold mining operation. The company was subsequently sold to Bema Gold Corporation of which he is now a director. He is a former Chairman and CEO of Yorkton Securities Inc (1996-1998) and from 1987-1994 he was a Partner – Investment Banking of Gordon Capital Corporation in Toronto.

Director since 12 January 2005. Resigned 18 March 2008

Robert Downey, B.Ed LL.B(Hons) - (formerly Non-Executive Director)

Mr Downey has practiced law since 1998, and has been admitted to practice as a barrister and solicitor of the Supreme Court of Western Australia and the High Court of Australia. His focus has been with resource companies in the area of corporate law, initial public offerings, other equity raisings, mergers and acquisitions, with extensive experience with listed companies on the ASX, TSX and AIM markets.

Director since 12 January 2005. Resigned 2 April 2008

John Arbuckle, B.Bus CPA - (formerly Executive Director)

Mr Arbuckle is a CPA with extensive experience in the mining industry in Australia and overseas. His recent positions have included Chief Financial Officer and Company Secretary of Mount Gibson Iron Limited and Chief Financial Officer of Perilya Limited, where he guided both companies through difficult start up phases. Prior to this he held senior financial management roles with Rio Tinto Limited, North Limited and Anaconda Nickel Limited. He has considerable experience in developing financial and risk management strategies for mining companies and the implementation of accounting controls and systems.

Director since 28 June 2006. Resigned 2 April 2008

Auditor

Mr Neil Smith is the signing partner for Segue Resources Limited. Mr Smith is a partner of PKF Chartered Accountants who continue in office in accordance with section 327 of the Corporations Act 2001.

Principal Activities

The principal activities of the Company during the year were mineral exploration, identification of potential mining assets for acquisition and development, and raising capital to fund those opportunities.

There were no significant changes in the nature of the Company's principal activities during the year.

Review and Results of Operations

A Review of Operations for the financial year and up to the date of this report is included in this document and should be read as part of the Directors' Report

Significant Changes in the State of Affairs

There were no changes in the state of affairs of the Company other than those referred to elsewhere in this report of the financial statements or notes thereto.

Significant Events After Balance Date

No matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years other than the following:

- the issue of 220,000 ordinary fully paid shares as a settlement of a liability of \$11,000 relating to the acquisition of Westralian Nickel in 2006

Environmental Regulation

The Company is subject to and compliant with all aspects of environmental regulation of its exploration activities. The Directors are not aware of any environmental law that is not being complied with.

Likely Developments

Information on the likely developments in the operation of the Company and the expected results of those operations have not been included in this Report because the Directors believe it would be likely to result in unreasonable prejudice to the Company.

Dividends

No dividend has been paid since the end of the financial period and no dividend is recommended for the current year.

Proceedings on Behalf of the Company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the Corporations Act 2001.

Remuneration Report (Audited)

Remuneration of directors and executives is referred to as compensation throughout this report. Key management personnel have authority and responsibility for planning, directing and controlling the activities of the Company including directors of the Company and other executives. They include the five most highly remunerated section 300A directors and executives for the Company.

Compensation levels for directors and key management personnel of the Company are competitively set to attract and retain appropriately qualified and experienced directors and executives.

The Board is responsible for compensation policies and practices. The Board, where appropriate, seeks independent advice on remuneration policies and practices, including compensation packages and terms of employment.

The compensation structures explained below are designed to attract suitably qualified candidates, reward the achievement of strategic objectives, and achieve the broader outcome of creation of value for shareholders. The compensation structures take into account a number of factors, including length of service, particular experience of the individual concerned, and overall performance of the Company.

Non-Executive Directors

Total remuneration for all Non-Executive Directors, is not to exceed \$250,000 per annum as approved by shareholders. This does not include Consulting Fees.

Non-executive directors, including the Chairman, receive a fixed fee for their services of \$25,000 per annum including statutory superannuation for services performed up to 31 March 2008. As of 1 April 2008 the Non-executive directors, including the Chairman, receive a fixed fee for their services of \$30,000 per annum including statutory superannuation

There is no direct link between remuneration paid to any non-executive directors and corporate performance. There are no termination or retirement benefits for non-executive directors (other than statutory superannuation).

Fixed Compensation

Fixed compensation consists of base compensation. The executive director receives the same compensation as non-executive directors, i.e. \$25,000 per annum up to 31 March 2008 then \$30,000 per annum from 1 April 2008 onwards. This remuneration figure includes statutory superannuation.

Share Based Remuneration

The grant of Options to directors is designed to encourage Directors to have a greater involvement in the achievement of the Company's objectives and to provide an incentive to strive to that end by participating in the future growth and prosperity of the Company through share ownership.

Under the Company's current circumstances of limited cash resources the Directors consider that the issue of Options are a cost effective and efficient reward and incentive for the Company, as opposed to alternative forms of incentive, such as the payment of additional cash compensation to the Directors.

Service Agreements

Service agreements existed with Messrs Downey and Arbuckle for the provision of the services as directors and for extra duties outside the scope of their roles as directors.

Consultancy Agreement - Mr Robert Downey

By an agreement dated 22 June 2005 between Segue and Quantum Vis Pty Ltd ("Quantum Vis"), Segue engaged Quantum Vis to provide the services of Mr Robert Downey to act as a non-executive director. Unless terminated earlier, the engagement is for a term of 2 years commencing on 22 June 2005. Segue will pay Quantum Vis a fee of \$25,000 per annum. In addition to the consultancy fees, Segue will reimburse Quantum Vis for its reasonable out of pocket expenses.

Consultancy Agreement - Mr John Arbuckle

By an agreement dated 28 July 2005 between Segue and Maybach Consulting Pty Ltd ("Maybach"), Segue engaged Maybach to provide company secretarial services. Maybach is to be paid \$200 per hour for the provision of these services. This agreement was amended on 3 April 2006 to include the provision of director services by John Arbuckle for a fee of \$25,000 per annum.

Meetings of Directors

The following directors' meetings (including meetings of committees of directors) were held during the year and the number of meetings attended by each of the directors during the year were:

2008	Directors' meetings	Directors' meetings	Audit Committee meetings	Audit Committee meetings
Directors	held	attended	held	attended
Robert Cross	5	5	-	-
Glenn Whiddon	6	6	-	-
Robert Downey	5	5	-	-
John Arbuckle	5	5	-	-
Paul Fry	1	1	-	-
Jurgen Hendrich	1	1	-	-

Remuneration

Details of the remuneration of the directors of Segue are set out in the following table. Currently, the Company does not employ any staff and directors are responsible for the management of the Company.

