SciDev Secures \$4.6m D&C Contract for Western Harbour Tunnel

Highlights

- ▶ SciDev has secured a contract with Acciona Construction Australia Pty Ltd to Design and Construct two Water Treatment Plants in Sydney, NSW, to support the construction of the Western Harbour Tunnel.
- ▶ The contract has a headline value of \$4.63M.
- ▶ SciDev will commence detailed design and off-site construction of the WTPs immediately and will mobilise to the first site in November 2023, with the project anticipated to run until March 2024.

SciDev Ltd (ASX: SDV) (**'SciDev'** or **'the Company'**) is pleased to announce that it has secured a contract with Acciona Construction Australia Pty Ltd (ACCIONA) for the design and construction of two temporary water treatment plants (WTPs) for Western Harbour Tunnel Stage 2. The WTPs will treat contaminated groundwater and surface water run-off for recycling and reuse onsite during the construction phase. The scope of works under the contract will see the utilisation of SciDev's fully automated water treatment plants, with the first WTP designed and mobilised to the site in November. In response to the project's requirements, the WTPs have been specifically designed to minimise the required footprint and to allow for an accelerated construction programme.

SciDev's Water Technologies business specialises in delivering innovative water treatment solutions across a wide range of applications. Our technologies remove harmful contaminants from groundwater, surface water and industrial liquid waste, allowing water to be reused or safely discharged into the environment.

SciDev CEO Seán Halpin said, "We are looking forward to working with the ACCIONA team to support the construction of the iconic third road crossing of Sydney Harbour. Our ability to extend our relationship with ACCIONA to another major infrastructure project reflects our continued success in providing practical and reliable water treatment solutions to our clients".

This release has been approved by the Board of Directors of SciDev Limited.
