### Company Highlights

#### Team

- Highly credentialed gold project operational and in-house development team;
- A proven history of building projects on time and on budget.

#### Gold Production

- Okvau Gold Mine commissioned on time on budget in 2021;
- ~420Koz gold produced project to date

#### Growth

- Significant exploration and resource growth potential in Cambodia:
  - Okvau Gold Mine reserve expansion;
  - Memot Project (100%) open pit indicated and inferred resource of 31.4Mt @ 1.3g/t Au for 1.34Moz
  - 1,190km<sup>2</sup> of prospective tenure
- Significant exploration and resource growth potential in Australia:
  - Dingo Range Gold Project located on the underexplored Dingo Range greenstone belt
  - Dingo Range open pit measured, indicated and inferred resource of 39.9Mt @ 1.1g/t Au for 1.36Moz
  - ~1,047km<sup>2</sup> of prospective tenure

#### ESG

- Focussed on a net positive impact on near-mine environmental and social values by targeting strict compliance with corporate governance, international guidelines (IFC PS's) and local laws by engaging and collaborating with all stakeholders.
- Commitment to carbon neutral operations in Cambodia

## September 2025 Quarterly Production

Emerald Resources NL (ASX:EMR) (**Company**) provides an update on production guidance for the 100% owned Okvau Gold Mine for the September 2025 quarter.

### September 2025 Quarter Guidance:

- Okvau Gold Mine gold production for the September 2025 quarter anticipated to be circa 22Koz;
- September 2025 quarterly production below guidance due to heavy rainfall during September which restricted access to high grade ore scheduled to be mined and milled at month end;
- AISC for the September 2025 quarter is anticipated to be ~US\$1,150/oz.
- Cash, bullion and listed investments as at 30 September 2025 A\$303.6M (US\$200.4M)

### Production and AISC Guidance Unchanged:

- Financial Year 2026: 105Koz – 120Koz (to be updated with Okvau underground expansion) with AISC in line with life of mine US\$966/oz;
- Emerald remains fully funded to achieve its stated aim of becoming a multi-mine +300Koz per annum gold producer with the successful completion of the following:
  - Okvau Gold Mine underground expansion, pit extensions and near mine prospects coming online during CY2026;
  - Development of a second standalone Cambodian operation at the Memot Gold Project in CY2026; and
  - Development of Emerald's first Australian operation at the Dingo Range Gold Project during CY2026.

Production for the September 2025 quarter fell below guidance primarily due to heavy rainfall late in the Quarter which included a significant 24hr rainfall event of 114mm which impacted on pit dewatering, deferring access to circa 5,000oz of high grade ore scheduled to be mined and milled at the end of the month. Production and AISC guidance remain unchanged for FY26 at 105Koz – 120Koz (to be updated with Okvau underground expansion) with AISC in line with life of mine US\$966/oz.

Emerald remains fully funded, debt free and unhedged and is on track to achieve its strategic objective of becoming a multi-mine gold producer exceeding 300Kozs per annum over the next 18 months. This growth will be driven by key developments scheduled for CY2026, including the underground expansion, pit extensions and near-mine prospects at the 100% owned Okvau Gold Mine, development of a second standalone operation in Cambodia at the 100% owned Memot Gold Project and development of Emerald's first Australian operation at the 100% owned Dingo Range Gold Project.

This ASX release was authorised on behalf of the Emerald Board by:  
Morgan Hart, Managing Director.

### **Forward Looking Statement**

Certain statements contained in this document, including information as to the future financial or operating performance of the Company and its projects, are forward looking statements. Such forward looking statements involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company and which may cause actual results, performance or achievements to differ materially from those expressed or implied by such statements. Forward looking statements are provided as a general guide only and should not be relied on as an indication or guarantee of future performance. Given these uncertainties, recipients are cautioned to not place undue reliance on any forward looking statement. Subject to any continuing obligations under applicable law, the Company disclaims any obligation or undertaking to disseminate any updates or revisions to any forward looking statements in this document to reflect any change in expectations in relation to any forward looking statements or any change in events, conditions or circumstances on which any such statement is based.

### **No New Information**

To the extent that announcement contains references to prior exploration results and Mineral Resource estimates, which have been cross referenced to previous market announcements made by the Company, unless explicitly stated, no new material information is contained. The Company confirms that it is not aware of any new information or data that materially affects the information included in the relevant market announcements and, in the case of estimates of Mineral Resources that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially change.