2008	Short-term Benefits		Post-	Share-		
				employment	based	
				benefits	Payment	
			Non-			
	Salary	Cash	Monetary	Super-		
Name	and Fees	Bonus	Benefit	annuation	Options	Total
	\$	\$	\$	\$	\$	\$
Directors

Totals	275,000	-	-	-	-	275,000

- (a) Mr Whiddon' services as a director were provided by Lagral Capital SCP for which the consolidated entity was charged \$25,000. Lagral Capital SCP was also paid consulting fees of \$51,000 for services provided outside of his duties as a director.
- (b) Mr Downey's services as a director were provided by Quantum Vis Pty Ltd for which the consolidated entity was charged \$25,000. Quantum Vis Pty Ltd was also paid consulting fees of \$30,600 for services rendered by Mr Downey outside of his duties as a director.
- (c) Mr Arbuckle's services as a director were provided by Maybach Consulting Pty Ltd for which the consolidated entity was charged \$25,000. Maybach Consulting Pty Ltd was also paid \$93,400 for company secretarial services provided by Mr Arbuckle.

Directors' Interests in the Shares and Options of the Company

As at the date of this report, the relevant interest of each director in the shares and options of Segue Resources Limited were:

	Ordina	ry Shares	Options		
Name	Direct	Indirect	Direct	Indirect	
G Whiddon	920,764	1,379,226	750,000	431,250	
P Fry	-	1,000,000	-	-	
J Hendrich	-	-	-	_	

Options over Unissued Capital

During or since the end of the financial year the consolidated entity has not granted any options to the directors.

As at the date of this report the following options were on issue:

Number	Exercise Price	Expiry Date
16,968,750	\$0.08	30 June 2010
5,400,000	\$0.17	30 June 2010
3,264,000	\$0.33	30 June 2010
3,300,000	\$0.20	30 June 2010
18,000,000	\$0.67	31 August 2009
6,000,000	\$0.13	30 June 2010

During or since the end of the financial year no options were exercised.

Officers' Indemnities and Insurance

During the year the Company paid an insurance premium to insure certain officers of the Company. The officers of the Company covered by the insurance policy include the Directors named in this report.

The Directors' and Officers' Liability Insurance provides cover against all costs and expenses that may be incurred in defending civil or criminal proceedings that fall within the scope of the indemnity and that may be brought against the officers in their capacity as officers of the Company or a related body corporate.

The insurance policy does not contain details of the premium paid in respect of individual officers of the Company. Disclosure of the nature of the liability cover and the premium paid is subject to a confidentiality clause under the insurance policy.

The Company has entered into an agreement with the Directors and certain officers to indemnify these individuals against any claims and related expenses which arise as a result of work completed in their respective capabilities.

The Company nor any of its related bodies corporate have provided any insurance for any auditor of the Company or a related body corporate.

Non-Audit Services

The Company may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Company and/or Group are important.

Details of the amount paid or payable to the auditor (PKF) for the audit and non-audit services provided during the year are set out in note 14.

The Board of directors has considered the position and, in accordance with the advice received from the audit committee, is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The directors are satisfied that the provision of non-audit services by the auditor did not compromise the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- All non audit services have been reviewed by the audit committee to ensure they do not impact the impartiality and objectivity of the auditor
- None of the services undermine the general principles relating to auditor independence as set out in Professional Statement APES110, including reviewing or auditing the auditor's own work, acting in a management or a decision-making capacity for the Group, acting as advocate for the Group or jointly sharing economic risk and rewards.

Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration as required under section 307C of the Corporations Act 2001 is set out on page 16.

Signed in accordance with a resolution of the Directors

Glenn Whiddon Director

Perth, 30 September 2008

AUDITOR'S INDEPENDENCE DECLARATION

As lead engagement partner for the audit of Segue Resources Limited for the year ended 30 June 2008, I declare that, to the best of my knowledge and belief, there have been:

- (i) no contraventions of the independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (ii) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Segue Resources Limited and the entities it controlled during the year.

PKF is a national association of independent chartered accounting and consulting firms, each trading as PKF. PKF Australia Ltd is also a member of PKF International, an association of legally independent chartered accounting and consulting firms.

The Board of Directors of Segue Resources Limited is responsible for the corporate governance of the consolidated entity. The Board guides and monitors the business and affairs of Segue Resources Limited on behalf of the shareholders by whom they are elected and to whom they are accountable.

Segue Resources Limited's Corporate Governance Statement is structured with reference to the Corporate Governance Council's principles and recommendations, which are as follows:

Principle 1. Lay solid foundations for management and oversight

Principle 2. Structure the board to add value

Principle 3. Promote ethical and responsible decision making

Principle 4. Safeguard integrity in financial reporting

Principle 5. Make timely and balanced disclosure

Principle 6. Respect the rights of shareholders

Principle 7. Recognise and manage risk

Principle 8. Encourage enhanced performance

Principle 9. Remunerate fairly and responsibly

Principle 10. Recognise the legitimate interests of stakeholders

Segue Resources Limited's corporate governance practices were in place throughout the year ended 30 June 2008 and were fully compliant with the Council's best practice recommendations, unless otherwise stated.

The Board considers that the Company is not currently of a size, nor are its affairs of such complexity to justify the formation of separate or special committees at this time. The Board as a whole is able to address the governance aspects of the full scope of the Company's activities and to ensure that it adheres to appropriate ethical standards. The Board continues to review its current practices in light of the ASX Principles of Good Corporate Governance and Best Practice Guidelines with a view to making amendments where applicable after considering the Company's size and resources it has available.

As the Company's activities develop in size, nature and scope, the size of the Board and the implementation of any additional formal corporate governance committees will be given further consideration.

During the financial year the Company has complied with each of the 10 Essential Corporate Governance Principles and the corresponding Best Practice Recommendations, other than in relation to the matters specified below:

Princip	Recommendati	Notification	of	Explanation for Departure
le	on	Departure		
Ref	Ref			
2	2.2 & 2.3	Chairman is independent	not	The Board considers that, at this stage of the Company's development, the executive role carried out by the Chairman is in the best interests of the Company.

Princip	Recommendati	Notification of	Explanation for Departure
le	on	Departure	Explanation for Departure
Ref	Ref	Departure	
2	2.4	The Company does not have a Nomination Committee	The role of the Nomination Committee has been assumed by the full Board. The size and scope of the Company's activities does not justify the establishment of such a Committee. The Board has taken a view that the full Board will hold special meetings or sessions as required. The Board are confident that this process for selection and review is stringent and full details of all Directors are provided to shareholders in the annual report and on the web.
	4.2, 4.3 & 4.4	The Company does not have an Audit Committee	The role of the Audit Committee has been assumed by the full Board. The size and scope of the Company's activities does not justify the establishment of such a Committee. In addition to management's accountability, the Board assures integrity of the financial statements by: (a) reviewing the Company's statutory financial information presented and compliance with current laws, relevant regulations and accounting standards; and (b) monitoring compliance of the accounting records and procedures, in conjunction with the Company's auditor, on matters overseen by the Australian Securities and Investments Commission, Australian Stock Exchange Limited ("ASX") and Australian Taxation Office; (c) ensuring that management reporting procedures, and the system of internal control, are of a sufficient standard to provide timely, accurate and relevant information as a sound basis for management of the Group's business; (d) reviewing audit reports and management letters to ensure prompt action is taken by the Company's management; and (e) When required, nominating the external auditor and at least annually reviewing the external auditor in terms of their independence and performance in relation to the adequacy of the scope and quality of the annual statutory audit and half-year review and the fees charged.

