**Half Year Report - 31 December 2025**

**Mach7 Technologies Limited**  
**Directors' report**  
**31 December 2025**

The Directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity', 'Group' or 'Mach7') consisting of Mach7 Technologies Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 31 December 2025. All amounts are in AUD.

**Directors**

The following persons were Directors of the Company during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Mr Robert Bazzani - Independent Non-Executive Chairman  
Ms Teri Thomas - Managing Director and Chief Executive Officer (appointed effective 1 July 2025)  
Mr Eliot Seigel, MD - Independent Non-Executive Director  
Ms Rebecca Thompson - Independent Non-Executive Director

**Principal activities**

The principal activity of the Company is the development and commercialisation of medical imaging and data management software solutions for global healthcare organisations.

**Operating and financial review**

The loss for the consolidated entity after providing for income tax amounted to \$5,749,066 (31 December 2024: loss of \$1,868,692).

**Financial position**

At 31 December 2025, the Group reported net current assets of \$13.71 million (30 June 2025: \$15.87 million), which includes cash on hand of \$18.49 million (30 June 2025: \$23.07 million), trade and other receivables \$4.29 million (30 June 2025: \$3.93 million) and customer contract assets of \$0.96 million (30 June 2025: \$1.54 million).

**Review of operations**

**Revenue from continuing operations**

**Revenue decreased by 23% on previous corresponding period, \$13.65 million revenue recognised (half-year 31 December 2024: \$17.74 million).**

Group revenue for the half-year was \$13.65 million, a decrease of 23% compared to the prior corresponding period (PCP), primarily reflecting lower one-time Software licence and Professional Services revenue. Recurring revenue, comprising Subscription revenue and Maintenance and Support revenue (ARR), was \$11.58 million, representing a solid base and accounting for the majority of Group revenue despite an 8% decline on PCP.

The Group's ARR recognised for the period represented 78% of operating expenditure (PCP: 80%), continuing to demonstrate the strong contribution of recurring revenues to the Group's cost base. Software licence revenue for the half-year was \$1.12 million, down \$2.42 million on PCP, reflecting fewer large capital software licence expansions and add-on transactions during the period.

Professional Services revenue was \$0.95 million, a decrease of \$0.60 million compared to PCP, largely due to the timing and mix of sales activity, with fewer large-scale implementation projects recognised during the half.

The table below provides a breakdown of revenue recognised by product/service:

**Mach7 Technologies Limited**  
**Directors' report**  
**31 December 2025**

	31 December 2025 \$	31 December 2024 \$	Change \$	Change %

	<u>13,653,595</u>	<u>17,739,317</u>	<u>(4,085,722)</u>	(23%)

\* Subscription and Software Licence revenue above comprises the total software licence revenue amounting to \$6,667,487 as disclosed in note 4 to these financial statements.

\*\* Represents combination of implementation & training services and migration services disclosed in note 4 to these financial statements.

**Expenses from operations**

**Operating expenses decreased by \$0.98 million or 6%**

During the half-year ended 31 December 2025, the Group commenced a strategic reset of its commercial operations, focused on strengthening go-to-market effectiveness. Operating expenses decreased by 6% compared to the prior corresponding period (PCP), reflecting redundancy reductions and disciplined cost management (half-year 31 December 2024: increased by 15%).

Operating expenditure (excluding Right-of-use lease liability interest expense, share-based payments expense, foreign exchange (losses)/gains and depreciation & amortisation) is presented in the following table:

	31 December 2025 \$	31 December 2024 \$	Change \$	Change %
Employment and related expenses	11,601,606	12,279,437	(677,831)	(6%)

\* excluding Right-of-use lease liability interest expense, share-based payments expense, foreign exchange (losses)/gains and depreciation & amortisation.

**Profitability**

The Group has reported EBITDA (on an adjusted basis)\* of (\$2.30) million for the half-year (half-year 31 December 2024: \$0.82 million). The decrease in EBITDA (adjusted) is primarily due to the decrease in revenue (down 23% from PCP). This is set out in the table below:

**Matters subsequent to the end of the financial half-year**

No matter or circumstance has arisen since 31 December 2025 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

**Contingent liability**

The Group has no contingent liabilities as at 31 December 2025 (30 June 2025: Nil)

**Outlook**

Mach7 continues to be a leading innovator in the enterprise imaging space, with a portfolio of interoperable solutions that underpin the imaging strategies of both acute and non-acute care facilities. As the healthcare landscape evolves amidst an increasingly complex financial environment, consolidation among providers is reshaping the dynamics for imaging IT vendors. This trend presents unique challenges, particularly for vendors attempting to transition between outpatient and acute care markets and vice-versa.

Mach7 is well positioned to capitalise on these shifts, supported by a strong installed base across both acute and non-acute care settings. This positioning, together with the continued global adoption of enterprise imaging, underpins attractive market conditions for the Group. Purchasing decisions are increasingly driven at the C-suite level, directly aligning with Mach7's commercial reset strategy, which is designed to strengthen senior executive engagement and drive more effective enterprise-level sales outcomes.

A key strategic pillar supporting both commercial expansion and product innovation is the Group's Asia operations. Asia represents a growing enterprise imaging market in its own right, providing meaningful commercial opportunity across both public and private healthcare systems. In parallel, the region serves as an increasingly important hub for product development and engineering excellence, enabling accelerated innovation and platform scalability from a structurally lower cost base. This dual role enhances operating leverage while strengthening the Group's ability to deliver competitively priced, globally relevant solutions.

