

Quarterly Activities Report

For the quarter that ended on 31 March 2026

Overview:

During the quarter the Company progressed a number of key technical and strategic workstreams across its portfolio. While activity remained largely behind the scenes, the Company advanced several initiatives aimed at supporting near-term development at Burtville East and positioning the broader asset base for future value creation.

Burtville East Gold Project:

Bulk Metallurgical Sampling

Discussions with third parties regarding bulk metallurgical sampling of high gravity-recoverable gold at Burtville East are now nearing completion. This work is expected to provide gold output, important data for processing pathways and further validate the project's favourable metallurgical characteristics.

Deeper Drilling Program

A program of deeper drilling targeting extensions below the current ~90m Mineral Resource Estimate (MRE) depth limit was completed during the quarter. The program is designed to test the down-plunge continuity of mineralisation, with the system remaining open at depth.

Mining Lease Conversion

Work towards the conversion of a portion of Burtville East into a mining lease continued during the quarter, a key step in advancing the project toward potential future mining operations.

Coglia Nickel-Cobalt Project:

The Company continued its review of the Coglia Project, with a recent renewed focus on nickel given improving market conditions driven by global supply disruptions.

Daniel Tuffin, Managing Director and CEO, commented:

"This was a productive quarter, with key workstreams advanced across Burtville East and Coglia, largely behind the scenes but critical to our future plans.

At Burtville East, our focus remains on advancing the project toward a small-scale, high-grade mining operation, with the work completed this quarter representing an important step toward that objective.

At Coglia, strengthening nickel markets—underpinned by Indonesian mining quota cuts and additional pressure from sulfur supply disruptions in the Strait of Hormuz—are reinforcing the project's strategic value. An updated review is now underway.

We are well positioned to build momentum through 2026 as we advance both projects."

Corporate:
Receipt of R&D Tax Incentive

In January 2026, the Company received \$167,000 through a successful Research & Development (R&D) tax offset application relating to the 2023 and 2024 tax periods. This funding, provided under the Australian Governments R&D Tax Incentive Program, strengthened the Company's cash position and provided additional resources for workstreams at the Burtville East Gold Project and Cogleia Nickel-Cobalt Project.

Expiry of Listed Options

Subsequent to the end of the quarter 33,440,000 listed options exercisable at \$0.20 expired on 28 April 2026. These options had been issued as part of the 2023 rights issue.

Mineral Resource Estimate at Burtville East

Table 1: 2025 Updated Burtville East Mineral Resource Estimate.

Classification	Reporting Cut Off	Tonnes	Grade Au	Ounces Au
Indicated	0.5g/t Au	53,100	4.03g/t	6,900
	1.5g/t Au	40,900	4.94g/t	6,500
Inferred	0.5 g/t Au	57,800	1.66g/t	3,100
	1.5g/t Au	21,400	3.01g/t	2,100
Total	0.5g/t Au	110,900	2.79g/t	10,000
	1.5g/t Au	62,300	4.28g/t	8,600

Some errors may occur due to rounding. Table updated to correct prior totalling errors and provide additional cut-offs.

For further information on the MRE, please refer to the ASX announcements on 4 September 2025 and 2 October 2025.

Mineral Resource Estimate at Cogleia

Table 2: Cogleia Nickel-Cobalt Indicated and Inferred Mineral Resource at a 0.40% and 0.45% nickel grade cut-off, for the laterite and ultramafic hosted mineralisation, respectively.

Host Rock	Category	Tonnes	Ni %	Co ppm	Ni tonnes	Co tonnes
Laterite	Indicated	23,316,600	0.61	360	142,800	8,500
	Inferred	8,787,500	0.52	340	45,900	3,000
Ultramafic	Inferred	70,782,200	0.60	370	425,500	26,200
	TOTAL	102,886,300	0.60	370	614,200	37,700

Some errors may occur due to rounding.

For further information, please refer to the ASX announcements on 5 March 2024 and 13 May 2024.

LISTING RULE DISCLOSURES

Exploration Expenditure:

In accordance with ASX Listing Rule 5.3.1, the Company spent \$154,000 on exploration work during the quarter, which largely comprised of assays, drill planning and scoping study costs.

Mining Production and Development Expenditure:

In accordance with ASX Listing Rule 5.3.2, there were no substantive mining production and development activities during the quarter.

Payments to Related Parties:

In accordance with ASX Listing Rule 5.3.5, Panther advises that the payments to related parties of the Company and their associates, as advised in Appendix 5B, for the quarter ended 31 March 2026 was \$160,000 of which \$58,000 was related to exploration consulting services and \$102,000 to Directors’ fees, accounting and company secretarial related services.

ASX ANNOUNCEMENT

29 April 2026

Tenement Information:

In accordance with ASX Listing Rule 5.3.3, the Company advises the following:

- (1) There were no mining tenements acquired or disposed of during the quarter;
- (2) The mining tenements held by the Company as at 31 March 2026 are set out in the table below;
- (3) There were no farm-in or farm-out agreements entered into during the quarter; and
- (4) The Company held no beneficial percentage interests in farm-in or farm-out agreements as at the end of the quarter.