Princip le Ref	Recommendati on Ref	Notification of Departure	Explanation for Departure
6	6.1	Formalisation of a communications strategy with shareholders	In line with adherence to continuous disclosure requirements of ASX all shareholders are kept informed of major developments affecting the company. This disclosure is through regular shareholder communications including the Annual Report, Half-Year Report, Quarterly Reports and the distribution of specific releases covering major transactions or events. The Company's auditor attends the annual general meeting
7	7.1	The Board or appropriate board committee should establish policies of risk oversight and management	While the Company does not have formalised policies on risk management the Board recognises its responsibility for identifying areas of significant business risk and for ensuring that arrangements are in place for adequately managing these risks. This issue is regularly reviewed at Board meetings.
9	9.2	The Company does not have a Remuneration Committee	The role of the Remuneration Committee has been assumed by the full Board. The size and scope of the Company's activities does not justify the establishment of such a Committee. The Board has taken a view that the full Board will hold special meetings or sessions as required. No director participated in any deliberation regarding his own remuneration or related issues. The Board are confident that this process for determining remuneration is stringent and full details of remuneration policies and payments are provided to shareholders in the remuneration report in the Directors Report.
9	9.3	Guidelines for non- executive director remuneration	Non-executive directors are paid their fees out of the maximum aggregate amount approved by shareholders for non-executive director remuneration. The Company does not adhere to Recommendation 9.3 Box 9.3 guideline 'Non- executive directors should not receive options or bonus payments'. The Company has granted options to non-executive directors and, potentially, will do so in the future. The Board is of the view that options (for both executive and non-executive directors) are a cost effective

	handit for small companies such as Coars
	benefit for small companies such as Segue
	Resources Limited that seek to conserve cash
	reserves. They also provide an incentive that
	ultimately benefits both shareholders and the
	optionholder, as optionholders will only benefit if
	the market value of the underlying shares exceeds
	the option strike price. Ultimately, shareholders
	will make that determination.

Structure of the Board

The skills, experience and expertise relevant to the position of director held by each director in office at the date of the annual report is included in the Directors' Report. Directors of Segue Resources Limited are considered to be independent when they are independent of management and free from any business or other relationship that could materially interfere with – or could reasonably be perceived to materially interfere with – the exercise of their unfettered and independent judgment.

In the context of director independence, 'materiality' is considered from both the company and individual director perspective. The determination of materiality requires consideration of both quantitative and qualitative elements. An item is presumed to be quantitatively immaterial if it is equal to or less than 5% of the appropriate base amount. It is presumed to be material (unless there is qualitative evidence to the contrary) if it is equal to or greater than 10% of the appropriate base amount. Qualitative factors considered include whether a relationship is strategically important, the competitive landscape, the nature of the relationship and the contractual or other arrangements governing it and other factors that point to the actual ability of the director in question to shape the direction of the company's loyalty.

In accordance with the definition of independence above, and the materiality thresholds set, the following directors of Segue Resources Limited are considered to be independent:

Name Position

Paul Fry Non-Executive Director Jurgen Hendrich Non-Executive Director

There are procedures in place, agreed by the Board, to enable directors in the furtherance of their duties to seek independent professional advice at the company's expense.

The term in office held by each director in office at the date of this report is as follows:

Name Term in Office

Glenn Whiddon Since 21 January 2005 Paul Fry Since 2 April 2008 Jurgen Hendrich Since 2 April 2008

Appointments to Other Boards

Directors are required to take into consideration any potential conflicts of interest when accepting appointments to other Boards.

Ethical Standards

All Directors and employees are expected to act with the utmost of integrity and objectivity, striving at all times to enhance the reputation and performance of the Company.

Conflict of Interest

In accordance with the Corporations Act 2001 and the Company's Constitution, Directors must keep the Board advised, on an ongoing basis, of any interest that could potentially conflict with those of the Company. Where the Board believes that a significant conflict exists the Director concerned does not receive the relevant board papers and is not present at the meeting whilst the item is considered.

Policy concerning trading in Company securities

The Company's "Dealings in Company Shares and Options Policy" applies to all Directors, officers and employees. This policy sets out the restrictions on dealing in securities by people who work for, or are associated with the Company and is intended to assist in maintaining market confidence in the integrity of dealings in the Company's securities. The policy stipulates that the only appropriate time for a Director, officer or employee to deal in the Company's securities is when they are not in possession of price sensitive information that is not generally available to the market.

As a matter of practice, Company shares may only be dealt with by Directors and officers of the Company under the following guidelines:

- No trading is permitted in the period of 14 days prior to the announcement to the ASX
 of the Company's full year and half year results, and quarterly reports and for a period
 of two days after their release;
- Guidelines are to be considered complementary to and not replace the various sections of the Corporations Act 2001 dealing with insider trading; and
- Prior approval of the Chairman, or in his absence, the approval of two directors is required prior to any trading being undertaken

Performance Evaluation of the Board and its Members

During the financial year an evaluation of the Board and its members was not formally carried out. To date, there has been no formal process in place for performance evaluation. During the reporting period an evaluation of the Board was informally carried out by the Chairman.

Company's Remuneration Policies

The board policy is to remunerate directors at market rates for time, commitment and responsibilities. The board determines payments to the directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of directors' fees that can be paid is subject to approval by shareholders in general meeting, from time to time. Fees for non-executive directors are not linked to the performance of the consolidated entity. However, to align directors' interests with shareholders interests, the directors are encouraged to hold shares in the Company.

The Company's aim is to remunerate at a level that will attract and retain high-calibre directors and employees. Company officers and directors are remunerated to a level consistent with the size of the Company.

The Board believes that it has implemented suitable practices and procedures that are appropriate for an organisation of this size and maturity.

In accordance with best practice corporate governance, the structure of non-executive director and executive compensation is separate and distinct.

Full details of the objective and structure of directors remuneration is provided in the Remuneration Report in the Directors Report.

Existence and Terms of any Schemes for Retirement Benefits for Non-Executive Directors

There are no retirement benefits for non-executive directors.

