

Regis Resources & Vault Minerals to Merge

5th May 2026

Important Information and Disclaimers

IMPORTANT – You must read the following before continuing

This is a joint presentation (**Presentation**) by Regis Resources Limited (**Regis**) and Vault Minerals Limited (**Vault**) dated 05 May 2026. For the purposes of ASX Listing Rule 15.5, each of Regis and Vault confirm that this Presentation has been authorised for release to the ASX by their respective boards of directors. This Presentation has been prepared in relation to the proposed acquisition by Regis of all the shares issued in Vault by way of a scheme of arrangement under Part 5.1 of the Corporations Act 2001 (Cth) (**Corporations Act**) between Vault and its shareholders (**Scheme**). Under the Scheme, it is proposed that Regis will acquire 100% of the fully paid ordinary shares in Vault in exchange for the issue of fully paid ordinary shares in Regis to Vault shareholders. The Scheme is subject to the terms and conditions described in the scheme implementation deed entered into between Regis and Vault on or about the date of this Presentation (**SID**). A copy of the SID is available on the Australian Securities Exchange (**ASX**) website.

Summary Information

This Presentation contains summary information about Regis and Vault and their respective associated entities and activities current as at the date of this Presentation (unless otherwise indicated). This Presentation is for information purposes only. The information in this Presentation is of a general background nature and does not purport to be complete, nor does it contain all the information that an investor may require to make an informed assessment about the Scheme and its effect, nor does it contain all the information which prospective investors would require to evaluate an investment in Regis or Vault, nor does it contain all the information which would be required in a prospectus or product disclosure statement prepared in accordance with the Corporations Act. Neither Regis nor Vault is responsible for updating, nor undertakes to update, this Presentation.

This Presentation has been prepared by Regis and Vault based on information available to them at the time of preparing this Presentation. No representation or warranty, express or implied, is made as to the fairness, accuracy or completeness of the information, opinions and conclusions contained in this Presentation. To the maximum extent permitted by law:

- none of Regis or any related body corporate of Regis, nor any of their respective directors, employees, agents or advisers (**Regis Parties**), or any other person, accepts any liability, including, without limitation, any liability arising from fault or negligence on the part of any of them or any other person, for any loss arising from the use of this Presentation or its contents or otherwise arising in connection with it; and
- none of Vault or any related body corporate of Vault, nor any of their respective directors, employees, agents or advisers (**Vault Parties**), or any other person, accepts any liability, including, without limitation, any liability arising from fault or negligence on the part of any of them or any other person, for any loss arising from the use of this Presentation or its contents or otherwise arising in connection with it.

This Presentation should be read in conjunction with Regis' and Vault's most recent financial report and other periodic and continuous disclosure announcements which are available at www.asx.com.au. The information in this Presentation is based on Regis' and Vault's own information and estimates, respectively, and has not been independently verified.

Further information about the Scheme (including key risks for Vault shareholders) will be provided by Vault to Vault shareholders and released to ASX in due course, in the form of an explanatory statement and notice of meeting (**Scheme Booklet**). The Scheme Booklet will also include or be accompanied by an independent expert's report that will opine on whether the Scheme is in the best interests of Vault shareholders.

Not an Offer

This Presentation does not constitute an offer to sell, or a solicitation of an offer to buy any securities in any jurisdiction. The distribution of this Presentation and the offer of securities is restricted in jurisdictions outside of Australia. This Presentation may not be released to US wire services or distributed in the United States. This Presentation does not constitute an offer to sell, or the solicitation of an offer to buy, any securities in the United States or any other jurisdiction in which such an offer would be unlawful. The securities referred to in this Presentation have not been, and will not be, registered under the US Securities Act of 1933 (**US Securities Act**) and may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws.

Important Information and Disclaimers (*cont'd*)

Not an Offer (*cont'd*)

This Presentation is for information purposes only and is not, and should not be considered as, an offer or solicitation or an invitation or recommendation to subscribe for, acquire or buy securities in Regis or Vault or any other financial products. Neither this Presentation nor any of its contents will form the basis of any contract or commitment. This Presentation is not a prospectus, product disclosure statement or other disclosure document under the Corporations Act, or any other offering document under Australian law or the law of any other jurisdiction (and will not be lodged with the Australian Securities and Investments Commission (ASIC) or any foreign regulator).

Neither this Presentation nor any of its contents may be reproduced or used for any purpose without the prior written consent of Regis and Vault.

Not Investment or Financial Advice

This Presentation, and the information in it, does not constitute financial product, legal, tax, accounting or investment advice and is not a recommendation to investors or potential investors. This Presentation, and the information contained within it, does not take into account the investment objectives, financial situation or particular needs of any recipient. Before making an investment decision, you should consider the appropriateness of the information having regard to these matters, any relevant offer document and in particular, you should seek independent professional advice that you deem necessary or appropriate before taking any action based on the information contained in this Presentation. Neither Regis nor Vault is licensed to provide financial product advice and do not purport to give advice of any nature.

Investment Risk

An investment in any listed company, including Regis and Vault, is subject to investment and other known and unknown risks, some of which are beyond the control of Regis and Vault, including possible loss of income and capital invested. Regis and Vault do not guarantee any particular rate of return or the performance of Regis or Vault, nor do they guarantee the repayment of capital from Regis or Vault or any particular tax treatment.

When making any investment decision, investors should make their own enquiries and investigations regarding all information in this Presentation, including but not limited to the assumptions, uncertainties and contingencies which may affect future operations of Regis and Vault, and the impact that different future outcomes may have on Regis and Vault. In respect of the Scheme, investors should carefully consider the information to be made available in the Scheme Booklet (and all other materials issued by Vault in connection with the Scheme) and seek independent advice before making any decision.

Limitation on Information in Relation to Regis and its Operations

All information in this Presentation in relation to Regis and its operations – including in relation to or otherwise derived from historical production, historical costs and cash flows and other financial information, or production or development plans, or infrastructure or production capacity or capability, or any forward-looking statements relating to or extrapolated from any of that information – has been sourced from Regis (**Regis Information**). Subject to the preceding disclaimer, Regis is responsible for the Regis Information, as well as any information in this Presentation that is presented on a “merged group” basis (excluding to the extent derived from Vault Information). None of the Vault Parties assume any responsibility for the accuracy or completeness of the Regis information.

Limitation on information in relation to Vault and its operations

All information in this Presentation in relation to Vault and its operations – including in relation to or otherwise derived from historical production, historical costs and cash flows and other financial information, or production or development plans, or infrastructure or production capacity or capability, or any forward-looking statements relating to or extrapolated from any of that information – has been sourced from Vault (**Vault Information**). Subject to the preceding disclaimer, Vault is responsible for the Vault Information. None of the Regis Parties assume any responsibility for the accuracy or completeness of the Vault Information.

Important Information and Disclaimers (*cont'd*)

Currency and Effect of Rounding

Unless otherwise stated, all dollar values are in Australian dollars (\$). A number of figures, amounts, percentages, estimates, calculations of value and fractions in this Presentation are subject to the effect of rounding. Accordingly, the actual calculation of these figures may differ from the figures set out in this Presentation.

Past Performance

Past performance information given in this Presentation is given for illustrative purposes only and should not be relied upon as (and is not) an indication of future performance, including future share price performance. Historical information in this Presentation relating to Regis or Vault is information that has been released to the market. The historical information is presented in an abbreviated form insofar as it does not include all presentation and disclosures, statements or comparative information as required by the Australian Accounting Standards (AAS) and other mandatory professional reporting requirements applicable to general purpose financial reports prepared in accordance with the Corporations Act. For further information, please see past announcements released to the ASX.

Future Performance and Forward-Looking Statements

This Presentation contains references to forecasts, estimates, assumptions and other forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "seek", "anticipate", "forecast", "believe", "plan", "estimate", "expect" and "intend" and statements that an event or result "may", "will", "should", "could" or "might" occur or be achieved and other similar expressions. All forward-looking statements are based on information and estimates available to Regis and Vault at the time of this Presentation and are not guarantees of future performance. They may be affected by a variety of variables and changes in underlying assumptions that are subject to risk factors associated with the nature of the business, which could cause actual results to differ materially from those expressed herein.

Examples of forward-looking statements (made at the date of this Presentation unless otherwise indicated) include, among others, statements regarding intentions, beliefs and expectations, plans, strategies and objectives of the directors and management of Regis and Vault, the anticipated timing for and outcome and effects of the Scheme (including expected benefits to shareholders of Regis and Vault), indications of and guidance on synergies, future earnings or financial position or performance, anticipated production or construction or development commencement dates, costs or production outputs, capital expenditure and future demand for gold, expectations for the ongoing development and growth potential and the future operation of Regis and Vault.