Important Note - Cautionary Statement:

The Scoping Study referred to in this announcement has been undertaken to determine the viability of open pit mining at the Company's Burtville East Gold Project in Western Australia, with processing of the current potential mining inventory to be undertaken offsite at a toll treatment facility. The Study is a preliminary technical and economic assessment of the potential viability of the Project. It is based on low-level technical and economic assessments that are not sufficient to support estimation of Ore Reserves. Further evaluation work and studies are required before the Company will be able to provide assurance of an economic development case.

Of the mineral resources scheduled for extraction in the Study mine production target, approximately 68% of the resource ounces are classified as Indicated, with the remaining 32% classified as Inferred. There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the production target itself will be realised.

The Company has concluded that it has a reasonable basis for providing these forward-looking statements and the forecast financial information included in this release based on the material assumptions outlined in this release. These include assumptions about the availability of funding. While the Company considers all the material assumptions to be based on reasonable grounds, there is no certainty that they will prove to be correct or that the range of outcomes indicated by the Study will be achieved.

To achieve the range of outcomes indicated in the Study, pre-production funding in the order of \$3 million will likely be required. Investors should note that there is no certainty that the Company will be able to raise that amount of funding when needed. It is possible that such funding may only be available on terms that may be dilutive to or otherwise affect the value of the Company's existing shares.

It is also possible that the Company could pursue other 'value realisation' strategies such as a sale, partial sale or joint venture of the Project. If it does, this could materially reduce the Company's proportionate ownership of the Project. Given the uncertainties involved, investors should not make any investment decisions based solely on the results of the Study.

Panther Metals has concluded it has a reasonable basis for providing the forward-looking statements included in this announcement and believes it has a 'reasonable basis' to expect it will be able to complete the development of the mineral resources outlined in this announcement.

This announcement has been prepared in compliance with the JORC Code 2012 Edition (JORC 2012) and the ASX Listing Rules. All material assumptions, on which the forecast financial information is based, have been provided in this announcement and are also outlined in the attached JORC 2012 table disclosures. Given the uncertainties involved and listed above, investors should not make any investment decision based solely on the results of the Study.

Competent Persons Statements:

The information that relates to previously reported Exploration Results is based upon information compiled by Mr Paddy Reidy, who is a director of Geomin Services Pty Ltd. Mr Reidy is a Member of the Australian Institute of Mining and Metallurgy. Mr Reidy has sufficient experience which is relevant to the style of mineralisation and type of deposits under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (the JORC Code 2012). Mr Reidy consents to the inclusion in this report of the matters based on the information compiled by him, in the form and context in which it appears.

The information in this announcement relating to previously reported Exploration Results and Resource Estimation is based on, and fairly represents, information and supporting documentation prepared by Mr Zack van Coller BSc (Hons). Mr van Coller is a full-time employee of Asgard Metals Pty Ltd. Mr van Coller is a Member of the Australian Institute of Mining and Metallurgy, a Fellow of the Geological Society London (a Registered Overseas Professional Organisation as defined in the ASX Listing Rules), and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which has been undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (the JORC Code 2012). Mr van Coller consents to the inclusion in this report of the matters based on the information compiled by him, in the form and context in which it appears.

The information in this report related to the Mineral Resource estimation for the Coglia Nickel-Cobalt Project was compiled by Ms Ruth Woodcock, a consultant geologist of Asgard Metals Pty. Ltd. Ms Woodcock is a member of Recognised Professional Organisations as defined by JORC 2012: a Chartered Geologist (CGeol, Geological Society of London) and European Geologist (EurGeol, European Federation of Geologists) and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity upon which she is reporting as a Competent Person as defined in the 2012 Edition of "The Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves." Ms Woodcock consents to the inclusion in this report of the matters based on the information compiled by her, in the form and context in which it appears.

The information in this document that relates to previously reported metallurgical test work for Exploration Results is based on, and fairly represents, information and supporting documentation reviewed by Mr Alex Borger, BSc (Extractive Metallurgy and Chemistry), who is a Member of The Australian Institute of Mining and Metallurgy (AusIMM). Mr Borger is a full-time employee of SGS Australia owned Independent Metallurgical Operations Pty Ltd, a wholly owned subsidiary of SGS Australia Holdings Pty Ltd, who has been engaged by Panther Metals Ltd to provide metallurgical consulting services. Mr Borger consents to the inclusion in this report of the matters based on the information compiled by him, in the form and context in which it appears.

The Company confirms that the form and context in which the Competent Persons' findings are presented have not been materially modified from the original market announcements.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and, in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

The Company further confirms that all the material assumptions underpinning the production target, or the forecast financial information derived from the production target, in the initial public report continue to apply and have not materially changed.

This announcement has been approved and authorised by the Board of Panther Metals.

7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
	N/A		

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	52
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(154)
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(102)
8.4 Cash and cash equivalents at quarter end (item 4.6)	899
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	899
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	8.8
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: N/A	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: N/A	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: N/A	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

(Name of body or officer authorising release – see note 4)

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
