

ASX RELEASE | CLEARVUE TECHNOLOGIES LIMITED
(ASX:CPV | OTC:CVUEF)

Clifton Smyth Appointed Global Business Development Director

Highlights

- ClearVue appoints Clifton Smyth as its Global Business Development Director
- Mr Smyth brings 20+ years of experience in the façade, architectural and construction sector
- Mr Smyth has been appointed to lead sales growth, secure license agreements, generate formal and informal partnerships and oversee global supply chain management

9 November 2022: Smart building materials company ClearVue Technologies Limited (ASX:CPV) (**ClearVue** or the **Company**) is pleased to announce the appointment of Mr Clifton Smyth as its Global Business Development Director effective immediately.

Mr Smyth brings 20+ years of experience across multiple geographies. Mr Smyth has previously held senior executive positions with McMullen Facades Limited (Part of the JRL Group – UK) where he was responsible for building sustainable long-term relationships with existing and new clients, develop work winning strategies, de-risking projects technically and commercially and successfully transferring secured projects to the construction teams. In addition, My Smyth has been responsible for global supply chain management, overseeing multiple office and production facilities in Europe and the Middle East and supporting and growing key stakeholder relationships.

Prior to joining McMullen Facades, Mr Smyth held senior positions with Lindner Group, Multiforms (Architectural Façade Specialist) and Kann Finch Group (UAE).

Mr Smyth will head up ClearVue's global sales and marketing efforts.

Commenting on Mr Smyth's appointment Executive Chairman Victor Rosenberg has said:

"The appointment of Clifton is a vital step in our plans to drive international sales.

Clifton's extensive experience and networks in the global facade markets will complement ClearVue's market expansion and commercialisation path.

The Board welcomes Clifton to the team and looks forward to working with him to grow ClearVue's sales globally."

Authorised by the Board of ClearVue Technologies Limited.

ABOUT CLEARVUE TECHNOLOGIES LIMITED

ClearVue Technologies Limited (ASX: CPV) is an Australian technology company that operates in the Building Integrated Photovoltaic (BPIV) sector which involves the integration of solar technology into building surfaces, specifically glass and building façades, to provide renewable energy. ClearVue has developed advanced glass technology that aims to preserve glass transparency to maintain building aesthetics whilst generating electricity.

ClearVue's electricity generating glazing technology is strategically positioned to compliment and make more compelling, the increased use of energy-efficient windows now being regulated in response to global climate change and energy efficiency goals.

Solar PV cells are incorporated around the edges of an Insulated Glass Unit (IGU) used in windows and the lamination interlayer between the glass in the IGU incorporates ClearVue's patented proprietary nano and micro particles, as well as its spectrally selective coating on the rear external surface of the IGU.

ClearVue's window technology has application for use in the building and construction and agricultural industries (amongst others).

ClearVue has worked closely with leading experts from the Electron Science Research Institute, Edith Cowan University (ECU) in Perth, Western Australia to develop the technology.