Risk Management

Overview of the Risk Management System

The Board adopts practices designed to identify significant areas of business risk and to effectively manage those risks in accordance with the Company's risk profile. This includes assessing, monitoring and managing operational, financial reporting, and compliance risks for the Company. The Company is not of a size nor its affairs of such complexity to justify the establishment of a formal system for reporting risk management and associated compliance and controls. Instead, a director, in accordance with company policy, approves all expenditure, is intimately acquainted with all operations and reports all relevant issues to the other directors at the directors' meetings. The company secretary has declared to the board, that the aforementioned system is working efficiently and effectively.

The operational and other compliance risk management have also been assessed and found to be operating efficiently and effectively. All risk assessments covered the entire part of the financial year that the Company operated and the period up to the signing of the annual financial report for all material operations in the Company.

Risk Profile

The Company is not currently considered to be of a size, nor is its affairs of such complexity to justify the establishment of a separate Risk Management Committee. Instead, the board, as part of its usual role and through direct involvement in the management of the Company's operations ensures risks are identified, assessed and appropriately managed. Where necessary, the board draws on the expertise of appropriate external consultants to assist in dealing with or mitigating risk.

Chief Executive Officer and Chief Financial Officer Certification

The Chief Executive Officer and Chief Financial Officer, or equivalent, provide to the Board written certification that in all material respects:

- The Company's financial statements present a true and fair view of the Company's financial condition and operational results and are in accordance with relevant accounting standards;
- The statement given to the Board on the integrity of the Company's financial statements is founded on a sound system of risk management and internal compliance and controls which implements the policies adopted by the Board; and
- The Company's risk management an internal compliance and control system is operating efficiently and effectively in all material respects.

For the year ended 30 June 2008

1. **Corporate Information**

Segue Resources Limited (the "Company") is a company limited by shares incorporated whose shares are publicly traded on the Australian Securities Exchange. The consolidated financial report of the Company for the year ended 30 June 2008 comprises the Company and its subsidiary (together referred to as the "consolidated entity").

The financial report was authorised for issue by the directors on 30 September 2008.

The nature of the operation and principal activities of the Company are described in the attached Directors' Report.

The accounting policies set out below have been applied consistently to all periods presented in the consolidated financial report and by all entities in the consolidated entity.

(A) **Statement of Accounting Policies**

The principal accounting policies adopted in the preparation of the financial report are set out below.

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards (AASBs), which include Australian equivalents to International Financial Reporting Standards ("IFRS") (including Australian Accounting Interpretations) adopted by the Australian Accounting Standards Board (AASB), Urgent Issues Group and the Corporations Act 2001.

Basis of Measurement (B)

The consolidated financial statements have been prepared on the historical cost basis, except where stated.

(C) **Statement of Compliance**

The financial report complies with Australian Accounting Standards and International Financial Report Standards ('IFRS').

(D) Going Concern

At 30 June 2008, the consolidated entity and the parent entity had incurred a net loss of \$523,628 and \$839,299, respectively for the year then ended.

These conditions indicate a material uncertainty that may cast significant doubt about the consolidated entity's and parent entity's ability to continue as going concerns.

The ability of the consolidated entity to continue as going concerns is principally dependent upon raising additional capital to fund exploration commitments, other principal activities and for use as working capital. The company has also received financial support from a director related entity, if funding is not obtained to enable the consolidated entity to meet its debts.

The funding to be provided to the consolidated entity is at an arms length transaction is and repayable, with interest on completion of the next capital raising completed by the consolidated entity.

For the year ended 30 June 2008

(D) Going Concern (contd)

Based on the above, the directors are satisfied that, the going concern basis of preparation is appropriate. The financial report has therefore been prepared on a going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

Should the consolidated entity be unable to continue as a going concern, they may be required to realise their assets and extinguish their liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements.

These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities and appropriate disclosures that may be necessary should the consolidated entity be unable to continue as a going concern.

(E) Functional and Presentation of Currency

These consolidated financial statements are presented in Australian dollars, which is the Company's functional currency and the functional currency of the consolidated entity.

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary assets and liabilities are translated at the exchange rate at balance sheet date. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction.

Exchange differences arising on the translation of monetary items are recognised in the income statement, except where deferred in equity as a qualifying cash flow or net investment hedge.

Translation differences arising on non-monetary items, such as equities held at fair value through profit and loss, are reported as part of the fair value gain or loss. Translation differences on non-monetary items, such as equities classified as available-for-sale financial assets, are included in the fair value reserve in equity.

(F) Use of Estimates and Judgements

The preparation of financial statements required management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Significant accounting judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements.

For the year ended 30 June 2008

(F) Use of Estimates and Judgements (contd)

Significant accounting judgments (contd)

Exploration and evaluation assets

The Group's accounting policy for exploration and evaluation expenditure is set out at Note 1(O). The application of this policy necessarily requires management to make certain estimates and assumptions as to future events and circumstances. Any such estimates and assumptions may change as new information becomes available. If, after having capitalised expenditure under the policy, it is concluded that the expenditures are unlikely to be recovered by future exploitation or sale, then the relevant capitalised amount will be written off to the income statement.

Significant accounting estimates and assumptions

The carrying amounts of certain assets and liabilities are often determined based on estimates and assumptions of future events. The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period are:

(i) Impairment of assets

In determining the recoverable amount of assets, in the absence of quoted market prices, estimations are made regarding the present value of future cash flows using asset-specific discount rates and the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates.

(ii) Commitments - Exploration

The Group has certain minimum exploration commitments to maintain its right of tenure to exploration permits. These commitments require estimates of the cost to perform exploration work required under these permits.

In particular, information about significant areas of estimation, uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in the financial statements are described in Note 3 Income Taxes and Note 1(U) Employee Benefits.

For the year ended 30 June 2008

(G) Basis of Consolidation

Subsidiaries

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable or convertible are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Investments in subsidiaries are carried at their cost of acquisition in the Company's financial statements.

Transactions eliminated on consolidation

Intragroup balances and any unrealised gains and losses or income and expenses arising from intragroup transactions are eliminated in preparing the consolidated financial statements.

Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Interests in joint venture operations

The Consolidated Entity's interest in joint venture operations is accounted for by recognising the Consolidated Entity's share of assets and liabilities from the joint venture, as well as expenses incurred by the Consolidated Entity and the Consolidated Entity's share of net income earned from the joint venture, in the consolidated financial statements.

(H) Revenue Recognition

Revenue is measured at fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances and duties and taxes paid. The following specific recognition criteria must also be met before revenue is recognised:

• Interest income is recognised as it accrues.

(I) Income Tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the notional income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of asses and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

For the year ended 30 June 2008

(I) Income Tax (continued)

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

(J) Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

(K) Trade and Other Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for doubtful debts. Trade receivables are due for settlement no more than 120 days from the date of recognition.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. A provision for doubtful receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognised in the income statement.