Any forward-looking statements, as well as any other opinions and estimates, provided in this Presentation are based on assumptions, contingencies and estimates existing at the time of assessment and which are subject to change without notice impacting the accuracy of those statements and which may prove ultimately to be materially incorrect, as are statements about market and industry trends, which are based on interpretations of current market conditions. Forward-looking statements are not statements of historical fact and actual events and results may differ materially from those contemplated by the forward-looking statements as a result of a variety of risks, uncertainties and other factors, many of which are outside the control of Regis and Vault. Such factors may include, among other things, risks relating to funding requirements, gold and other commodity prices, exploration, development and operating risks (including unexpected capital or operating cost increases), production risks, competition and market risks, regulatory restrictions (including environmental regulations and associated liability, changes in regulatory restrictions or regulatory policy and potential title disputes) and risks associated with general economic conditions.

In addition, other factors related to the Scheme that contribute to the uncertain nature of the forward-looking statements and that could cause actual results and financial condition to differ materially from those expressed or implied include, but are not limited to: the satisfaction of the conditions precedent to the consummation of the Scheme, including, without limitation, the receipt of securityholder and regulatory approvals on the terms desired or anticipated; unanticipated difficulties or expenditures relating to the Scheme, including, without limitation: difficulties that result in the failure to realize expected synergies, efficiencies and cost savings from the Scheme within the expected time period (if at all); potential difficulties in Regis' and Vault's ability to retain employees as a result of the announcement and pendency of the Scheme; disruptions of Regis' and Vault's current plans, operations and relationships with customers caused by the announcement and pendency of the Scheme; and legal proceedings that may be instituted against Regis or Vault following announcement of the Scheme.

Important Information and Disclaimers (*cont'd*)

Future Performance and Forward-Looking Statements (*cont'd*)

There can be no assurance that the Scheme will be implemented or that plans of the directors and management of Regis and Vault will proceed as currently expected or will ultimately be successful. You are strongly cautioned not to place undue reliance on forward-looking statements, including in respect of the financial or operating outlook for Regis or Vault.

Except as required by applicable law or the ASX listing rules, Regis and Vault assume no obligation to, and expressly disclaim any duty to, provide any additional or updated information or to update any forward-looking statements, whether as a result of new information, future events or results, or otherwise. Nothing in this Presentation will, under any circumstances (including by reason of this Presentation remaining available and not being superseded or replaced by any other presentation or publication with respect to Regis or Vault, or the subject matter of this Presentation), create an implication that there has been no change in the affairs of Regis or Vault since the date of this Presentation. The distribution of this Presentation may be subject to legal or regulatory restrictions in certain jurisdictions. Any person who comes into possession of this Presentation must inform themselves of and comply with any such restrictions.

Financial Data

Investors should be aware that this Presentation contains certain financial information and measures that are “non-IFRS financial information” under Regulatory Guide 230: ‘Disclosing non-IFRS financial information’ published by ASIC, and are not recognised under AAS and International Financial Reporting Standards (**IFRS**). The non-IFRS financial information financial measures do not have a standardised meaning prescribed by the applicable AAS or IFRS, and therefore, may not be comparable to similarly titled measures presented by other entities, nor should they be construed as an alternative to other financial measures determined in accordance with the applicable AAS or IFRS. Although Regis and Vault believe the non-IFRS financial information and financial measures provide useful information to users in measuring the financial performance and condition of Regis and Vault, investors are cautioned not to place undue reliance on any non-IFRS financial information or financial measures included in this Presentation.

Investors should further note that this Presentation contains pro-forma and historical financial information. The pro-forma and historical financial information provided in this Presentation is for illustrative purposes only and should not be relied upon as, and is not represented as, being indicative of Regis’ or Vault’s future financial condition and/or performance.

Market Data

Certain market data used in connection with or referenced in this Presentation, including in relation to other companies in the peer group of Regis and Vault may have been obtained from public filings, research, surveys or studies contracted by third parties, including as published in industry-specific or general publications.

None of Regis, Vault, their respective advisers nor their respective representatives have independently verified any market data provided by third parties or industry or general publications.

Australasian Code for Reporting of Exploration Results of Mineral Resource and Ore Reserve (JORC Code)

It is a requirement of the ASX listing rules that the reporting of (amongst other things) exploration results, mineral resources and ore reserves in Australia comply with the JORC Code. Investors outside Australia should note that while the mineral resource and ore reserve estimates of Regis and Vault in this Presentation comply with the JORC Code, they may not comply with the relevant guidelines in other countries and, in particular, do not comply with (i) National Instrument 43-101 (Standards of Disclosure for Mineral Projects) of the Canadian Securities Administrators (the “Canadian NI 43-101 Standards”); or (ii) Item 1300 of Regulation S-K, which governs disclosures of mineral reserves in registration statements filed with the SEC. Information contained in this Presentation describing mineral deposits may not be comparable to similar information made public by companies subject to the reporting and disclosure requirements of Canadian or US securities law. You should not assume that quantities reported as “resources” will be converted into reserves under the JORC Code or any other reporting regime or that Regis or Vault will be able to legally and economically extract them.

Important Information and Disclaimers (*cont'd*)

Photographs and Diagrams

Photographs and diagrams in this Presentation are for illustration purposes only and should not be interpreted to mean that any person shown in them endorses this Presentation or its contents or that the assets shown in them are owned by Regis or Vault. Diagrams and maps used in this Presentation are illustrative only and may not be drawn to scale. Unless otherwise stated, all data contained in charts, graphs and tables is based on information available as at the date of this Presentation.

Regis

The information in this Presentation that relates to the current Ore Reserves and Mineral Resources of Regis has been extracted from the ASX release by Regis entitled “Mineral Resource and Ore Reserve Update” dated 22 April 2026 which is available on the Regis website <https://www.regisresources.com.au/> and www.asx.com (**Regis Announcement**). Regis confirms that it is not aware of any new information or data that materially affects the information included in the Regis Announcement, and that all material assumptions and technical parameters underpinning the estimates in the Regis Announcement continue to apply and have not materially changed. Regis confirms that the form and context in which the competent person’s findings are presented have not been materially modified from the Regis Announcement.

Vault

The information in this Presentation that relates to the current Ore Reserves and Mineral Resources of Vault has been extracted from the ASX release by Vault entitled “2025 Resource and Reserve Statement” dated 15 September 2025 which is available on the Vault website <https://www.vaultminerals.com> and www.asx.com (**Vault Announcement**). Vault confirms that it is not aware of any new information or data that materially affects the information included in the Vault Announcement, and that all material assumptions and technical parameters underpinning the estimates in the Vault Announcement continue to apply and have not materially changed. Vault confirms that the form and context in which the competent person’s findings are presented have not been materially modified from the Vault Announcement.

The Production Target for the Leonora project has been extracted from the ASX release by Vault entitled “KoTH open pit Ore Reserve growth underpins Stage 2 plant upgrade” dated 26 May 2025 which is available on the Vault website <https://www.vaultminerals.com> and www.asx.com. Vault confirms that all material assumptions underpinning the Production Target in the original ASX announcement continue to apply and have not materially changed.

The Production Target for the Sugar Zone project has been extracted from the ASX release by Vault entitled “Half-Year Financial Results to 31 December 2024. Growth strategy accelerating” dated 27 February 2025 which is available on the Vault website <https://www.vaultminerals.com> and www.asx.com. Vault confirms that all material assumptions underpinning the Production Target in the original ASX announcement continue to apply and have not materially changed.

Creation of a New Senior Gold Producer

(1) Based on mid-point of latest FY26 guidance reported by Regis in its quarterly activities report 23 April 2026 and by Vault in its quarterly activities report dated 22 April 2026. Refer to Appendix C for supporting data.

(2) Pro-forma Mineral Resources and Ore Reserves estimates for the combined company are based on the aggregate Mineral Resources and Ore Reserves estimates (with rounding) of each of Regis and Vault. Mineral Resources are inclusive of Ore Reserves. Refer to Appendix B for further detail on the individual Mineral Resources and Ore Reserves estimates of Regis and Vault. Regis Mineral Resources and Ore Reserves shown as at 31 December 2025 (refer to ASX release titled "Mineral Resource and Ore Reserve Update" dated 22 April 2026). Vault Mineral Resources and Ore Reserves shown as at 30 June 2025 (refer to ASX release titled "2025 Resource and Reserve Statement" dated 15 September 2025).

(3) Based on share price of Regis as at 04 May 2026. Refer to the combined company snapshot (page 21) for further detail.

(4) Based on latest reported net cash figures from Regis and Vault Quarterly Activities Reports for the quarter ended 31 March 2026. Refer to the combined company snapshot (page 21) for further detail.

Transaction Rationale

- 1 Creation of a New +700kozpa¹ Senior Gold Producer**
- 2 Strong Debt Free Balance Sheet and Significant Cash Generation to Fund Next Phase of Growth and Drive Future Shareholder Returns**
- 3 Large Mineral Endowment Supports Long Life Gold Production**
- 4 Diversified Portfolio of Scale and Quality with Enhanced Operational Resilience**
- 5 Scope to Unlock Value Through Synergies**
- 6 Increased Scale and Global Market Relevance**
- 7 Experienced Management Team with Proven Track Record**

(1) Based on mid-point of latest FY26 guidance reported by Regis in its quarterly activities report dated 23 April 2026 and by Vault in its quarterly activities report dated 22 April 2026. Refer to Appendix C for supporting data.

