

1 SEPTEMBER 2023

A\$15 MILLION PLACEMENT TO ADVANCE WEST ARUNTA PROJECT

Highlights

- **Firm commitments received for an institutional Placement to raise gross proceeds of A\$15m (before costs) at an issue price of A\$5.00 per share**
- **Strong support from an offshore fund and existing domestic institutional shareholders**
- **Funds raised will support expanded drilling and development activities at the West Arunta Project**

WAI Resources Ltd (ASX: WAI) (**WAI** or the **Company**) is pleased to announce it has received firm commitments for a placement of new ordinary shares to raise A\$15 million before costs (the **Placement**).

The Placement price of A\$5.00 per share represents a 5% discount to the 10-day VWAP of WAI Shares and will result in the issue of 3 million New Shares in two Tranches and the Company having approximately 56.7 million shares on issue.

Tranche 1 will be issued pursuant to the Company's existing placement capacity under ASX Listing Rule 7.1 and 7.1A, raising A\$12.8 million before costs, resulting in the issue of approximately 2.6 million new shares.

Tranche 2, which is subject to WAI shareholder approval, will raise an additional A\$2.2 million before costs from the issue of 0.4 million new shares. WAI will convene a General Meeting to approve Tranche 2 of the Placement, which is expected to be held early October 2023.

MST Financial Services Pty Ltd and Canaccord Genuity (Australia) Limited acted as Joint Lead Managers to the Placement.

Funds raised from the Placement will primarily be applied towards ongoing exploration activities and development studies at the West Arunta Project, along with administration/corporate costs and general working capital.

WAI's Managing Director, Paul Savich, commented:

"We continue to have two drill rigs operating at Luni which are completing ongoing infill and step-out drilling in support of the maiden Mineral Resource estimate planned for release in the first half of 2024. Development activities are also gathering momentum with initial sighter testwork ongoing before upcoming metallurgical programs commence.

“Our team has also continued to grow to support a number of development activities in line with our long-term, structured approach to fast-tracking project development aspects, and this additional funding enhances our ability to do so.”

Indicative Placement Timetable