(L) Investments and Other Financial Assets

The consolidated entity determines the classification of its financial instruments at initial recognition and re-evaluates this designation at each reporting date.

Fair value is the measurement basis, with the exception of held-to-maturity investments and loans and receivables which are measured at amortised cost. Fair value is inclusive of transaction costs. Changes in fair value are either taken to the income statement or to an equity reserve.

Fair value is determined based on current bid prices for all quoted investments. If there is not an active market for a financial asset fair value is measured using established valuation techniques.

The consolidated entity assesses at each balance date whether there is objective evidence that a financial asset or group of financial assets are impaired. In the case of equity securities classified as available-forsale, a significant or prolonged decline in the fair value of a security below its cost is considered in determining whether the security is impaired. If any such evidence exists the cumulative loss is removed from equity and recognised in the income statement.

For the year ended 30 June 2008

(M) Property, Plant and Equipment

Property, plant and equipment is stated at cost less accumulated depreciation and impairment losses. The cost of self-constructed assets includes the cost of materials, direct labour, the initial estimate, where relevant, of the costs of dismantling and removing the items and restoring the site on which they are located, and an appropriate proportion of production overheads.

Where parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

Leased Assets

Leases in terms of which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Property, plant and equipment acquired by way of finance lease is stated at an amount equal to the lower of its fair value and the present value of the minimum lease payments at inception of the lease, less accumulated depreciation and impairment losses.

Subsequent Costs

The Company recognises in the carrying amount of an item of property, plant and equipment the cost of replacing part of such an item when that cost is incurred if it is probably that the future economic benefits embodied within the item will flow to the consolidate entity and the cost of the item can be measured reliably. All other costs are recognised in the income statement as an expense as incurred.

Depreciation

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. The estimated useful live in the current and comparative periods are as follows:

Plant and equipment over 2 to 10 years

The residual value, the useful life and the depreciation method applied to an asset are reassessed at least annually.

Derecognition

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the income statement in the period the item is derecognised.

For the year ended 30 June 2008

(N) Acquisitions of Assets

The purchase method of accounting is used to account for all acquisitions of assets (including business combinations) regardless of whether equity instruments or other assets are acquired. Cost is measured as the fair value of the assets given, shares issued or liabilities incurred or assumed at the date of exchange plus costs directly attributable to the acquisition. Where equity instruments are issued in an acquisition, the value of the instruments is the published market price as at the date of exchange unless, in rare circumstances, it can be demonstrated that the published price at the date of exchange is an unreliable indicator of fair value and that other evidence and valuation methods provide a more reliable measure of fair value. Transaction costs arising on the issue of equity instruments are recognised directly in equity.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measure initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the Company's share of the identifiable net assets acquired is recorded as goodwill.

If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the income statement, but only after a reassessment of the identification and measurement of the net assets acquired.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

(O) Exploration and Evaluation Expenditure

Exploration and evaluation expenditure, including the costs of acquiring the licences, are capitalised as exploration and evaluation assets on an area of interest basis. Costs incurred before the Company has obtained the legal rights to explore an area are recognised in the income statement.

Exploration and evaluation assets are only recognised if the rights of the area of interest are current and either:

- (i) the expenditures are expected to be recouped through successful development and exploitation or from sale of the area of interest; or
- (ii) activities in the area of interest have not at the reporting date, reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest are continuing.

Exploration and evaluation assets are assessed for impairment if (i) sufficient data exists to determine technical feasibility and commercial viability, and (ii) facts and circumstances suggest that the carrying amount exceeds the recoverable amount (see impairment accounting policy (I)). For the purposes of impairment testing, exploration and evaluation assets are allocated to cash-generating units to which the exploration activity relates. The cash generating unit shall not be larger than the area of interest.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified to mining property and development assets within property, plant and equipment.

When an area of interest is abandoned or the directors decide that it is not commercial, any accumulated costs in respect of that area are written off in the financial period the decision is made.

For the year ended 30 June 2008

(P) Impairment of Assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units).

(Q) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the income statement over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

(R) Trade and Other Payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year and which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

(S) Contributed Equity

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options, or for the acquisition of a business, are included in the cost of the acquisition as part of the purchase consideration.

(T) Goods and Service Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST except:

- Where the GST incurred on the purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivable and payable are stated with the amount of GST included.

The amount of GST recoverable from the taxation authority is included as part of the receivables in the Balance Sheet. The amount of GST payable to the taxation authority is included as part of the payables in the Balance Sheet.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

For the year ended 30 June 2008

(U) Employee Benefits

Share-based payment transactions

The Company provides benefits to employees (including directors) of the Company in the form of share options. The fair value of options granted is recognised as an employee expense with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employees become unconditionally entitled to the options. The fair value of the options granted is measured using a black scholes valuation model, taking into account the terms and conditions upon which the options were granted.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, on the date on which the relevant employees become fully entitled to the award ("vesting date"). The amount recognised as an expense is adjusted to reflect the actual number that vest.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share.

(V) Earnings Per Share

Basic Earnings Per Share – is calculated by dividing the profit attributable to equity holders of the company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial period, adjusted for bonus elements in ordinary shares issued during the period.

Diluted Earnings Per Share – adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(W) Comparatives

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(X) Financial Instruments

Financial instruments issued by the Company comprise convertible notes that can be converted to share capital at the option of the holder. The liability component is a non derivative financial instrument that is initially recognised at fair value. Subsequent to initial recognition the liability component is measured at amortised cost using the effective interest rate method, unless it is designated at fair value through profit and loss. Embedded derivatives are separated from the host contract and accounted for separately if the economic characteristics and risks of the host contract and the embedded derivative are not closely related, a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative, and the combined instrument is not measured at fair value through profit and loss. Derivatives are recognised initially at fair value, and attributable transaction costs are recognised in profit or loss when incurred. Subsequent to initial recognition, derivatives are measured at fair value with changes in fair value recorded in profit and loss.

Notes to the Financial Statements

For the year ended 30 June 2008

(Y) Adoption of new accounting standards

The consolidated entity has adopted AASB 7 'Financial Instruments; Disclosures' and all consequential amendments which became applicable on 1 January 2007. The adoption of this standard has only affected the disclosure in these financial statements. There has been no affect on profit and loss or the financial position of the entity.