Transaction Summary

Logical merger-of-equals of two established ASX gold producers with clear strategic advantages

Transaction Structure	<ul style="list-style-type: none"> Merger of Regis and Vault via a Vault scheme of arrangement (Scheme), under which Regis will acquire 100% of the fully paid ordinary shares in Vault
Consideration & Pro-Forma Ownership	<ul style="list-style-type: none"> Under the Scheme, Vault shareholders to receive 0.6947² new fully paid ordinary shares in Regis for each Vault share held Upon implementation of the Scheme, Regis shareholders will own approximately 51%^{1,2} and Vault shareholders will own approximately 49%^{1,2} of the combined company Both parties plan to maintain shareholder return initiatives in line with their respective capital management policies prior to transaction completion and are permitted to declare ordinary dividends ahead of the Scheme implementation date, subject to a commensurate adjustment to the merger exchange ratio as outlined in the Scheme Implementation Deed (SID)
Board Recommendations & Exclusivity Arrangements	<ul style="list-style-type: none"> The Scheme is unanimously recommended by the Vault board, subject to no superior proposal for Vault emerging and an Independent Expert concluding (and continuing to conclude) that the Scheme is in the best interests of Vault shareholders The Scheme has been unanimously endorsed and supported by the Regis board, subject to no superior proposal for Regis emerging Reciprocal exclusivity arrangements (including customary 'no shop', 'no talk', 'no due diligence', notification and matching right obligations), notification and matching obligations and reciprocal break fees apply
Board & Senior Management	<ul style="list-style-type: none"> Combined company to continue as Regis Resources, headquartered in Perth and trading on the ASX The combined group's board of directors will be comprised of 4 directors from each of the current Regis and Vault boards Russell Clark to be Chair of the merged group board; Jim Beyer to be Chief Executive Officer and Managing Director; Anthony Rechichi as Chief Financial Officer and Michael Holmes as Chief Operating Officer
Conditions	<ul style="list-style-type: none"> Transaction is subject to approval by Vault shareholders, Court and other regulatory approvals, an Independent Expert concluding (and continuing to conclude) that the Scheme is in the best interests of Vault Shareholders, no material adverse change in respect of Vault or Regis and other customary conditions
Indicative Timing <i>(Refer to Key Transaction Information Section)</i>	<ul style="list-style-type: none"> Scheme booklet dispatch: July / August 2026 Scheme meeting date: August / September 2026 Court hearing date: August / September 2026 Effective / Implementation date: August / September 2026

Note: Refer to the Scheme Implementation Deed released to the ASX by Regis and Vault on the date of this presentation for further detail.

(1) Refer to the combined company snapshot (page 21) in this presentation for further detail of the relevant assumptions.

(2) Subject to adjustment if either Regis or Vault pay a dividend prior to Scheme implementation.

1 Creation of a New +700kozpa¹ Senior Gold Producer

Combined company creates a leading gold producer supported by five established operating hubs in Western Australia

Merger Creates a New Senior Gold Producer ...

FY26 Production Guidance (Koz, AuEq)²

Global Senior Peer Group

ASX Mid-tier Peer Group

... With a Diversified, Multi-Asset Portfolio

Combined Mineral Resources (attributable)^{3,4}

Combined Ore Reserves (attributable)³

Legend:

- Duketon
- Tropicana
- McPhillamys⁴
- Leonora
- Mt Monger
- Deflector
- Sugar Zone

(1) Based on mid-point of latest FY26 guidance reported by Regis in its quarterly activities report dated 23 April 2026 and by Vault in its quarterly activities report dated 22 April 2026. Refer to Appendix C for supporting data.

(2) Based on mid-point of latest FY26 guidance reported by all peers. Reflects 2026 production guidance for IAMGOLD, Equinox Gold, Alamos Gold and OceanaGold. Evolution Mining production shown on a gold equivalency basis. Refer to Appendix C for supporting data.

(3) Pro-forma Mineral Resources and Ore Reserves estimates for the combined company are based on the aggregate Mineral Resources and Ore Reserves estimates (with rounding) of each of Regis and Vault. Mineral Resources are inclusive of Ore Reserves. Refer to Appendix B for further detail on the individual Mineral Resources and Ore Reserves estimates of Regis and Vault. Regis Mineral Resources and Ore Reserves shown as at 31 December 2025 (refer to ASX release titled "Mineral Resource and Ore Reserve Update" dated 22 April 2026). Vault Mineral Resources and Ore Reserves shown as at 30 June 2025 (refer to ASX release titled "2025 Resource and Reserve Statement" dated 15 September 2025).

(4) McPhillamys includes Discovery Ridge.

2 Significant Combined Cash Generation to Drive Returns ...

Both companies have generated significant cash during the last quarter with illustrative combined annualised cash generation of ~A\$1.7bn

Sector Leading Cash Generation (Annualised Quarterly Free Cash Flow, A\$m)^{1,2}

- (1) Free Cash Flow is defined as the change in quarterly cash balance, prior to change in liquid investments, prior to dividend payment, debt repayment, hedge book close out payment, proceeds from asset sales, share buybacks or M&A related charges (including stamp duty, integration costs and other one-off transaction costs). Based on public company disclosures. Refer to Appendix C for further detail and supporting data for all peers.
- (2) Based on latest March quarterly (3Q FY26) Free Cash Flow for ASX peers and Alamos Gold. Based on Q4 2025 for IAMGOLD, Oceana Gold and Equinox Gold given this is the latest public disclosure for these companies. Free cash flow estimate converted from USD to AUD based on FX as at 31-Dec-2025. Refer to Appendix C for further detail and supporting data including FX calculation.

2 ... With Strong Balance Sheet to Fund Growth

Enlarged debt free balance sheet, with ~A\$1.9bn in pro-forma cash and bullion, plus cash generation allows combined group to focus on growth opportunities whilst supporting enhanced capital returns

Sector Leading Debt Free Balance Sheet Allowing Enhanced Capital Returns and Growth

McPhillamys Development Project

- One of the largest undeveloped open pit gold projects in Australia
- McPhillamys has a Mineral Resources of 2,260koz at 1.0g/t Au (excluding Discovery Ridge)
- **McPhillamys development project has potential to create another mining hub in NSW with multiple other growth opportunities**

Sugar Zone Restart

- Acquired in 2022 with investment by Vault to upgrade mining, processing and services infrastructure ongoing
- High grade project in Canada's most prolific gold mining province
- Operation is targeting a restart of production in FY28¹, with Regulatory approval for the new Southern Tailings Management Facility the sole remaining trigger for a low capital intensity restart of operations
- **Sugar Zone has potential to create a new North American platform for growth**

Mill Optimisation

Significant strategic processing infrastructure in prolific gold regions

Brownfield Opportunities

Ongoing Resource to Reserve conversion underpinned by large resource endowment

Enhanced Capital Returns

Supported by strong cash generation

Opportunistic Inorganic Growth

Size and strength to act decisively as growth options emerge

Combined group will have the balance sheet strength and technical capabilities to execute both projects

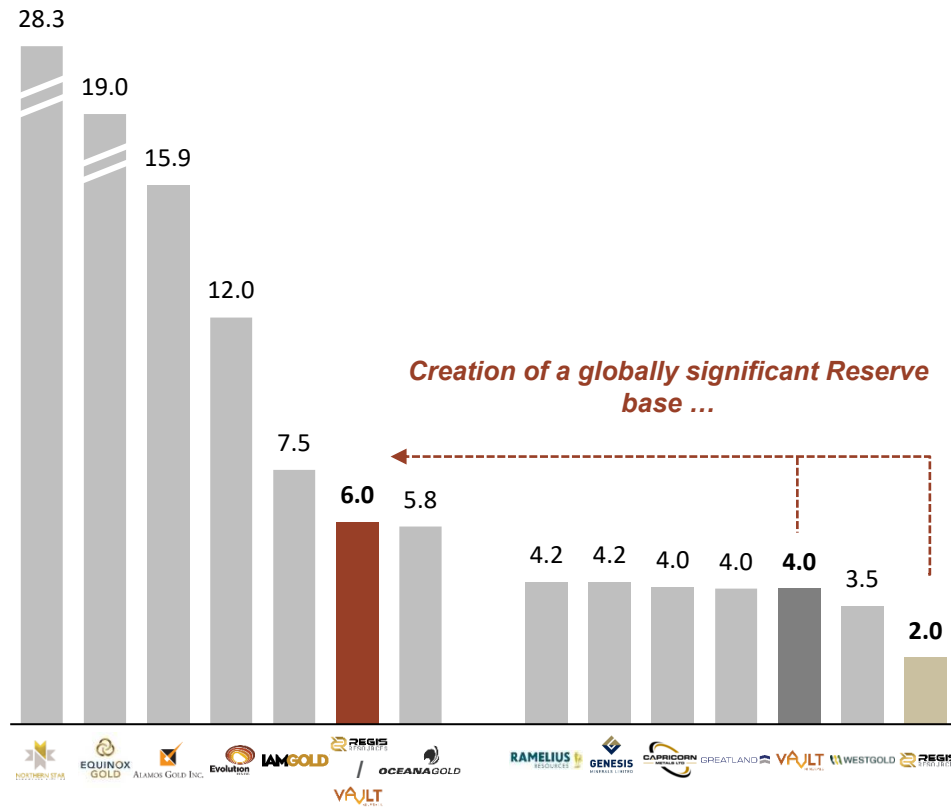

(1) Recommencement of underground operations is subject to receipt of the new Southern Tailings Management Facility (STMF) permitting approval under the current approval timeline of May 2026, mine development targeting to commence in July 2026 with the new dam targeting completion by October 2027. Gold production is scheduled to commence in November 2027. Timeline based on latest as presented in latest March quarterly report released to the ASX titled "Quarterly Activities Report" dated 22 April 2026.