Mach7 enters the second half of FY26 with a refined strategy, a stronger operational foundation and improving commercial momentum. The Group remains focused on disciplined cost management while selectively investing in capabilities that enhance scalability and long-term operating efficiency across sales execution, product development and platform delivery. A key step in this strategic shift is the appointment of the Company's first dedicated API developer, situated within its Asia team, strengthening the scalability and integration capability of the Flamingo platform while building a more efficient, globally leveraged development model. This marks the beginning of a broader expansion of Asia-based engineering capability

designed to support innovation, accelerate time to market and improve cost efficiency across the Group. In addition, Mach7 launched a significantly expanded and refreshed marketing program to modernise its brand, digital presence and market engagement.

Mach7 remains confident in its strategy and execution, underpinned by a re-energised sales and partner model, expanded marketing capability and early traction for its Flamingo solutions. The Company continues to prioritise financial discipline and efficient capital allocation, positioning it well to deliver against its strategy and capture emerging market opportunities.

**Significant changes in the state of affairs**

There were no significant changes in the state of affairs of the Group during the financial half-year.

**Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this Directors' Report.

This report is made in accordance with a resolution of Directors, pursuant to section 306(3)(a) of the Corporations Act 2001 (Cth).

**Note 3. Operating segments**

**Description of segments and principal activities**

Mach7 Technologies is a global provider of enterprise imaging solutions for healthcare organisations, predominantly throughout the North America, Asia Pacific, and the Middle East region. The Group's performance is monitored and reported for one main segment, which is enterprise imaging. In addition, revenue is monitored at a regional and product/services level. This information is presented in Note 4.

**Profit or Loss**

The Group's profit and loss is managed as a whole and is the same as what is presented in the statement of financial performance and other comprehensive income. In addition, management and the directors monitor Gross Margins, Earnings Before Interest, Tax and Depreciation (EBITDA), and EBITDA adjusted for non-cash items. This is presented below:

**Disaggregation of revenue from contracts with customers**

Mach7 is a global provider of medical imaging software solutions. Every software sale, or provision of services, is subject to a software licence agreement, statement of work and/or order form. The Group derives revenue from the transfer of goods and services over time and at a point in time in the following major product lines and geographical regions:

	<b>Consolidated</b>	
	<b>31 December 2025</b>	<b>31 December 2024</b>

Revenue recognised over time	12,528,604	14,197,169
	<u>13,653,595</u>	<u>17,739,317</u>

\*Software Licence Revenue is comprised of Subscription Revenue (annual recurring revenue) and Capital Software Licence Revenue (recognised upfront upon delivery of software and is recurring at the end of each term, which is normally 5 years).

**Note 5. Earnings per share**

Basic earnings per share ("EPS") is calculated by dividing the net loss for the half-year attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the half-year. The income and share data used in the calculations of basic and diluted EPS is as follows:

	<b>Consolidated</b>	
	<b>31 December 2025</b>	<b>31 December 2024</b>

Contract assets - non-current	3,439,070	4,176,001
	<u>4,395,064</u>	<u>5,715,500</u>

Customer contract assets (or accrued revenue) represents fees which have been recognised as revenue which are yet to be invoiced to the customer. The customer is invoiced when certain contract milestones have been met. This can fluctuate from period to period, as these balances are impacted by the timing of when contracted sales occur, performance obligations are met and the payment milestones that are specified within each contract. The carrying values are assumed to approximate the fair values for these balances.

Under the accounting standards, contracts in which payment by the customer and performance by the Group occur at significantly different times will need to be assessed to determine whether the contract contains a significant financing component. In the FY23 reporting period, the Group identified that its customer contract with Akumin contains a significant financing component due to the performance obligation in relation to the delivery of the capital licence being completed in December 2022 but payment for the capital software licence occurring over a 10-year period. In determining the promised amount of consideration adjusted for the significant financing component, the Group used a discount rate that would be reflected in a separate financing transaction between the Group and Akumin at contract inception which takes into account the credit characteristics of Akumin. The difference between the contract value and the capital software licence revenue recognised at contract inception will unwind over the 10-year contract term as interest income in the statement of profit or loss and other comprehensive income. The contract asset recognised in relation to the Akumin contract is split between current and non-current based on the invoicing schedule in the contract.

Capital Software Licence Revenue received in advance	44,766	98,788
	<u>9,568,783</u>	<u>11,834,231</u>

Customer contract liabilities (or deferred revenue) represents cash amounts that have been collected from customers that will be recognised as revenue in a future period. Revenue is recognised:

- at a point in time when Capital Software Licences are delivered.
- over a period of time when Professional Services are performed.
- over a period of time when Maintenance and Support services are performed.
- for Subscription over the subscription period upon the customer achieving First Productive Use.

The carrying values are assumed to approximate the fair values for these balances. Maintenance and Support revenue and Subscription revenue received in advance are expected to grow year on year as the Group signs new customer contracts, i.e. every new Maintenance and Support contract and Subscription contract signed going forward will add to this balance. Professional Services revenue received in advance is expected to fluctuate from year to year, as timing of sales orders, cash payment milestones and Professional Services performed will impact this balance.

## INDEPENDENT AUDITOR'S REVIEW REPORT To the Members of Mach7 Technologies Limited

### Conclusion

We have reviewed the accompanying half-year financial report of Mach7 Technologies Limited ("Company") and its controlled entities ("Group") which comprises the consolidated statement of financial position as at 31 December 2025, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of material accounting policies and other explanatory information, and the directors' declaration of the Group at the half-year end.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Mach7 Technologies Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

### Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Mach7 Technologies Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

### Directors' Responsibility for the Half-Year Financial Report

The directors of the Mach7 Technologies Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility for the Review of the Financial Report**

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 31 December 2025 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
