- ◆ Annual Recurring Revenue (ARR) run rate of \$16.4M; (\$15.5M at 30 Sept 2022)
- ◆ Increased exposure to high growth radiology outpatient market with new customers Nuvodia and Akumin
- ◆ Cash on hand \$20.6M; (\$21.5M at 30 Sept 2022 )

Mach7 Technologies Limited (“Mach7” or the “Company”) (ASX:M7T), a company specialising in innovative medical imaging software solutions, is pleased to provide this quarterly update in conjunction with the release of the Appendix 4C – Quarterly Cash Flow Report.

### SALES ORDERS

Sales orders for the second quarter of FY23 were a record \$22.4 million (TCV), up strongly on the \$6.6M achieved in Q2 FY22. While the \$16.7 million Akumin capital contract accounted for much of total Q2 sales orders, the contract only included Professional Service fees for initial project stages, with future stages requiring separate contracts. Consequently, the annual Support & Maintenance fees skew the composition of quarterly sales orders toward Annual Recurring Revenue (57%).

<sup>1</sup> Total Contract Value (TCV) means capital software license fees, professional service fees, annual subscription fees and annual support fees over the life of the contract.

<sup>2</sup> Normalised exchange rate as at 31 December 2022: AUD/USD = \$0.657

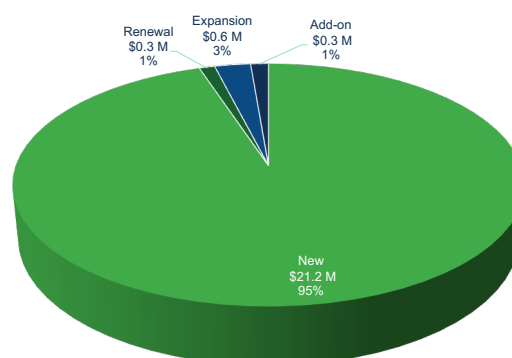

Total FY23 Q2 sales orders comprised:

- \$12.7 million (or 57%) of Annual Recurring Revenue (ARR) sales (support & maintenance fees and subscription fees to be recognised as revenue over the support and subscription period when the customer achieves First Productive Use (FPU)),
- \$8.8 million (or 39%) of capital software sales (immediately recognised as revenue upon delivery in FY23), and
- \$1.0 million (or 4%) of professional services sales (to be recognised as revenue over time upon completion of services).

Q2 FY23 Sales Orders by Source (TCV)

Q2 FY23 Sales Orders By Order Type (TCV)

Partnership sales accounted for 12% of total sales orders in Q2, a significant uplift on the 4% achieved in the prior quarter. The growth in partnership sales is driven by the strength of the recently forged partnership with Nuvodia, a US national radiology technology services provider specialising in outpatient radiology clinics and community hospitals. The entire Mach7 product suite is promoted via this partnership and to that end Nuvodia entered a \$2.5 million, five-year subscription contract for Mach7's complete Enterprise Imaging Platform including its Vendor Neutral Archive (VNA), eUnity Diagnostic Viewer and Workflow applications to provide a true enterprise-wide PACS solution for healthcare providers.

Sales orders from new customers dominated the Q2 sales order composition with 95% (or \$21.2 million) of sales generated from newly formed relationships, predominantly those with Akumin and Nuvodia.

## RECURRING REVENUE GROWTH

### Annual Recurring Revenue (ARR)

Mach7 is currently generating \$16.4 million of Annual Recurring Revenue (ARR), a run rate calculated by annualising the year to date monthly average of revenue earned from support & maintenance fees and subscription fees. This run rate has increased 5.8% from \$15.5M as at 30 September 2022 and will continue to grow as existing and new customers achieve FPU.

### Contracted Annual Recurring Revenue (CARR)

Sales orders for the quarter have contributed a further \$2.1 million (since 30 September 2022) to the Contracted Annual Recurring Revenue (CARR) base which now sits at \$20.0 million. Mach7's CARR consists of the \$16.4 million ARR run rate for customers that have achieved FPU of the software, plus \$3.6 million of subscription and support & maintenance fees not yet recognised as revenue because FPU is still pending.

## CASHFLOW AND CASH RECEIPTS

Cash receipts from customers for Q2 were \$6.4 million, down \$2.2 million on the previous corresponding period (Q2 FY22: \$8.6 million) which benefited from Trinity Health and Advocate Aurora Health sales orders. Soft Q1 FY23 sales orders, adverse foreign exchange movements and higher marketing costs associated with the RSNA conference contributed to a negative Q2 FY23 operating cashflow of \$0.3 million.

Refer to the Appendix 4C accompanying this update for details of the Company's expenditure on its business activities during the quarter.

Notwithstanding financial year to date net operating cash outflows of \$5.3 million, with scheduled cash collections and a strong sales order outlook, Mach7 expects to remain operating cash flow positive for FY23 as it has in the preceding three financial years.

The financial position of the Company remains solid, with no debt and \$20.6 million cash on hand, down \$0.9 million or 4.4% against \$21.5 million at 30 September 2022. With positive FY23 operating cashflow forecast, Mach7 expects its cash balance to build over the balance of the financial year.

## OUTLOOK

At approximately 70% towards its goal, Mach7 remains confident of achieving its FY23 sales order forecast of at least \$36 million, which represents a 20% increase on the FY22 target of \$30 million and +8% on the \$33.2 million achieved.

The desire for scale, cutting edge technology and the rapid deployment of those systems in the healthcare sector is creating strong demand for Mach7's products and services. The trend toward remote reading services, together with the requirement for interoperability is seeing Mach7 gain new customers and market share.

The Company expects +20% revenue growth in FY23, underpinned by a healthy pipeline and the recognition of revenue from the Trinity Health and Adventist Health sales orders as Mach7's software progressively goes live. Approximately 80-85% of the TCV associated with these contracts is yet to be recognised as revenue.

## PAYMENTS TO RELATED PARTIES OF THE ENTITY AND THEIR ASSOCIATES

The payments as disclosed in section 6.1 of the Appendix 4C released below related to:

Payment of \$78,271 for Director's fees and superannuation for the quarter; and

Payment of \$147,857 for Executive Director's salary and superannuation for the quarter.