3 Large Mineral Endowment Supports Long Life

Significant Reserve base with sizable Mineral Resources supporting life extension across the portfolio

Ore Reserve Base to Support Near Term Production ...

Ore Reserves (Moz Au)^{1,2,3}

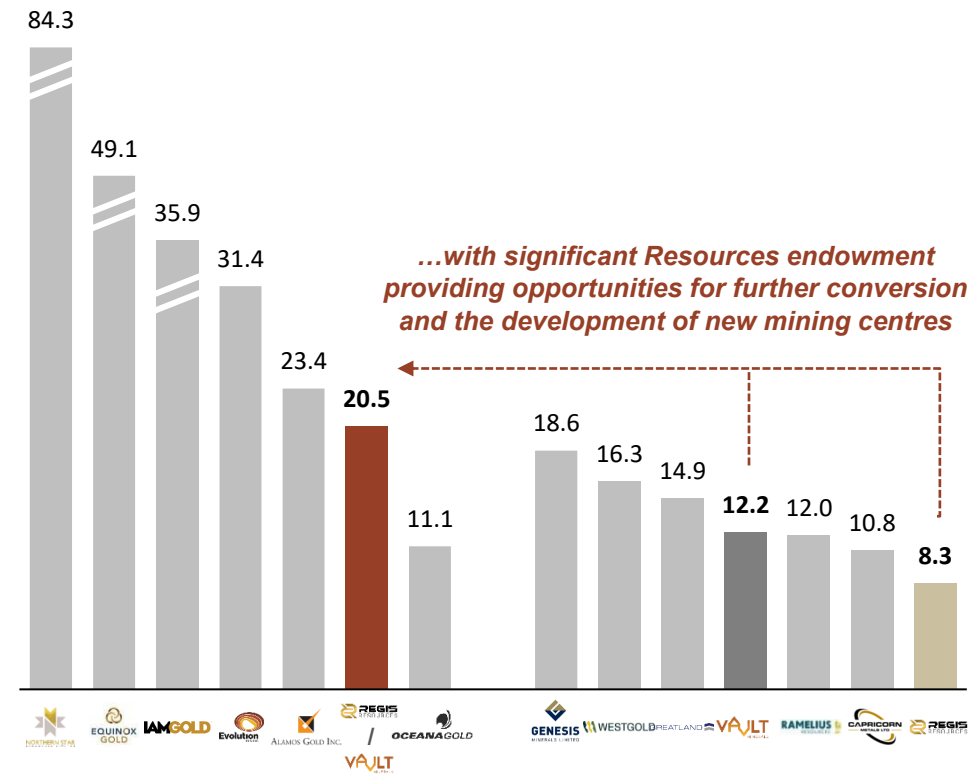

Global Senior Peer Group

ASX Mid-tier Peer Group

... and Significant Mineral Resources

Mineral Resources (Moz Au)^{1,2,3}

Global Senior Peer Group

ASX Mid-tier Peer Group

(1) Refer to Appendix C for further detail on all the peers Mineral Resources and Ore Reserves including the source of the data, date of the Mineral Resources and Ore Reserves estimate and date of the disclosure. Errors of summation may occur due to rounding. Alamos Gold, Equinox Gold, IAMGOLD and Oceana Gold estimate and report resource estimates in accordance with National Instrument NI 43-101 (as opposed to the JORC Code). National Instrument NI 43-101 is an internationally recognised code for the reporting of mineral resource estimates. However, whilst the reporting requirements prescribed by National Instrument NI 43-101 and the JORC Code have similar goals in terms of conveying an appropriate level of confidence in the disclosures being reported, they also embody different approaches and definitions and have certain differences. Accordingly, care should therefore be used when making direct comparisons between the Ore Reserves and Mineral Resources estimates of companies that report those estimates in accordance with different industry codes.

(2) Shown on a gold (Au) basis.

(3) Pro-forma Mineral Resources and Ore Reserves estimates for the combined company are based on the aggregate Mineral Resources and Ore Reserves estimates (with rounding) of each of Regis and Vault. Mineral Resources are inclusive of Ore Reserves. Refer to Appendix B for further detail on the individual Mineral Resources and Ore Reserves estimates of Regis and Vault. Regis Mineral Resources and Ore Reserves shown as at 31 December 2025 (refer to ASX release titled "Mineral Resource and Ore Reserve Update" dated 22 April 2026). Vault Mineral Resources and Ore Reserves shown as at 30 June 2025 (refer to ASX release titled "2025 Resource and Reserve Statement" dated 15 September 2025).

4 Diversified Portfolio of Scale and Quality with Enhanced Operational Resilience

Combining complementary strengths to build a larger, more diversified and resilient platform

Diversified Western Australian Gold Production ...

FY26G Production (Koz), FY26G AISC (A\$/oz)¹ (Bubble size = Mineral Resources²)

... Supported by Diverse Operating Base and Exploration Upside Potential

- 
Improved operational resilience of the combined portfolio
- 
Multiple sources of production across underground and open pit mines
- 
Mineral Resources base contains strong pipeline of growth levers to develop new production centers in prolific mining districts
- 
Management and technical teams with recognised operational strengths and skills to drive capital efficiencies and unlock value

(1) Based on mid-point of latest FY26 guidance per asset reported by Regis in its investor presentation dated 19 February 2026 (overall guidance re-iterated guidance in quarterly activities report dated 23 April 2026) and by Vault in its investor presentation dated 17 March 2026 (overall guidance re-iterated guidance in quarterly activities report dated 22 April 2026). Refer to Appendix C for supporting data.
 (2) Mineral Resources are inclusive of Ore Reserves. Refer to Appendix B for further detail on the individual Mineral Resources and Ore Reserves estimates of Regis and Vault. Regis Mineral Resources and Ore Reserves shown as at 31 December 2025 (refer to ASX release titled "Mineral Resource and Ore Reserve Update" dated 22 April 2026). Vault Mineral Resources and Ore Reserves shown as at 30 June 2025 (refer to ASX release titled "2025 Resource and Reserve Statement" dated 15 September 2025).

5 Scope to Unlock Value Through Synergies

Transaction is expected to unlock further value through synergies, >A\$500 million of tax benefits¹ and a lower cost of capital

Cost Efficiencies

Opportunity to realise procurement savings from enlarged portfolio

Reduction in Australian corporate costs

Tax Benefits

Over A\$500 million in corporate tax benefits¹ from the anticipated write-up of tax assets

Lower Cost of Capital

Larger and more diversified company to attract a lower cost of capital to fund future growth

(1) Expected undiscounted estimate of tax savings from an uplift in the tax value of depreciable assets and inventory arising from tax purchase price allocation, net of expected stamp duty for the transaction.

6 Increased Liquidity and a Step-Change in Global Market Relevance

Increased investor appeal through creation of a new senior gold producer

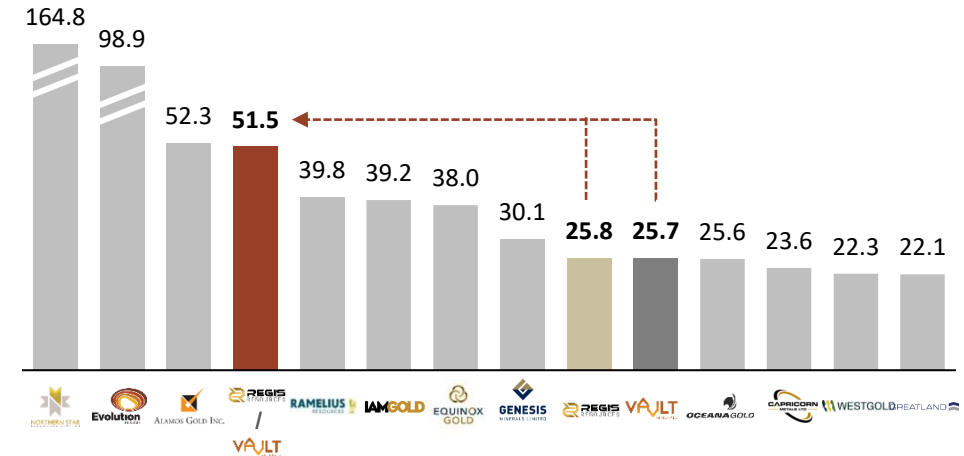

Enhanced Scale...

