

ASX RELEASE | CLEARVUE TECHNOLOGIES LIMITED | (ASX:CPV | OTCQX:CVUEF)

Update: Accelerating ClearVue Global Commercialisation

The Company's leadership remains focused on delivering product advancements, solid business development, compelling brand differentiation and scalable manufacturing and business growth.

HIGHLIGHTS:

- **Accelerating Commercialization:** Foundation for global distribution continues to be built upon to support sustainable business growth.
- **Operational Focus:** Product advancements are expected to enter certification testing prior to the end of the year which will continue ClearVue's dedication to best-in-class compliance and certification and product delivery excellence.
- **Business Development:** Enquiries continue to increase, and the sales proposal pipeline is strong as the company begins recruiting of a dedicated bid desk team to keep pace with growing demand for the ClearVue Solar Façade.
- **Marketing Communications & Branding:** ClearVue marketing launched the enhanced ClearVue website and new video content strongly highlighting what makes ClearVue superior while engaging with and supporting the Company's partners and actively gaining press coverage.

20 October 2025 – Perth, Australia – ClearVue Technologies Limited (ASX:CPV) (ClearVue or the Company) has made persistent progress on its path to global commercialisation taking on several initiatives designed to position the company for consistent growth while extending awareness for the ClearVue Solar Façade.

"When our ClearVue leadership team took the helm less than 90 days ago on 28 July, they committed to focusing on driving demand for ClearVue's solutions, scaling our manufacturing and distribution and continued product innovation," said Mr. Douglas (Doug) Hunt, Managing Director and CEO, ClearVue Technologies. "I am proud of what has been accomplished in such a short period of time. We have seen our enquiry numbers increase consistently as awareness grows due to broad media coverage and consistent communications to our target audiences. We are ready, with our recent capital raise, to get our latest product innovations out for certification testing and we are continuing to lay the groundwork for international product quoting and delivery. The entire team and I are steadfastly concentrated on delivering shareholder value and putting the Company in the position to lead the way in changing the face of the built environment by making it progressively energy efficient and energy generating. I am pleased to share these progress updates with all our stakeholders."

ABOUT CLEARVUE TECHNOLOGIES LIMITED

ClearVue Technologies Limited (ASX: CPV; OTCX: CVUEF) is an Australian technology company that integrates solar technology into building façade and rooftop surfaces to provide renewable energy generation and offset the operational carbon footprint of buildings. The Company's advanced, patented glass technology preserves glass transparency maintaining building aesthetics while generating energy.

ClearVue has extended solar energy-generation to vision glass, cladding, spandrel, balustrade, and skylight solutions. These solutions can offset operational energy requirements significantly contributing to the net zero building.

ClearVue's integrated solar façade is revolutionizing the way buildings are designed, constructed, and renovated. Experience how building façades will become a major contributing factor to reducing operational carbon by visiting ClearVue at www.clearvuepv.com.