(Z) New accounting standards and interpretations

Certain new accounting standards have been published that are not mandatory for 30 June 2008 reporting periods. The Group has not applied any of the following in preparing this financial report:

Affected Standard	Nature and Impact of Change to Accounting Policy	Application *
AASB 8: Operating Segments and AASB 2007-3 Amendments to Australian Accounting Standards arising from AASB 8	No impact on accounting policy or amounts recognised in the financial statements, but will require change to disclosures in relation to 'management approach' of segment reporting	1 January 2009
AASB 123 : Borrowing Costs	No impact on financial statements as no borrowing costs incurred by the Group to date	1 January 2009
AASB 101: Presentation of Financial Statements and AASB 2007-8 Amendments to Australian Accounting Standards arising from AASB 101	Introduces a statement of comprehensive income and makes changes to the statement of changes in equity, but will not affect any of the amounts recognised in the financial statements.	1 January 2009
AASB 3 : Business Combinations	As there is no requirement to retrospectively restate comparative amounts for business combinations undertaken before this date, there is unlikely to be any impact on the financial statements when this revised standard is first adopted.	1 July 2009
AASB 127 : Consolidated and Separate Financial Statements	As there is no requirement to retrospectively restate the effect of these revisions, there is unlikely to be any impact on the financial statements when this revised standard is first adopted.	1 July 2009
AASB 2008-1 - Amendments to AASB 2 "Share Based Payments"	The amendment clarifies that vesting conditions are restricted to: • service conditions; and • Performance conditions only. Other features of a share-based payment are not vesting conditions. This restriction was not clearly stated in the pre-amended standards. This means that all other terms and conditions are accounted for in the value of the share or option at grant date	1 July 2009

3. Income Tax Expense (continued)

	Consolio 2008	dated 2007	Company 2008 2007	
Deferred income tax	\$	\$	\$	\$ -
Recognised on the Balance Sheet				
Deferred income tax at 30 June relates to the following: Deferred income tax liabilities - Capitalised expenditure deductible for tax				
purposes	1,901,560	575,227	96,497	84,592
_	1,901,560	575,227	96,497	84,592
Deferred income tax assets - Tax losses	1,901,560	575,277	96,497	84,592
<u> </u>	1,901,560	575,277	96,497	84,592
Net deferred tax asset/(liability)	-	-	-	
Unrecognised deferred tax assets				
Deferred tax assets have not been recognised in respect of the following items:				
- Tax losses	521,652	397,498	2,326,715	132,462
Writedown of intercompany loanCapital raising costs	25,393	60,836	596,711 25,393	501,457 22,033
- Other	4,650	3,000	4,650	3,000
Potential unrecognised tax benefit @ 30%	551,695	461,334	2,953,469	658,952

The tax losses do not expire under current tax legislation. Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the Company can utilise benefits.

Tax Consolidation

For the purposes of income taxation, the Company and its 100% controlled Australian entity have not elected to form a tax consolidated group. There will be no consequences to the deferred tax assets, deferred tax liability unutilised tax losses by not joining the consolidated tax regime.

	Other _	14,970	6,211	13,204	-
		32,966	122,686	35,636	46,678

(i) Loan of C\$25,000 provided to Mining House Inc to acquire first right of refusal to Fila Maestra coal project in Venezuela.

Fair Value and Risk Exposures

- (i) Due to the short term nature of these receivables, their carrying value is assumed to approximate their fair value.
- (ii) The maximum exposure to credit risk is the fair value of receivables. Collateral is not held as security.
- (iii) Other receivables generally have repayments between 30 and 90 days.

Non-Current

Amount receivable from controlled entity	-	-	1,989,036	1,671,524
Write-down of intercompany loan	-	-	(1,989,036)	(1,671,524)
	-	-	-	-

Transactions between Segue and its subsidiary consist of intercompany loans, upon which no interest is charged and no repayment schedule exists. The fair value approximates the carrying value of the receivable. A provision for impairment loss was recognised as there was objective evidence that the inter-company loan receivable was impaired.

For the year ended 30 June 2008

For the year ended 30 June 2008

15. Contingent Assets and Liabilities

There are no material contingent assets or liabilities as at 30 June 2008

16. Subsequent Events

No matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years other than the following:

- the issue of 220,000 ordinary fully paid shares as a settlement of a liability of \$11,000 relating to the acquisition of Westralian Nickel in 2006

17. Commitments

The consolidate entity has certain minimum obligations in pursuance of the terms and conditions of tenement licences in the forthcoming year. Whilst these obligations are capable of being varied from time to time, in order to maintain current rights of tenure to mining tenements, the Company will be required to outlay in 2008/09 amounts of approximately \$73,000. These obligations are expected to be fulfilled in the normal course of operations.

18. Related Party Transactions

(a) Parent entities

The parent entity within the Group is Segue Resource Limited. The ultimate Australian parent entity is Segue Resource Limited which at 30 June 2008 owns 100% of the issued ordinary shares of Segue (Pardoo) Limited. The ultimate parent entity and ultimate controlling party is Segue Resource Limited (incorporated in Australia) which at 30 June 2008 owns 100% of the issued ordinary shares of Segue (Pardoo) Limited.

(b) Subsidiaries

Interests in subsidiaries are set out in note 6.

(c) Key management personnel

Disclosures relating to key management personnel are set out in note 21.

(d) Outstanding balances arising from sales/purchases of goods and services

There are no outstanding balances arising from sales/purchases of goods and services.

18. Related Party Transactions (continued)

(e) Loans to/from related parties

The loans to Segue (Pardoo) Limited are as follows:

	CONSOL	IDATED	PAR	ENT
	2008 \$	2007 \$	2008 \$	2007 \$
Beginning of the year	-	-	-	-
Loans advanced	-	-	317,512	1,671,524
Loans written off		-	(317,512)	(1,671,524)
End of year	-	-	-	-

(f) Terms and conditions

All loans to subsidiary are made on non-commercial terms. There are no fixed terms for the repayment of loans between the parties. An average interest rate on loans to subsidiary is nil.

(g) Payments for travel related expenses

During the year \$53,563 was spent on director travel related expenses (2007: \$33,380).

19. Segment Reporting

The consolidated entity operates in one business and geographical segment being mineral exploration and prospecting for minerals in Australia.

20. Financial Risk Management

Overview

The Company and Group have exposure to the following risks from their use of financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Company's and Group's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. Management monitors and manages the financial risks relating to the operations of the group through regular reviews of the risks.

(a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from receivables from customers and cash and cash equivalents. For the Company it arises from receivables due from subsidiaries and cash and cash equivalents.

All cash balances are held with recognised institutions limiting the exposure to credit risk. There are no formal credit approval processes in place. However, the company reviews management information for subsidiaries to ensure early detection of risks.

20. Financial Risk Management (continued)

(a) Credit risk (continued)

Exposure to credit risk

The carrying amount of the Group's financial assets represents the maximum credit exposure. The Group's maximum exposure to credit risk at the reporting date was:

	CONSOLII	CONSOLIDATED		NT
	2008	2008 2007		2007
	\$	\$	\$	\$
Loans and receivables	32,966	122,686	35,367	46,678
Cash and cash equivalents	385,489	583,384	288,661	564,498
	418.455	706.070	324.028	611.176

Guarantees

Group policy is to provide financial guarantees only to wholly-owned subsidiaries.