Market Capitalisation (A\$bn)^{1,2}

...With Expected Improved Trading Liquidity

12 Month Median Daily Traded Value (A\$m)^{1,3}

...To Support Upside in Market Value

Step-change in investor base towards large-cap investors

Enhanced investment appeal to global gold and generalist investors

Broader broker coverage

Increased index representation and passive participation

Increased trading liquidity

(1) Based on IRESS share price, volume and daily traded value data as at 04 May 2026. Refer to Appendix C for all supporting details, assumptions and estimates.
 (2) Market capitalisation based on FactSet estimate of basic shares outstanding as at 04 May 2026. For the combined company capitalisation refer to the combined company snapshot (page 21) for supporting assumptions and calculations.
 (3) Median based on last twelve month median to 04 May 2026.

6 Potential for Market Re-rate Through Shift to Senior Global Peer Group

Creation of a new senior global gold producer with sector leading earnings and cash flow generation

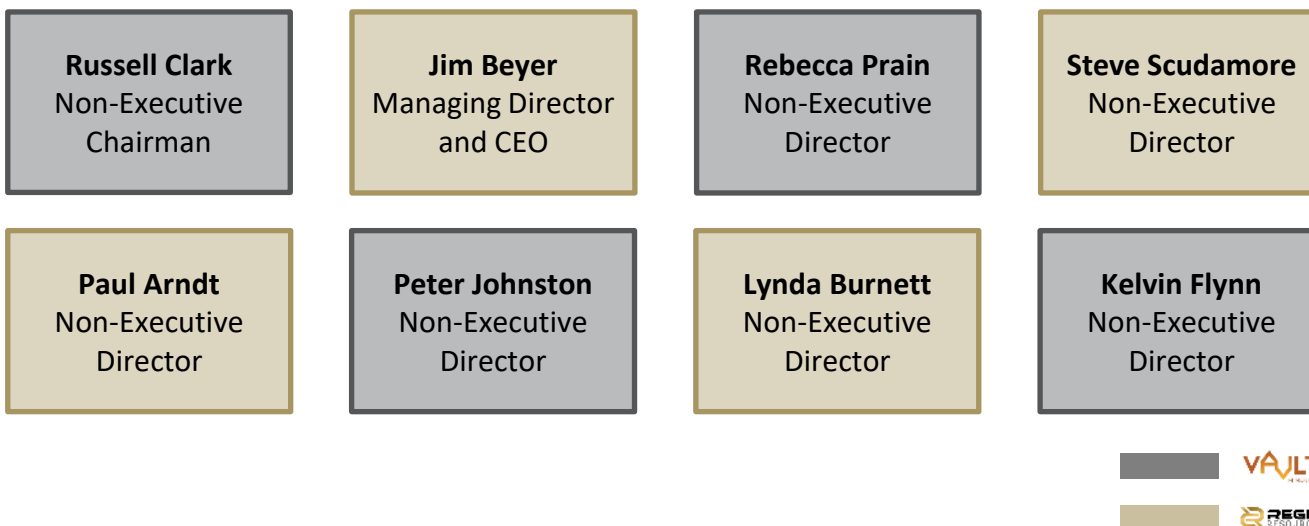

(1) Based on capitalisation as of 04 May 2026 (01 May 2026 for TSX listed companies) based on last close share price from IRESS and FactSet estimate of basic shares outstanding. For the combined company capitalisation refer to the combined company snapshot (page 21) for supporting assumptions and calculations.
 (2) Free Cash Flow is defined as the change in quarterly cash balance, prior to dividend payment, debt repayment, hedge book close out payment, proceeds from asset sales, share buybacks or M&A related charges (including stamp duty, integration costs and other one-off transaction costs). Based on public company disclosures. Refer to Appendix C for further detail and supporting data for all peers.
 (3) Based on latest March quarterly (3Q FY26) Free Cash Flow for ASX peers and Alamos Gold. Based on Q4 2025 for IAMGOLD, Oceana Gold and Equinox Gold given this is the latest public disclosure for these companies. Free Cash Flow estimate converted from USD to AUD based on FX as at 31-Dec-2025. Refer to Appendix C for further detail and supporting data including FX calculation.
 (4) Enterprise value based on market capitalisation referred to in footnote 1. Latest net cash / (debt) values used as per latest public quarterly results. Refer to Appendix C for further detail and supporting data for all peers.
 (5) Based on broker consensus estimate of net asset value per share based on FactSet data as at 04 May 2026.

7 Experienced Management Team with Proven Track Record

Company to benefit from combined operational workforce with recognised technical strengths and skills to deliver increased capacity and capability

Combined Board of Directors

Senior Management

Overview

- The combined board reflects the strong and complementary expertise of both Regis and Vault
- Combined workforces with recognised operational strengths and skills to drive capital efficiencies and unlock value across the enlarged portfolio
- Board made up of 4 : 4 split of Directors between Regis and Vault
- Combined company to be led by Russell Clark as Non-executive Chairman and Jim Beyer as Managing Director and CEO

Logical Consolidation of Two ASX Listed Gold Miners

Clear benefits to all shareholders through the creation of a leading, globally relevant senior gold producer

Benefits to both Shareholder Groups

- ✓ **Creation of a new Senior Gold Producer** with 6.0Moz in Ore Reserves and 20.5Moz in Mineral Resources¹
- ✓ **Optionality to expand and maintain longer term production through resource conversion**
- ✓ **Leading free cash flow generation amongst peers** and a sector leading debt free balance sheet with over A\$1.9bn pro-forma net cash²
- ✓ **Step-change increase in market relevance, opening up incremental market and gold index inclusion opportunities**
- ✓ **Complementary and proven board and management teams to drive growth**
- ✓ **Elevation to the senior global gold producer peer group with potential to drive a re-rate opportunity**
- ✓ **Enhanced production profile across five established mining hubs in tier 1 jurisdictions with extension and growth opportunities**
- ✓ **Expected to unlock synergies through procurement efficiencies and over A\$500 million of tax benefits**

Benefits to Regis Shareholders

- ✓ **Exposure to long-life and low-cost asset at Leonora**
- ✓ **North American growth pathway introduced through Sugar Zone**
- ✓ **Meaningfully larger Ore Reserve base**

Benefits to Vault Shareholders

- ✓ **Premium of 11%^{3,4} and retained ~49%^{2,4} ownership in combined company**
- ✓ **Exposure to high-quality Tropicana JV and Duketon complex**
- ✓ **Future potential upside from McPhillamys⁵**

- (1) Pro-forma Mineral Resources and Ore Reserves estimates for the combined company are based on the aggregate Mineral Resources and Ore Reserves estimates (with rounding) of each of Regis and Vault. Mineral Resources are inclusive of Ore Reserves. Refer to Appendix B for further detail on the individual Mineral Resources and Ore Reserves estimates of Regis and Vault. Regis Mineral Resources and Ore Reserves shown as at 31 December 2025 (refer to ASX release titled "Mineral Resource and Ore Reserve Update" dated 22 April 2026). Vault Mineral Resources and Ore Reserves shown as at 30 June 2025 (refer to ASX release titled "2025 Resource and Reserve Statement" dated 15 September 2025).
- (2) Refer to the combined company snapshot (page 21) for further details and assumptions. Pro-forma cash and bullion as at 31 March 2026 prior to interim dividend payments made after the quarter.
- (3) Based on the implied offer price at the exchange ratio as at last close as on 04 May 2026 for both Regis and Vault. Exchange ratio is subject to change based on dividends paid ahead of the Scheme implementation date, in accordance with a commensurate adjustment to the merger exchange ratio as outlined in the SID.
- (4) Subject to adjustment if either Regis or Vault pay a dividend prior to Scheme implementation.
- (5) Subject to alternative tailings storage facility solution which requires extensive new investigations and studies. Due to the Section 10 Declaration, the McPhillamys definitive feasibility study outcomes cannot be relied upon.

Indicative Timetable

Scheme booklet expected to be issued to all Vault shareholders in accordance with the indicative timetable set out below with a targeted completion in August or September

Event	Date
Vault to submit draft Scheme booklet to ASIC	June 2026
First court hearing	July 2026
Scheme booklet dispatched to Vault shareholders	July / August 2026
Scheme meeting	August / September 2026
Second court hearing	August / September 2026
Effective date	August / September 2026
Scheme record date	August / September 2026
Implementation date	August / September 2026

Note: This is an indicative timetable only and is subject to change, including following any regulatory consultation and as may be required by the Court. Timetable is subject to Court availability.

Combined Company Snapshot

	Unit	Regis	Vault	Pro-Forma Combined Company
Share Price (as at 04 May 2026) ¹	A\$/ share	7.17	4.50	n/a
Shares Outstanding ^{2,3}	#m	757	1,054	1,489
Market Capitalisation⁴	A\$m	5,429	4,742	10,679
Cash and Equivalents (as at 31 March 2026) ⁵	A\$m	1,128	728	1,856
Debt (as at 31 March 2026) ^{5,6}	A\$m	-	-	-
Enterprise Value	A\$m	4,301	4,014	8,823
Ore Reserves ⁷	Moz Au	2.0	4.0	6.0
Mineral Resources ⁷	Moz Au	8.3	12.2	20.5
FY26 Production Guidance ⁸	koz Au	350 - 380	332 - 360	682 - 740
FY26 AISC Guidance ⁸	A\$/ oz	2,610 - 2,990	2,650 - 2,850	2,629 - 2,922

(1) Based on the last close share price of Regis and Vault as at 04 May 2026 as per IRESS trading data.

(2) Based on Regis' fully paid ordinary shares on issue and Vault fully diluted shares outstanding. Refer to Schedule 7 & 8 of the SID. Combined company shares reflects Regis diluted shares outstanding plus 0.6947 new Regis shares issued to Vault shareholders for each Vault share held based on fully diluted shares outstanding of 1,034,565,895 ordinary fully paid shares and 19,264,942 performance rights.

(3) Exchange ratio is subject to change based on dividends paid ahead of the Scheme implementation date, in accordance with a customary commensurate adjustment to the merger exchange ratio as outlined in the SID.

(4) Pro-forma combined company market capitalization based on the last share price of Regis (A\$7.17/sh) and pro-forma Regis fully paid ordinary shares on issue of 1,489 million post implementation of the scheme (adjusted for the vesting of performance rights).

(5) Refer to Appendix C for further detail and supporting data. Regis cash and equivalents and debt balance as at 31 March 2026 (Refer to ASX release titled "Quarterly Activities Report" dated 23 April 2026). Vault cash and equivalents and debt balance as at 31 March 2026 (Refer to ASX release titled "Quarterly Activities Report" dated 22 April 2026).

(6) Excludes lease liabilities.

(7) Pro-forma Mineral Resources and Ore Reserves estimates for the combined company are based on the aggregate Mineral Resources and Ore Reserves estimates (with rounding) of each of Regis and Vault. Mineral Resources are inclusive of Ore Reserves. Refer to Appendix B for further detail on the individual Mineral Resources and Ore Reserves estimates of Regis and Vault. Regis Mineral Resources and Ore Reserves shown as at 31 December 2025 (refer to ASX release titled "Mineral Resource and Ore Reserve Update" dated 22 April 2026). Vault Mineral Resources and Ore Reserves shown as at 30 June 2025 (refer to ASX release titled "2025 Resource and Reserve Statement" dated 15 September 2025).

(8) Based on mid-point of latest FY26 guidance reported by Regis in its quarterly activities report dated 23 April 2026 and by Vault in its quarterly activities report dated 22 April 2026. Refer to Appendix C for supporting data.

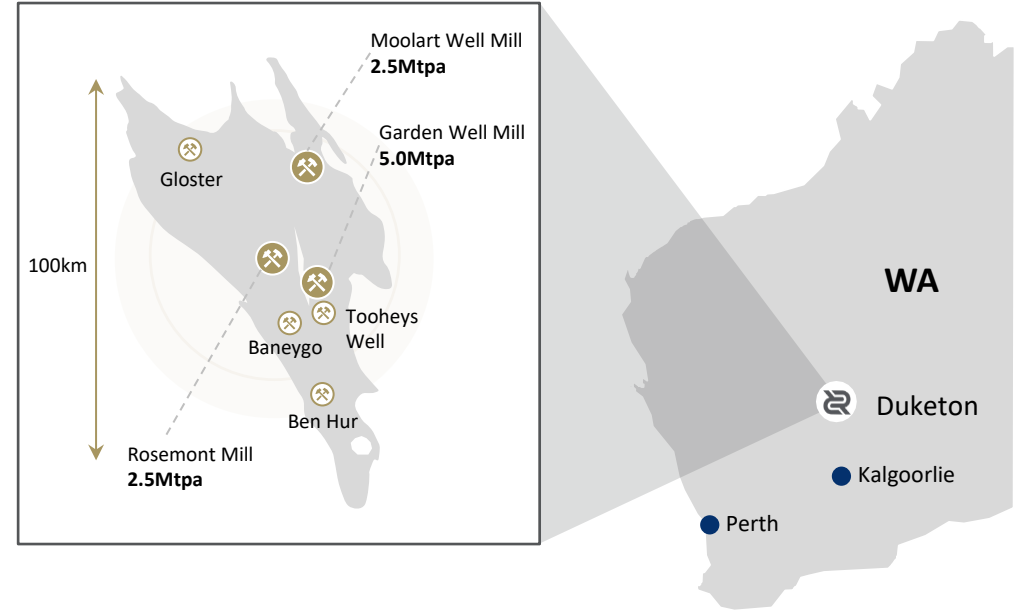

Appendix A: Combined Portfolio

Duketon

Regis' 100% owned Duketon gold project is in the northeastern Goldfields, ~130km north of Laverton

Asset Overview & Outlook

- ~2,500km² land package which is transitioning to a majority underground mining complex. Currently operating open pit and underground mines
- Two operating centres:
 - Duketon South Operations (DSO):
 - Garden Well process plant with a 5.0Mtpa capacity
 - Rosemont process plant with a 2.5Mtpa capacity
 - Duketon North Operations (DNO):
 - Moolart Well process plant with a 2.5Mtpa capacity

Ore Reserves & Mineral Resources ¹	Ore (Mt)	Grade (Au g/t)	Contained (Au koz)
Total Reserves	38.0	1.1	1,389
Total Resources	104.0	1.2	3,990

FY26 Guidance ³	Duketon
Production (koz)	220 - 240
AISC (A\$/oz)	2,790 – 3,200

(1) Mineral Resources shown inclusive of Ore Reserves. Regis Mineral Resources and Ore Reserves shown as at 31 December 2025 (refer to ASX release titled "Mineral Resource and Ore Reserve Update" dated 22 April 2026).
 (2) ASX release titled "Regis Extends Duketon North Operation Through More Organic Growth" released on 13-Nov-2025.
 (3) Based on FY26 guidance per asset reported by Regis in its investor presentation dated 19 February 2026 (overall guidance re-iterated guidance in quarterly activities report dated 23 April 2026). Refer to Appendix C for supporting data.

Tropicana

Regis' 30% owned Tropicana gold project is on the western edge of the Great Victoria Desert

Asset Overview & Outlook

- Tropicana is 30% owned by Regis and is operated by AngloGold Ashanti, the other 70% owner
- The mine is situated ~330km east-northeast of Kalgoorlie in Western Australia
- 2,100km² of exploration tenements in Albany Fraser belt
- Mining currently consists within the Havana open pit, and across the Tropicana and Boston Shaker underground mines
- Focus on ramping up the Havana open pit with reduced waste management while developing the third underground mine, Havana
- Current production from ~9.4Mtpa milling capacity
- Regional exploration aims to discover satellite resources within 20km of the mill

Ore Reserves & Mineral Resources ¹	Ore (Mt)	Grade (Au g/t)	Contained (Au koz)
Total Reserves	12.0	1.5	576
Total Resources	26.0	1.9	1,620

FY26 Guidance ²	Tropicana
Production (koz) (30%)	130 - 140
AISC (A\$/oz)	2,300 – 2,600

(1) Mineral Resources shown inclusive of Ore Reserves. Regis Mineral Resources and Ore Reserves shown as at 31 December 2025 (refer to ASX release titled "Mineral Resource and Ore Reserve Update" dated 22 April 2026).

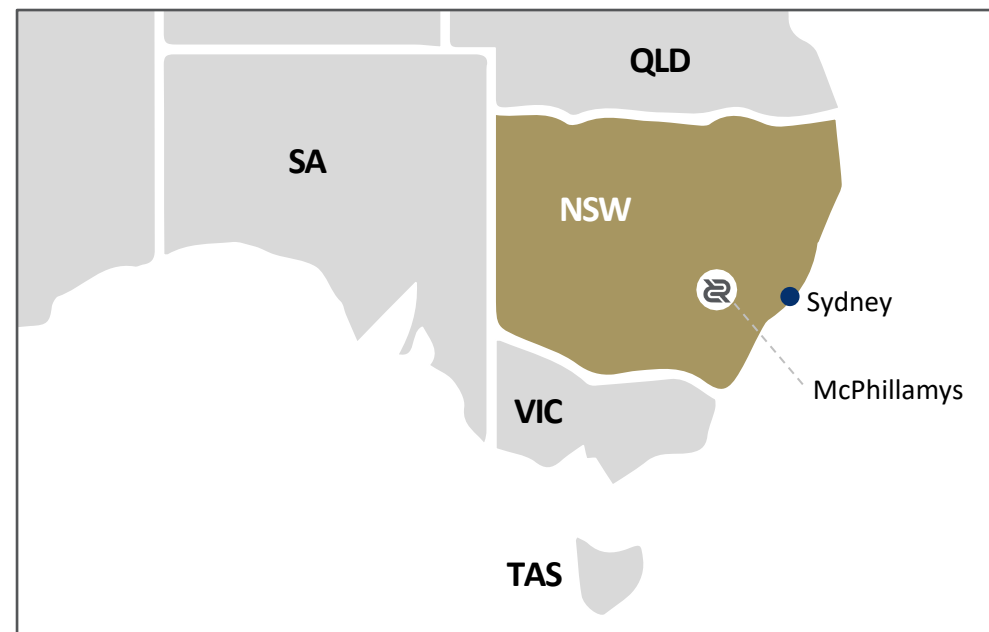

(2) Based on FY26 guidance per asset reported by Regis in its investor presentation dated 19 February 2026 (overall guidance re-iterated guidance in quarterly activities report dated 23 April 2026). Refer to Appendix C for supporting data (pages 36ff.).