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about default rates.

Financial assets that are neither past due and not impaired are as follows:-

	CONSOLIDATED		PARE	NT
	2008	2007	2008	2007
	\$	\$	\$	\$
Trade receivables - counterparties without external credit rating -				
Existing customers with defaults in past.	-	-	-	-
New customers (less than 6 months)	-	-	-	-
- -	-	-	-	
Cash and cash equivalents				
AA S&P rating	385,489	583,384	288,661	564,498

(b) Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages liquidity risk by maintaining adequate reserves by continuously monitoring forecast and actual cash flows.

20. Financial Risk Management (continued)

(b) Liquidity risk (continued)

The Company anticipates a need to raise additional capital in the next 12 months to meet forecasted operational activities. The decision on how the Company will raise future capital will depend on market conditions existing at that time.

Typically the Group ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

The Group has no access to credit standby facilities or arrangements for further funding or borrowings in place.

The financial liabilities the Group had at reporting date were trade payables incurred in the normal course of the business. These were non interest bearing and were due within the normal 30-60 days terms of creditor payments.

Maturities of financial liabilities

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

Total

contract-

Carrying

amount

Group

	Less than 6 months	6-12 months	1-2 years	2-5 years	Over 5 years	ual cash flows	(assets)/liab- ilities
	\$	\$	\$	\$	\$	\$	\$
As at 30 June 2008 Trade and other payables	414,665	-	-	-		- 414,665	414,665
As at 30 June 2007 Trade and other payables	223,020	-	-	-		- 223,020	223,020

Notes to the Financial Statements

For the year ended 30 June 2008

20. Financial Risk Management (continued)

(c) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Cashflow and interest rate risk

The Group's and Parent's only interest rate risk arises from cash and cash equivalents held. Term deposits and current accounts held with variable interest rates expose the group to cash flow interest rate risk. The Company does not consider this to be material to the Group and have therefore not undertaken any further analysis of risk exposure.

The following sets out the Group's exposure to interest rate risk, including the effective weighted average interest rate by maturity periods:

30 June 2008 Consolidated	Note	Weighted average interest rate	1 year or less \$	2-5 years \$	Total \$
Financial assets Cash and cash equivalents		7.03%	385,489	-	385,489
30 June 2007 Consolidated	Note	Weighted average interest rate	1 year or less \$	2-5 years \$	Total \$
Financial assets Cash and cash equivalents		6.39%	288,661	-	288,661

Parent Sensitivity

The parent entity's main interest rate risk arises from cash and cash equivalents with variable interest rates. As at 30 June 2008, if interest rates has changed by -/+ 100 basis points from the year end rates with all other variables held constant, post-tax profit (loss) for the year would have been \$1,731 lower/higher (2007 - change of 100 basis points: \$8,809 lower/higher), mainly as a result of higher/lower interest income from cash and cash equivalents.

20. Financial Risk Management (continued)

(c) Market Risk (continued)

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. The analysis is performed on the same basis for 2007.

	Profit	Profit or loss		Equity	
Consolidated - 30 June 2008 Carryii Value year en	at increase	100bp decrease	100bp increase	100bp decrease	
Cash and cash equivalents 385, Trade receivables 32, Cash flow sensitivity (net)	3,855 966 - 3,855	-3,855 - -3,855	3,855 - 3,855	-3,855 - -3,855	
Consolidated - 30 June 2007 Cash and cash equivalents 583, Trade receivables 122, Cash flow sensitivity (net)		-5,834 - -5,834	5,834 - 5,834	-5,834 - -5,834	
	D	rofit or loss		г

20. Financial Risk Management (continued)

(d) Fair values

Fair values versus carrying amounts

The fair values of financial assets and liabilities, together with the carrying amounts shown in the balance sheet, are as follows:

Consolidated	30 J	une 2008	30 June 2007		
	Carrying	Carrying Fair value		Fair value	
	amount		amount		
Trade receivables	32,966	32,966	122,686	122,686	
Cash and cash equivalents	385,489	385,489	583,384	583,384	
Trade and other payables	(414,665)	(414,665)	(223,020)	(223,020)	
	3,790	3,790	483,050	483,050	

Company	30 Ju	ane 2008	30 June 2007		
	Carrying amount	Fair value	Carrying amount	Fair value	
Trade receivables	35,636	35,636	46,678	46,678	
Cash and cash equivalents	288,661	288,661	564,498	564,498	
Trade and other payables	(414,640)	(414,640)	(249,359)	(249,359)	
	(90,343)	(90,343)	361,817	361,817	

(e) Other Price Risk

The Group has no significant concentrations of price risk.

(f) Capital Management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

There were no changes in the Group's approach to capital management during the year.

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

21. Key Management Personnel Disclosures

(a) Details of Directors and Key Management Personnel

The following were key management personnel of the Company at any time during the reporting period and unless otherwise indicated were key management personnel for the entire period

Directors

Glenn Whiddon Robert Cross (resigned 18 March 2008) Paul Fry (appointed 2 April 2008) Robert Downey (resigned 2 April 2008) John Arbuckle (resigned 2 April 2008) Jurgen Hendrich (appointed 2 April 2008)

21. Key Management Personnel Disclosures (continued)

(a) Details of Directors and Key Management Personnel (continued)

Other Key Management Personnel

During the financial period there were no employees that fulfilled the role of a key management person, other than those disclosed as Directors.

(b) Key management personnel compensation

The key management personnel compensation included in employee benefit and director compensation expenses are as follows:

•	Consoli	Consolidated		any		
	2008	2008 2007 2008		2008 2007 2008 2007		2007
	\$	\$	\$	\$		
Short-term employee benefits	178,100	275,000	178,100	275,000		
Post employment benefits	-	-	-	-		
Equity compensation benefits						
	178,100	275,000	178,100	275,000		
	170,100	275,000	170,100	270,000		

(c) Equity Instrument Disclosures Relating to Key Management Personnel

(i) Options provided as remuneration and shares issued on any exercise of such options

Details of options provided as remuneration and shares issued on any exercise of such options, together with terms and conditions can be found within the Directors' Report.

(ii) Option holdings

The number of options over ordinary shares in the Company held during the financial period by each Director of Segue Resources Limited and any other key management personnel of the Company, including their personally related parties, are set out below:

2008	Balance 1 July 2007	Granted as Remuneration	Options Exercised	Net Change Other	Balance 30 June 2008
Directors					
R Cross (i)	1,181,250	-	-	(1,181,250)	-

J Arbuckle	20,100	-	-	40,200	60,300
•					
	407,800	-	=	824,900	1,232,700

Shares disclosed under "Net Change Others" refer to options that were allocated under the 3:1 share split and on market acquisitions or disposals.