McPhillamys

Regis' 100% owned McPhillamys is one of the largest undeveloped open pit gold projects in Australia

Asset Overview & Outlook

- ~250km west of Sydney in the Blayney-Kings Plains district in an established mining region of Central Western NSW
- Previous McPhillamys^{1,2} project scope included ~7.0Mtpa mill over a ~10-year mine-life to produce an average of 187koz gold and a peak of 235koz
 - Initial capital expenditure of A\$996m as per DFS with LOM AISC of A\$1,580/oz
- Due to the Section 10 Declaration, the tailings storage facility (TSF) became unviable and as a result, the previous DFS cannot be relied upon
 - Alternative TSF solution requires extensive new investigations and studies which are currently underway
 - Timeframe to progress is measured in years, not months, with no certainty of a viable alternative being realised³
- Discovery Ridge and Kings Plains represent growth opportunities that could extend life and the value of McPhillamys project in the future
- McPhillamys development project has potential to create another mining hub in NSW with multiple other growth opportunities

Mineral Resources ⁴	Ore (Mt)	Grade (Au g/t)	Contained (Au koz)
Total Resources	78.0	1.1	2,660

(1) See ASX releases dated 19 August 2024 and 21 August 2024 for further detail on the Section 10 Declaration and its impacts on the McPhillamys Project.

(2) McPhillamys DFS released to ASX on 22 July 2024.

(3) As per commentary in latest Regis investor presentation dated 09 February 2026.

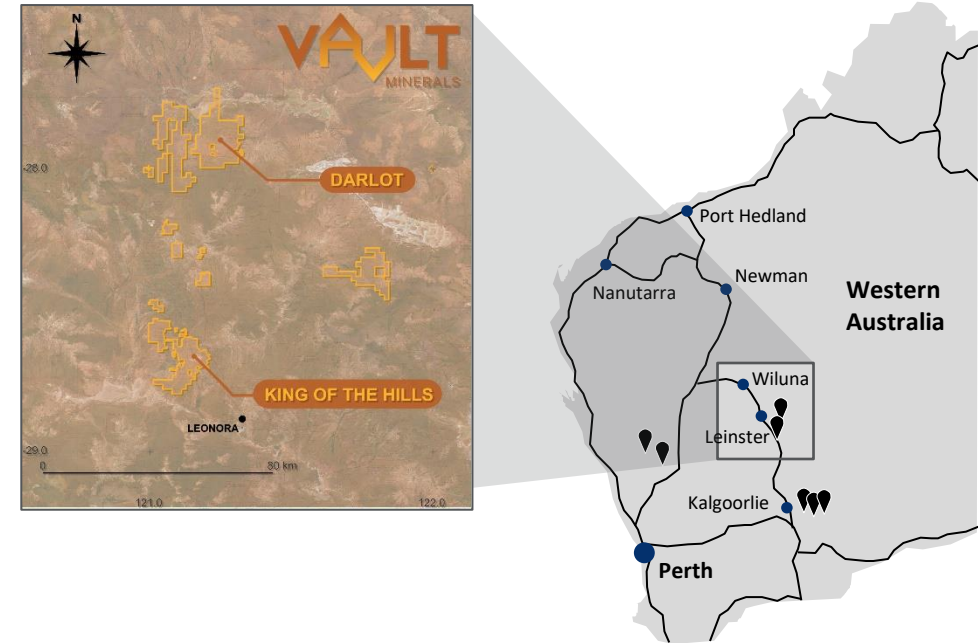

(4) Mineral Resources shown inclusive of Ore Reserves. Regis Mineral Resources and Ore Reserves shown as at 31 December 2025 (refer to ASX release titled "Mineral Resource and Ore Reserve Update" dated 22 April 2026). Mineral Resources includes Discovery Ridge, reflecting the total of the Regis' group's NSW deposits.

Leonora

Vault’s 100% owned Leonora hub is within the Goldfields Region of Western Australia

Asset Overview & Outlook

- Leonora is 2.5hrs north of Kalgoorlie in the Northern Goldfields region situated on the Yandal Greenstone Belt and is one of Australia’s most prolific gold regions
- Cornerstone long life operation with base case 18 year Ore Reserves backed LOM
- Step change in underground exploration demonstrating potential to extend underground production sources and sustain established production rates
- Vault’s Leonora hub is underpinned by the recently expanded 6.0Mtpa KoTH processing facility – the dominant processing facility in the region
 - Stage 2 plant upgrade will increase processing capacity to 8.0Mtpa to deliver 34% production growth, with expansion expected to be complete in Q2 FY27
- Potential for a low capital intensity refurbishment of the Darlot mill to increase processing capacity and gold production in Leonora

Ore Reserves & Mineral Resources ¹	Ore (Mt)	Grade (Au g/t)	Contained (Au koz)
Total Reserves	131.3	0.7	2,787
Total Resources	156.9	1.2	6,172

FY26 Guidance ²	Leonora
Production (koz)	185 – 200
AISC (A\$/oz)	2,250 – 2,450

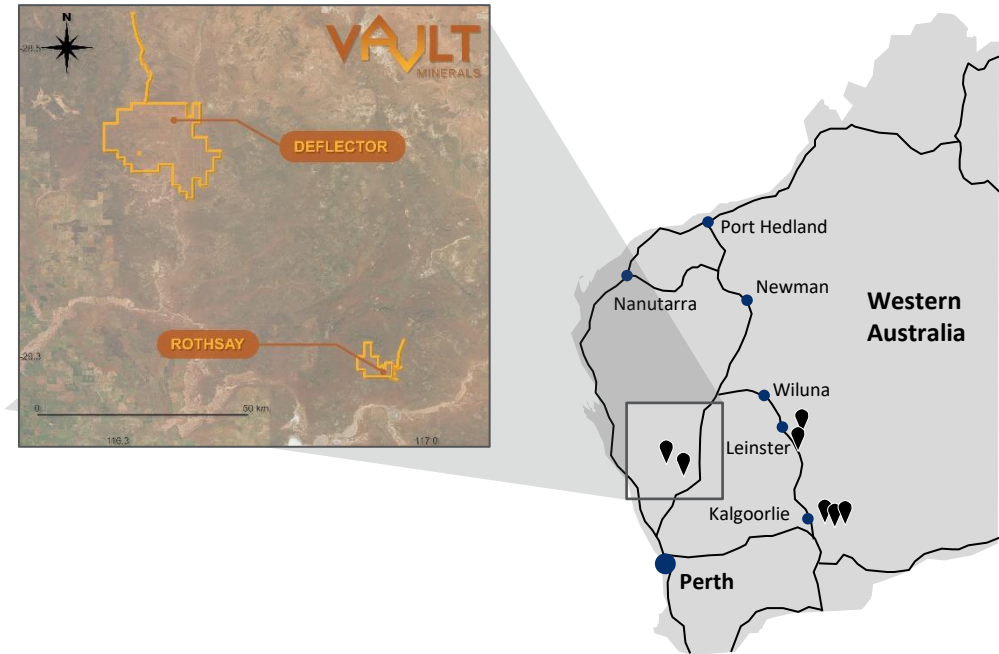

(1) Mineral Resources shown inclusive of Ore Reserves. Vault Mineral Resources and Ore Reserves shown as at 30 June 2025 (refer to ASX release titled “2025 Resource and Reserve Statement” dated 15 September 2025).
 (2) Based on FY26 guidance per asset reported by Vault in its investor presentation dated 17 March 2026 (overall guidance re-iterated guidance in quarterly activities report dated 22 April 2026). Refer to Appendix C for supporting data.

Deflector

Vault’s 100% owned Deflector operation is 160km east of Geraldton

Asset Overview & Outlook

- Deflector operation in the Midwest region of WA, comprises the Deflector and Rothsay underground mines, both of which feed the ~0.8Mtpa Deflector processing facility
- Transition to owner-operated mining at Deflector commenced November 2025, with the operation exiting Q3 FY26 at target manning numbers with the primary underground mining fleet commissioned
- Exploration is focused on new mining fronts to extend life beyond Ore Reserves:
 - Contact Lode set to provide a new underground mining front within Deflector underground
 - Drilling commenced in March 2026 targeting the multiple past-producing mines on the Gullewa trend, ~7km from Deflector processing facility

Ore Reserves & Mineral Resources ¹	Ore (Mt)	Grade (Au g/t)	Contained (Au koz)
Total Reserves	1.8	3.4	192
Total Resources	4.5	7.0	1,002

FY26 Guidance ²	Deflector
Production (koz)	72 - 78
AISC (A\$/oz)	3,300 – 3,500

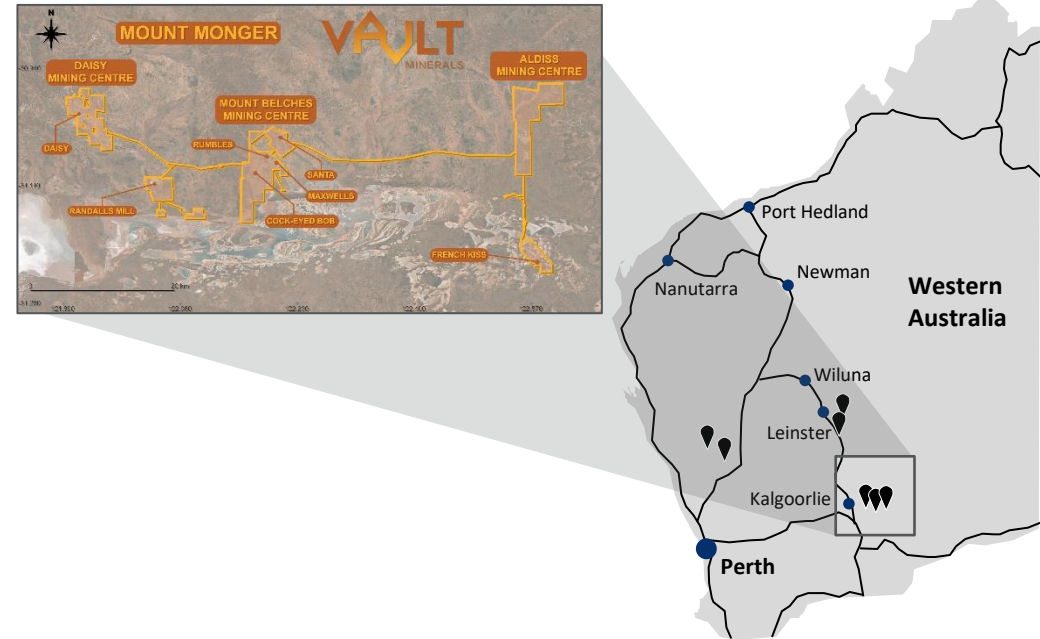

(1) Mineral Resources shown inclusive of Ore Reserves. Vault Mineral Resources and Ore Reserves shown as at 30 June 2025 (refer to ASX release titled “2025 Resource and Reserve Statement” dated 15 September 2025).
 (2) Based on FY26 guidance per asset reported by Vault in its investor presentation dated 17 March 2026 (overall guidance re-iterated guidance in quarterly activities report dated 22 April 2026). Refer to Appendix C for supporting data (pages 36ff.).

Mount Monger

Vault’s 100% owned Mount Monger operation is in the Goldfields region of Western Australia

Asset Overview & Outlook

- Mount Monger is located ~50km south-east of Kalgoorlie within the Goldfields region of WA
- The Santa Open Pit Complex to underpin base load mill feed to FY34, with Daisy underground feed supplementing open pit feed in FY27, enhancing the short-term production outlook¹
- Rumbles open pit to extend open pit mining at Mount Belches with a proven exploration and development strategy to leverage mining and process infrastructure
- Multiple ore sources feeding mill with capacity of ~1.3Mtpa

Ore Reserves & Mineral Resources ²	Ore (Mt)	Grade (Au g/t)	Contained (Au koz)
Total Reserves	11.5	1.7	629
Total Resources	35.2	3.4	3,829

FY26 Guidance ³	Mount Monger
Production (koz)	75 – 82
AISC (A\$/oz)	3,100 – 3,300

(1) As per ASX announcement titled “FY26 guidance and three year outlook” dated 22 September 2025.

(2) Mineral Resources shown inclusive of Ore Reserves. Vault Mineral Resources and Ore Reserves shown as at 30 June 2025 (refer to ASX release titled “2025 Resource and Reserve Statement” dated 15 September 2025).

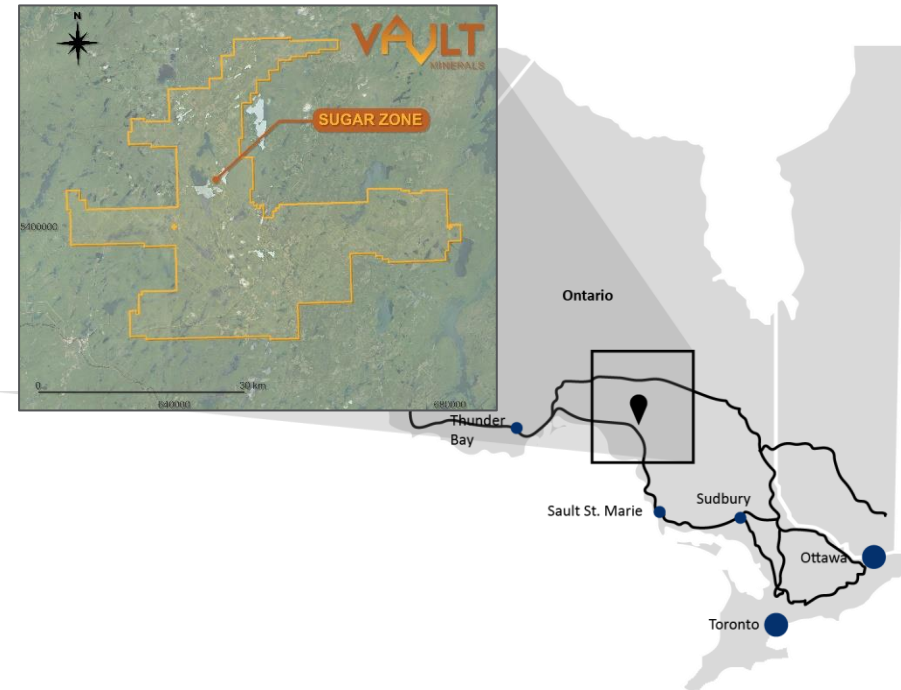

(3) Based on FY26 guidance per asset reported by Vault in its investor presentation dated 17 March 2026 (overall guidance re-iterated guidance in quarterly activities report dated 22 April 2026). Refer to Appendix C for supporting data.

Sugar Zone

Vault's 100% owned Sugar Zone project is in Ontario, Canada, between Thunder Bay and Sault St Marie

Asset Overview & Outlook

- Vault acquired Sugar Zone in 2022 and undertook a period of investment to upgrade mining, processing and services infrastructure
- The operation is targeting a restart of production in FY28¹, with Regulatory approval for the new Southern Tailings Management Facility (STMF) the sole remaining trigger for a low capital intensity restart of operations
- Vault has completed significant infill and discovery drill programs, increasing ore body knowledge and delivering Ore Reserve growth through an additional shallow, high grade production front, effectively de-risking production
- Plan for low-capital intensity restart of operations leveraging upgraded mining, processing and services infrastructure
- Significant exploration potential at immediate Sugar Zone corridor and extensive regional land package

Ore Reserves & Mineral Resources ²	Ore (Mt)	Grade (Au g/t)	Contained (Au koz)
Total Reserves	2.3	5.4	389
Total Resources	4.8	8.0	1,229

Forecast Output	Sugar Zone
Average Annual Production (koz) ³	~50koz for a 6.5 year LOM

(1) Recommencement of underground operations is subject to receipt of the new Southern Tailings Management Facility (STMF) permitting approval under the current approval timeline of May 2026, mine development targeting to commence in July 2026 with the new dam targeting completion by October 2027. Gold production is scheduled to commence in November 2027. Timeline based on latest as presented in latest March quarterly report released to the ASX titled "Quarterly Activities Report" dated 22 April 2026.

(2) Mineral Resources shown inclusive of Ore Reserves. Vault Mineral Resources and Ore Reserves shown as at 30 June 2025 (refer to ASX release titled "2025 Resource and Reserve Statement" dated 15 September 2025).

(3) See the Vault Announcement titled "Half-Year Financial Results to 31 December 2024. Growth strategy accelerating" dated 27 February 2025. Vault confirms that all material assumptions underpinning the Sugar Zone production target in the original announcement continue to apply and have not materially changed.

Appendix B: Mineral Resources and Ore Reserves Statement

Source: Company Disclosures. Notes: Refer to upfront “Important Information and Disclaimers” section for relevant disclaimers. Based on public disclosures available on ASX website at <https://www.asx.com.au/> or SEDAR at www.sedarplus.ca/home/ for Alamos Gold, IAMGOLD, Oceana Gold and Equinox Gold. Errors of summation may occur due to rounding. Alamos Gold, IAMGOLD, Oceana Gold and Equinox Gold estimate and report resource estimates in accordance with National Instrument NI 43-101 (as opposed to the JORC Code). National Instrument NI 43-101 is an internationally recognised code for the reporting of mineral resource estimates. However, whilst the reporting requirements prescribed by National Instrument NI 43-101 and the JORC Code have similar goals in terms of conveying an appropriate level of confidence in the disclosures being reported, they also embody different approaches and definitions and have certain differences. Accordingly, care should therefore be used when making direct comparisons between the Ore Reserves and Mineral Resources estimates of companies that report those estimates in accordance with different industry codes.

(1) Mineral Resources are inclusive of Ore Reserves.