For the year ended 30 June 2008

21. Key Management Personnel Disclosures (continued)

d) Other transactions with key management personnel

- A previous Director, Mr R Downey is a director and shareholder of Quantum Vis Pty Ltd (i) which was paid consulting fees of \$66,400 for services rendered by Mr Downey outside of his duties as a director.
- A previous Director, Mr J Arbuckle is a director and shareholder of Maybach Consulting (ii) Pty Ltd which was paid consulting fees of \$31,750 for services rendered by Mr Arbuckle outside of his duties as a director.
- (iii) During the financial period Westwind Capital Pty Ltd to which Messrs Whiddon, Downey and Arbuckle are directors and shareholders charged the consolidated entity \$51,251 for the provision of administrative and office services, provided on normal commercial terms and conditions. Messrs Arbuckle and Downey resigned on 2 April 2008.

22. Share Based Payment

Share based payments are provided to directors, consultants and other advisors.

The issue to each individual director, consultant or advisor is controlled by the Board and the ASX Listing Rules. Terms and conditions of the payments, including the grant date, vesting date, exercise price and expiry date are determined by the Board, subject to shareholder approval where required.

No shares were issued during the 2008 year. On 12 April 2007, 200,000 (2006: 900,000) options with a fair value of \$0.40 (2006: \$0.21) each were granted over ordinary shares with an exercise price of \$0.60 (2006: \$0.60) each, vesting immediately and exercisable until 30 June 2010 (2006: 30 June 2010).

These options are not listed and may not be traded.

The fair value of the options are estimated at the date of grant using the binomial model. The following table gives the assumptions made in determining the fair value of the options granted:

	2008	2007
Dividend yield (%)	-	-
Expected volatility (%)	-	60
Risk-free interest rate (%)	-	5.9
Expected life of option (years)	-	3.2
Option exercise price (\$)	-	0.60
Share price at grant date (\$)	-	0.75

The expected life of the options is based on historical data and is not necessarily indicative of exercise patterns that may occur.

The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

No other features of options granted were incorporated into the measurement of fair value.

22. Share Based Payment (continued)

During the year ended 30 June 2008 nil options were exercised over ordinary shares. Balance from 2007 3,300,000.

Share options issued and outstanding at the end of the year have the following exercise prices:

Exercise price	2008 No.	2007 No.
0.20	3,300,000	3,300,000
e Statement are	as follows	
	2008 \$	2007 \$

-	, ,		, , ,	
Net cash from operating activities	(411,192)	(781,759)	(485,273)	(757,465)

24. Business Combinations

Acquisition of Westralian Nickel Limited

On 31 August 2006, Segue Resources Limited acquired 100% of the voting shares of Westralia Nickel Limited, an unlisted public company based in Australia specialising in mineral exploration.

The total cost of the combination was \$4,461,000 and comprised an issue of equity instruments and costs directly attributable to the combination. The Group issued 6,000,000 ordinary shares with a fair value of \$0.65 each, based on the quoted price of the shares of Segue Resources at the date of exchange. The Group also issued 6,000,000 options exercisable at \$2 on or before 31 August 2009, and paid creditors up to the value of \$300,000.

The fair value of the identifiable assets and liabilities of Westralian Nickel Limited as at the date of acquisition are:

	Consolidated		
	Recognised on acquisition	Carrying value	
	\$	\$	
Property Plant & Equipment	3,724	3,724	
Exploration and Evaluation	258,343	258,343	
Cash and cash equivalents	16,093	16,093	
	278,160	278,160	
Trade payables	263,155	263,155	
	263,155	263,155	
Fair value of identifiable net assets	15,005	15,005	
Tenement acquisition costs	4,445,995		
	4,461,000		
Cost of the combination:		•	
Shares and options issued, at fair value	3,900,000		
Stamp duty on acquisition	250,000		
Settlement to creditors	311,000		
Total cost of the combination	4,461,000	•	
The cash outflow on acquisition is as follows:			
<u>-</u>	16.093		
1			
Net cash outflow	16,093	-	
Net cash acquired with the subsidiary Cash paid	16,093 - 16,093		

The Directors have reviewed the excess value of the tenement acquisition costs over the acquisition price and determined that the full amount be carried forward. This is based on the review conducted at the time by an independent geologist, who advised that aeromagnetic, airborne radiometric and ground electromagnetic surveys conducted by Westralian Nickel Limited had indicated the presence of significant nickel/copper and base metals targets and potential for platinum group elements, uranium mineralisation and iron ore deposits. Therefore, the leases have the potential to contain a world class deposit and the purchase price paid was considered reasonable.

During the year the following acquisition costs have been added to the business combination: Stamp duty of \$250,000 has been brought to account in relation to the acquisition. Additional creditor of \$11,000 has been brought to account in relation to the acquisition.

Directors Declaration

For the year ended 30 June 2008

In the opinion of the Directors:

- (a) the financial statements and notes of the Company are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the Company's financial position as at 30 June 2008 and of its performance for the year ended on that date; and
 - (ii) complying with Accounting Standards and Corporations Regulations 2001; and
- (b) there are reasonable grounds to believe that the Company will be able to pay it debts as and when they become due and payable.
- (c) This declaration has been made after receiving the declarations required to be made to the directors in accordance with Sections 295A of the Corporations Act 2001 for the financial period ending 30 June 2008 and is made in accordance with a resolution of the Directors.
- (d) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1(C)
- (e) The remuneration disclosures that are contained in the Remuneration Report in the Directors' report comply with Australian Accounting standards AASB 124 Related Party Disclosures, the Corporations Act 2001 and the Corporations Regulations 2001.

Glenn Whiddon Director

Perth, Western Australia 30 September 2008

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF SEGUE RESOURCES LIMITED

Report on the Financial Report

We have audited the accompanying financial report of Segue Resources Limited which comprises the balance sheet as at 30 June 2008, and the income statement, statement of changes in equity and cash flow statement for the year ended on that date, a summary of significant accounting policies and other explanatory notes and the directors' declaration for both Segue Resources Limited (the company) and the consolidated entity. The consolidated entity comprises both the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 1(c), the directors also state, in accordance with Australian Accounting Standard AASB 101 *Presentation of Financial Statements*, that compliance with Australian Equivalents to International Financial Reporting Standards ensures that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

PKF is a national association of independent chartered accounting and consulting firms, each trading as PKF. PKF Australia Ltd is also a member of PKF International, an association of legally independent chartered accounting and consulting firms.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act* 2001.

Auditor's Opinion

In our opinion:

- (a) the financial report of Segue Resources Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the entity's and consolidated entity's financial position as at 30 June 2008 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*; and
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1(c).

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 10 and 13 of the directors' report for the year ended 30 June 2008. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's Opinion

In our opinion the Remuneration Report of Segue Resources Limited for the year ended 30 June 2008, complies with section 300A of the *Corporations Acts 2001*.
